There is always a "new" game law-or at least changes. Every legislature, since the days of Gov. Stevens, has felt called upon to take a hand in the matter, and it has been asserted that there were persons who have, at times understood what the 'game law" was. Of course there is always a new game law. And if those who don't like it—we infer from the tone hall a thing of beauty. Some of the of discussion that some people don'twill wait, the next legislature will change it, and then we shall have another "game law." The game law is intended for the express benefit of people who stay at home and never hunt nor fish. They are the only ones who observe its provisions.

> Klickitat Republican: By an exam ination of the map of the state of Washington, the fact may be ascertained, the Cowlitz pass is many miles northeast of Goldendale and almost on a straight line from Tacoma to North Yakima. Before this road could get out of the range of mountains to properly find a maximum grade to reach Goldendale it would be essential to run down the Natchez river to North Yakima city. From there in reaching Wallula it is very probable the line would pass through the great Horse Heaven country in Klickitat, and miss Goldendale fifty miles at least. Stoey Bound Over.

The examination of Ed Stoey, who is

charged with stabbing Tim Edmonsen at Wamic a week ago Sunday, was held at Dufur yesterday before Justice A. J. Brigham. The trial attracted a large number of spectators, and for a prelimone against Ed Stoey and the other against his father; but as the evidence creased. This can be told by the fact did not connect the latter with the trousame number of witnesses were examined on each side. The story of the state's witnesses was that young Stoey came to Edmonsen's house and asked for some hay, which Stoey claimed belonged to him. Edmonsen denied that such was the case, whereupon Stoey said he would go and bring his father, and did so. When the men came together again words followed, during which the subject of the spool of thread, which it is claimed Mrs. Edmonsen took from the Stoey house, was discussed. The state's witnesses claim that Stoey started for Edmonsen, who pushed him oack and then the cutting resulted. The witnesses for the defense claimed that Edmonsen was the aggressor and that Stoey acted in self defense

The examination lasted till after 10 o'clock last evening. E. B. Dufur, of Dufur & Menefee, appeared for the defendant, while G. W. Phelps represented the state. At the conclusion of the testimony and arguments. Justice Brigham decided to hold Stoey in \$250 bonds to await the action of the grand jury.

The Regulator left this morning fo her last trip to the Cascades till after season of rest, during which extensive repairs will be made upon the boat These will occapy at least a month. The arrangements are completed for taking the steamer out of the river and giving a general overhauling and repairing Several years of hard and steady work have made such repairs necessary. Many people took advantage of thi steamer's last trip to visit the Locks and the decks contained a crowd of passen gers as the boat backed away from the dock. About twenty young ladles made up an excursion party to the Locks and they started off in high glee. The day promised to be a stormy one, but we will warrant the young people will manthe dweilers on the Washington side of the river, and they will listen to the first sound of the Regulator's whistle with pleasure when regular trips are begun again.
