Prosecuting Attorney Barnes Subjects Durrant to a Rigid Examination--Other News.

SAN FRANCISCO, Oct. 11 .- District Attorney Barnes today resumed the crossexamination of Theodore Durrant on the subject of the component parts of bromo seltzer. Barnes said he wished to medicine was bromide of potassium.

Durrant became confused while being questioned with regard to the notes of the lecture given by Dr. Cheney on the and Tuinichu, in the province of Santa afternoon that Blanche Lamont was Clara. murdered. The district attorney asked Durrant if it was not a fact that he did not take any notes at the lecture. Durrant said that it was not. Durrant was then asked if he did not ask Dr. Gilbert F. Graham for his notes, at the same time saying that he had notes and could establish a good alibi. Durrant said he did not ask Graham for the notes, as Graham came to him at the prison and volunteered to lend him his notes. Durrant said at the time of Graham's visit he did not know whether he had the notes or not, although he afterward admitted that on April 10 he asked a student named Glazier to read his notes to him. Durrant said his notes of the lecture were meager, and as Glazier read his notes he expaneled hisown.

The weak part of Durrant's testimony was his statement that when he was arrested on April 12 he did not know whether he had notes of Dr. Cheney's lecture or not, although he had compared his notes with Student Glazier's four days before and knew that he was suspected of killing the girl who had dis-

GILBERT GIVES THE DECISION

The Government Expected no Personal Liability From the Stockholders--Other News.

SAN FRANCISCO, Oct. 12 .- Mrs Leland Stanford has won another victory from the United States government, this time in the court of appeals. The decision handed down today was signed by United States Circuit Judge Gilbert and by United States District Judges Morrow and Hawley. It is given on the appeal taken from the previous order of Judge Ross, sustaining the demurrer of Mrs. Staniord to the suit brought against her to recover \$15,337,000, alleged to be due the government from her husband's estate on account of Central Pacific bonds. As the decision is an affirmation of the correctness of the position already taken by Judge Ross, there is no relief to be obtained in the premises through a suit

in equity. It is held that if the liability exists, it is "purely a creature of statue," the question before the court being entirely one of interpretation of law. and the latter the through rates from Chicago to points on the Union Pacific west of Omaha, rumors have been current that the Vanderbilts would sooner or later secure full control of the Union Pacific property. A plan for the reorganization of the Union Pacific is now in course of preparation and the prelimin ary steps already taken indicate beyond a doubt that when the Union Pacific gets out of the hands of the receivers it will be controlled and operated by the Chicago & Northwestern, which is a Vanderbilt road.

"The reorganization committee, which has just been announced, has among its members Chauncey M. Depew, president of the New York Central, and Marvin Hughitt, president of the Chicago & Northwestern These two able lieutenants of the Vanderbilts will no doubt be able to control the other members of the committee, who are mostly presidents of trust companies holding Union Pacific securities. "The issues are all made and the peosaid. "There is no reason why the campaign should not be limited. I do not see how the coming congress can accomplush anything in the way of general legislation, and I do not think any will be attempted. The chances for the republicans to control the senate are very precarious in the first place, and if any legislation is attemped requiring the co-or dination of both houses, and which is hostile to established principles of the democratic party, it would be certain to meet with executive disapproval.
