If, as said, they have quantities of out to sea safely and that if all has gone arms and ammunition there concealed. and are really advancing in force, the crisis is not far off.

There most rapacious, exhausting and intolerable that the world knows anything about. The native Cubans seem to have no rights or privileges which Spain is bound to respect. Its unhappy people of every station are stripped of their possessions by tax-gathers, as ruthless as those of Turkey and as hateful as these of Judea in the first century. Cuba the letter, but her brother-in-law denied has been a great sponge and Spain has been squeezing her to fill the coffers of the treasury at Madrid, as well as the the pockets of the numerous captainsgeneral. Independence from Spain is the only solution of the Cuban problem."

"We have a right to show our sympathy for the oppressed everywhere, and been an explosion at the Belgian mine, ment to acknowledge the belligerent are 15 men under ground.
