Wisconsin Robbers a Train Hold Up.

ONLY FAILURE IS THE RESULT

Two Steamers Collide at the Entrance to the River Tyne—Chinese Inquiry to Start at Once.

MILWAUKEE, Sept. 20.—Dispatches received by General Superintendent Collins, of the Wisconsin Central road, from the division superintendent, gives the following particulars of the attempted robbery near Waupaca last night:

Two rails and a number of ties were placed on the track. When the engine struck the obstruction, it left the track, and ran the length of 30 rails. The mail and baggage car also left the track. Engineer Blain ran south, ahead of a train going to Waupaca on foot.

The leader of the gang took the fireman back to the express car and demanded of Messenger Robinson that he open the car door, making threats that they would use dynamite unless it was done. When Robinson opened the door he began shooting in the direction of the robbers, and emptied his revolver.

Twelve separate charges were exploded under the safe, and failing to blow it open, the leader remarked: "It's no use trying any further." They then left, firing several shots through the windows of the sleeper and coaches. The safe was locked at St. Paul, and could only be opened by a representative of the company at Chicago. The messenger never knows the combination.

The trains were all moving at 8:40 this morning.

Smugglers May Escape.

ST. JOHN'S, Sept. 20.—The board of revenue has commenced an inquiry into the charges of smuggling against a number of persons accused. They were compelled to this course by the evident intention of the government not to institute a proper prosecution. It is reported that a public meeting, arranged by the clergymen of various denominations, will be held in a day or two to demand that the government do its duty. Charges are daily reiterated, and not contradicted, that five Whiteway members of the assembly are active partners in the smuggling syndicate. It is understood that serious trouble is brewing in the government camp, one faction insisting upon and the other opposing the prosecution. This may develop into an open rupture.

HOT WAVE BROKEN

A Heavy Storm From the Canadian Northwest.

THE FAR EAST STILL SWELTERS

The Peary Expedition Returns From its Long Cruise in the Frozen Northland.

WASHINGTON, Sept. 22.—Willis L. Moore, chief of the weather bureau, has prepared the following special bulletin: "At this writing the temperature at Chicago is 84 degrees and the maximum temperature during the day was 94 degrees, and by tomorrow morning the much-needed and long-wished-for cold wave will have extended over Illinois, causing a fall of from 40 to 45 degrees in temperature. The approach of this cold wave over the central Mississippi valley was anticipated by the published forecasts of the bureau Saturday. This morning a special bulletin was issued, giving warning of the decided change in the temperature to 1265 stations located in the states of the upper Mississippi valley and upper lake region. Those warnings have been extended eastward to the states of the Ohio valley in anticipation that the cold wave will extend over these states Monday night. "The approach of this cold wave was first indicated by reports received from the extreme northwest Canadian stations Thursday, and its slow movement to the south was due to an extended area of high pressure, which covered the eastern half of the United States with its center over the south Atlantic states.

"This distribution of pressure gave persistent warm southerly winds, until the area of high pressure covering the cold wave gathered sufficient force to overcome the resistance. The cold wave was driven almost southward over the Rocky mountain states during the 20th and 21st, attended by snows and freezing weather in Colorado, the Dakotas and Nebraska. While there was some uncertainty as to the rapidity of the advance of this cool wave to the eastward, when it first appeared in the extreme northwest, there was strong probability Saturday that it would extend over the central valleys tonight. The report of the day justified a wide distribution of emergency warnings. "The wide development of the depression which is now central over Lake Superior, will hasten the movement of this cool wave to the eastward.

Independence bay, the most northern part of Greenland, was reached early in June, but they were deterred from the great undertaking by an insufficiency of food. CHICAGO, Sept. 21.—Owing to the extreme heat which has been prevalent in this city this week, the postoffice department dropped one collection and one delivery in various sections of the city for the reason that the carriers were completely worn out, and it was feared serious results would follow a full day's work in the sun. Owing to reports of cooler weather and some light snow storms in the Western states, cooler weather is expected for this section today.

Mrs. E. E. Davis, of San Miguel, Cal., says: "I am trying in a measure to repay the manufacturers of Chamberlain's Cough Remedy for the great good their remedy has done me. For years I was a constant sufferer from weak lungs and bronchial asthma. My rest at night was disturbed by a hacking cough, so that I felt miserable the greater part of the time. Many remedies recommended by friends were tried, none of which proved suitable to my case. I did not experience any beneficial results until I began taking Chamberlain's Cough Remedy. After two bottles of the large size have been used I am pleased to state, my health is better than it has been for years. The soreness has left my lungs and chest and I can breathe easily. It has done me so much good that I want all who are suffering from lung troubles, as I was, to give it a trial." For sale by Blakeley & Houghton, Druggists.

FOUND AFTER MANY YEARS

A Check Drawn to General Custer is Discovered After Nineteen Years.

Custer Massacre Recalled.

BIRMINGHAM, N. D., Sept. 23.—The tragic death of General Custer and his gallant men at the hands of the Sioux Indians in the massacre of the Little Big Horn was recalled here this week by the forwarding to Mrs. Custer of a check for \$1500, drawn to the order of General George A. Custer in 1876. The check is dated June 25, and is signed by B. L. Smith, at that time assistant paymaster in the army. It was on June 25, 1876, that the massacre took place. The check is still unpaid, and soiled and tattered though it be, constitutes a valid claim against the government for the amount represented upon its face, which was no doubt intended as part payment of General Custer's salary as an officer of the United States army.

Where the check has been all these years no one knows, least of all Michael Francis, who found it in the street here last February, and who has retained it in his possession until now. When Francis picked up the bit of paper it was almost as legible as when it was drawn, but three heavy creases in it showed that it had been worn through. The parts were joined together by narrow strips of paper pasted on the back, and the edges somewhat soiled, as though the paper had at one time been dropped in the mud.

No endorsements appears upon the back of the check, and the face shows the mark of no cancellation stamp, demonstrating that the check has never been presented for payment. The check was no doubt forwarded to the Northwest before the news of the Custers' massacre reached Washington. Had it reached those in charge of the dead soldier's effects it would have been sent back at once in order that one payable to their heirs could be sent on in its place. It has evidently been under shelter somewhere, and the chances are that it was lost recently and swept out into the street, where it was found by Mr. Francis.

SPEED RECORDS.

Fast Time That Has Been Made on Various Railways.

CAPE MAY, N. J., Sept. 23.—Theodore N. Ely, chief of the motive power of the Pennsylvania railroad system, was asked the facts in the controversy between the American and British railways over speed records:

"First of all, the world's record for a long-distance train," said Mr. Ely, "is held by the London & Northwestern road, and is, by the official figures just received, 64.8 miles an hour for 540 miles. Second, the longest run ever made without a stop was 439 1/2 miles in 10 hours and 5 minutes. This was the Jarret & Palmer train from Jersey City to San Francisco. Third, the speed record in the United States for a long-distance train seems to be held by the New York Central, with 48 1/2-mile run at the rate according to the newspaper reports, of 64.6 miles an hour, although the Railroad Gazette of September 20 gives the figures at 64.25. I, of course, have not the official data for that particular record. Fourth, the fastest record for 58 3-10 miles is held by the Pennsylvania company, 56 1/4 miles an hour. Fifth, the fastest record for 5 1-10 miles is at the rate of 102 miles an hour made by a regular train on the Pennsylvania road."

BRADY'S STATEMENT.

He Would Hesitate of Nothing to Prevent Corbett's Defeat.

NEW YORK, Sept. 23.—A local paper says Manager W. A. Brady has just made a very frank statement of the pugilistic situation. He said: "There is not a thing in the world I would hesitate to do to keep Jim from getting defeated. I would stop at nothing.

Refuse to accept any referee, start a riot, or anything no matter how desperate, rather than let Corbett go down. You can bet your life that if he is not in condition he will not enter the ring."

Added to this, Fitzsimmons' positive statement made just before the Australian boarded his special car en route for Texas that he would not fight Corbett unless either paid \$20,000 or assured that the eidoloscope company would not be allowed to photograph the contest, makes the situation exceedingly dubious.

Mosier Breeces.

There are so many accidents to live stock which cause delay and loss to the farmer in his work. In a large number of instances the delay would be but trifling if a remedy was promptly applied. Dr. J. H. McLean's Volcanic Oil Liniment has for many years been regarded as the farmer's friend. Its healing on flesh of domestic animals is immediate and permanent. Price 25c, 50c and \$1.00 per bottle. For sale at Snipes-Kinersly Drug Co.

Holmes Arraigned.

PHILADELPHIA, Sept. 23.—Herman M. Mudgett, alias H. H. Holmes, was arraigned before Judge Finletter, in the court of oyer and terminer today on an indictment charging him with the murder of Benjamin F. Peitzel, September 2, 1894. The prisoner pleaded not guilty. District Attorney Graham asked that October 28, be fixed for the trial, which was strenuously objected to by Holmes' counsel. Judge Finletter set the trial for that day.

There comes a time to all of us, when we feel mean and "out of sorts" and in a condition to invite disease. It is then we need such a remedy as Dr. J. H. McLean's Strengthening Cordial and Blood Purifier. To persons exhausted by sickness or overwork its invigorating influence is surprising, promptly restoring health, energy and cheerful spirits. Price \$1.00 bottle. For sale by Snipes-Kinersly Drug Co.

Not Guilty.

WILMINGTON, Del., Sept. 23.—The jury in the Cuban filibustering case, after being out 50 minutes, returned a verdict of "not guilty."

The chronic grumbler still lives, but there are less cases of chronic indigestion and dyspepsia than formerly. The fact is so many people in the past have taken Simmons' Liver Regulator that they are now cured of these ills.
