LADIES ARE STILL IN SESSION

Report of the Committee on Pension, Which Was Adopted, is Similar to That of Last Year.

LOUISVILLE, Sept. 15 .- So far as the veterans are concerned the 29th annual encampment closed tonight with so many attractions as on the other nights there were over 7000 at the old Kentucky barbecue and tonight campfires were events at Music hall, Phoenix Hill garspeakers were:

Burke and C. M. Clay, Senator Burrows, peso and the American gold dollar. Colonel Wickersham, Samuel McKee, H. C. Russel and John H. Leathers.

The veterans are going to other army events further south and to the Atlanta exposition.

Resolutions were adopted at the national encampment declaring it to be the sense of that body that all old veterans should be favored by civil service boards; that such boards should not discriminate against those heroes of the rebellion on account of age. Another matter ot interest was the adoption of a resolution favoring the placing of flags on every public school building and the introduction of military drill in the public school curriculum.

There was an adverse report made on the resolution favoring the establishment of a national university of patriotism and the report was adopted.

The camp further declared itself number of veterans, who are becoming trievably lost. too feeble to endure them. It was also decided that a special celebration should be held on the next anniversary of the establishing of the first Grand Army post. Resolutions were next adopted asking congress to make an annual appropriation to defray the expenses of conducting Memorial day services in national cemeteries.

Independence hall will be the permanent depository of all the books, records and relics of the Grand Army. Past-Commander Wagner, of Pennsylvania, offered the famous old building in the name of the people of Philadelphia at the encampment this afternoon and it was accepted. An effort was made to abolish the "house of lords" at all future encampments. By this all past-commanders-in-chief would lose their right to seats in future encampments. The proposition created a lively discussion, but was defeated.

A Fire in a Newspaper Office.

NEW YORK, Sept. 13 .- This morning's World was probably the only regular issue of the newspaper which contained not a line of advertising. Flooding the pressroom on account of fire reduced the press capacity so that it was impossible to print only eight pages, and eight solid pages of advertisements were thrown consequent upon it, which included the stopping of all typesetting machines by cutting of the gas, the paper went to press on time. The World is receiving from newspapers throughout the country expressions of regret at its loss. It expresses gratitude for the cordial interest manifested, assuring its friends no serious damage has been done, owing to the fireproof nature of the building.

It was stated in the office of the World today that about 100 tons of paper were damaged by last night's fire, and that the total loss was estimated at \$3-000. The fire started in the paper-room from an electric wire.

Engineer to Blame for the Melby Rail-

Sr. CLOUD, Minn., Sept. 13 .- The verdict by the coroner's jury in the Melby railroad accident was as follows:

"We find the direct cause of the acci dent is to be laid to Engineer Haines, in acting on wrong orders; we further blame the company for ordering the passenger trains to meet at a blind siding, where there is no agent, and where no lights are kept; also for allowing conductors to send two orders to the engineer, when oue is needed."

She saw Blanche Lamont on the east side of the Powell-street dummy going toward Market. Blanche was accompained by a young man, whom she identified as Durrant. She was particularly impressed by this, because the rules of the school discountenanced girls going to and from school with young men. She described Durrant's costume minutely on that occasion.
