over a quarter of a million dollars. In arranging the details of the race and in the expenditure of the people who go forth to see it, probably twice as much will be involved.

THE CHAUTAUQUA COURSE.

It may be interesting to some of our readers, who may be thinking of beginning the year of study with the Chautauqua course, to see a resume of the work of that course. The curriculum is planned to cover four years, and may be accomplished by most readers in an hour a day during nine or ten months of the year.

No examination is required, no degrees are given. The diploma granted is only valuable as it represents conscientious work. No place is so remote, so isolated, that this plan of study cannot be advantageously followed.

WESTERN WEALTH BECOMING KNOWN.

The resources of the great Northwest are gradually becoming well known and discussed in the eastern states, where the idea that the West is still in primitive stages of civilization yet predominates.

WOOL MEN VS. A THEORIST.

There is a difference of opinion between W. L. Wilson, the leader of the late democratic party in the house of representatives, and the wool growers of Idaho.

The owner of the land in the field of Chickamauga, in which was situated the three hundred foot gap, afterward filled by Gordon Granger's men, said, in 1880, that from that single hill he had dug and sold four hundred pounds of lead in bullets.

Hops and wheat are in the same demoralized condition. The prospects for both, which a couple of months ago seemed very bright, have changed to a grave outlook. The wheat situation is the more problematic, and contains possibilities of betterment.

A recent paper gave an account of an arrangement of electrical wires by which in India a man hoped that a snake intending to enter his house would receive a fatal shock.

The speech of Henry Watterson, at the Grand Army encampment, just held at Louisville, will make him the foremost of American orators.

MOSIER BREEZES.

What Our Live Correspondent Has to Say of Happenings in Mosier Neighborhood.

The rain is hard on the cabbage and fruit that has not been irrigated, as it is causing so much of it to burst open.

Every dryer is running in full blast now, and yet the fruit cannot all be dried. It seems to me a man with a little capital could do well to start a fruit cannery here.

The boys are coming back from harvest. Wesley Huskey, Wm. Davis and Sidney Briggs are among those that have returned this week.

Mrs. F. M. Hunter and family went to Portland Saturday. They intend spending the winter there and then return in the spring.

Mr. Howard is visiting at Mrs. Mosier's now.

Emmit Phillips was here last week, and while here he went to The Dalles and filed on a piece of land.

Mrs. F. M. Hunter and family went to Portland Saturday. They intend spending the winter there and then return in the spring.

From Our Victor Correspondent.

To THE EDITOR:—The Henegan Bros. have secured the Victor pavilion for Sept. 27th, at which time there will be a repetition of that most enjoyable and long-to-be-remembered social dance of Sept. 4th.

Edward Bok, the editor of The Ladies' Home Journal, has written a book for young men called "Successward; A Young Man's Book for Young Men."

When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

Severe griping pains of the stomach and bowels instantly and effectually stopped by DeWitt's Colic and Cholera Cure. Snipes-Kinersly Drug Co.

GOOD POINTS FROM THE PRESS.

Wasco News: The Dalles hose team carried off the prize at Vancouver recently. Hurrah for The Dalles.

La Grande Chronicle: With the cowboy preacher and his wife, the Eugene Goodrich Company and the fair, La Grande will be rather on the rush next week. The town is prepared to care for all comers.

Eastern Oregon Republican: A good newspaper is doing something for its town and state every day—every hour. It works for the good of every citizen all the time, earning him dollars and doing favors that he never dreams of.

East Oregonian: In spite of the low price for wheat, the county of Umatilla is in better condition financially than at this time last year.

Hood River Glacier: Returns on recent fruit shipments are beginning to come to hand. As might have been expected, owing to fullness of crops of summer's fruit everywhere it is raised, prices are not ruling high.

Heppner Gazette: Citizens of Oregon have a right to grow especially enthusiastic over the victories in the present yacht race won by the Defender, as our forests furnished the massive sticks of pine from which the Defender's spars were made.

Baker City Democrat: Present governor and two ex-governors of Maryland, all democrats, are out in opposition to Senator Gorman and the state ticket he has placed in the field.

No step taken by the orchardists will help more to sell his crop of winter apples than careful hand picking and sorting, and then as carefully packing and shipping.

Fossil Journal: The first portion of the new road from Fossil to The Dalles was practically provided for this week when the county court allowed petitions for county roads Nos. 89 and 90.

East Oregonian: Pendleton should inaugurate at least one enterprise a year. To do this will make Pendleton a prosperous, progressive town.

Klickitat Republican: The supreme court rendered a decision a few days ago that logically knocks the proposition to fund the debt of Klickitat county higher than that of Gilderoy's kite.

Mrs. S. B. Barker, a resident of Condon, Gilliam county, is registered at the Umatilla.

Mrs. E. E. Davis, of San Miguel, Cal. says: "I am trying in a measure to repay the manufacturers of Chamberlain's Cough Remedy for the great good their remedy has done me. For years I was a constant sufferer from weak lungs and bronchial asthma. My rest at night was disturbed by a hacking cough, so that I felt miserable the greater part of the time. Many remedies recommended by friends were tried, none of which proved suitable to my case. I did not experience any beneficial results until I began taking Chamberlain's Cough Remedy. After two bottles of the large size have been used I am pleased to state, my health is better than it has been for years. The soreness has left my lungs and chest and I can breathe easily. It has done me so much good that I want all who are suffering from lung troubles, as I was, to give it a trial." For sale by Blakeley & Houghton, Drugists.

Diarrhoea should be stopped promptly. It soon becomes chronic. DeWitt's Colic and Cholera Cure is effective, safe and certain. Hundreds of testimonials bear witness to the virtue of this great medicine. It can always be depended upon, its use saves time and money. Snipes-Kinersly Drug Co.
