THE DALLES, WASCO COUNTY, OREGON, WEDNESDAY, JANUARY 8, 1896.

NUMBER 3.

DR. JAMIESON SHOT

A Drumhead Courtmartial Held Today.

PAID HIS LIFE FOR HIS FOLLY

A SECOND BAND OF INVADERS

Will Find British Regulars Opposing Them—Emperor William Congratulates President Krueger on His Victory.

LONDON, Jan. 3.—The Evening Standard says it is rumored that Dr. Jamieson was shot today after a drumhead court-martial.

Followers Will Be Released.

PRETORIA, Jan. 3.—It is reported that Dr. Jamieson will be tried by court-martial, and his followers will be released.

The Black Watch Highlanders have been ordered to stop by force the advance of a second body of the British Chartered Company's troops in the Transvaal.

Wilhelm to Krueger.

BERLIN, Jan. 3.—Emperor William today telegraphed President Krueger as follows: "I express my sincere congratulations that with your own people, and without appealing to the help of friendly powers, you have succeeded, by your own energetic action, against the armed bands which invaded your country as disturbers of the peace, and have thus been enabled to restore peace and safeguards in the defense of the country against attacks from outside."

ENGLAND NOT RESPONSIBLE.

The Advance Into the Transvaal Unauthorized.

CHICAGO, Jan. 3.—J. B. Weinberg, of Johannesburg, who is at present sojourning in this city, says that the invasion of the Transvaal was in no sense an effort on the part of England to annex the celebrated South African gold fields. The people of Johannesburg would fight to a man against coming under British rule.

"When the Transvaal was unknown for its riches in gold and diamonds," Mr. Weinberg said, "the laws concerning the naturalization of newcomers were the same as in the Orange Free State, and very similar to naturalization laws of the United States. When the country began to fill up with miners and people interested in the gold and diamond industries, the Boers changed the laws and made it impossible for anyone to become naturalized. Then a high tariff was placed on everything the Boers were not likely to use. Particular enmity was shown to the mining industries. In this way the republic succeeded in levying fully 90 per cent of the taxes on the new population, which was denied citizenship, in order to prevent newcomers from making an effort to equalize the burdens.

"It was five years ago that the national union, to remove these gross abuses, was organized at Johannesburg. It took in its membership all the more progressive mining men, many of whom were Americans and Germans, who would bitterly oppose any attempt on the part of England to annex the country. Even the British residents would oppose any scheme for the country's subjugation. In my opinion the national union has given up peaceful means for obtaining reform, and is calling Dr. Jamieson to help its members overturn the republic. After trying all these five years to secure some concessions from the Boers, the national union has doubtless concluded they will never make any headway until the old government is overturned. That, it seems to me, is all that Dr. Jamieson's invasion means. He has evidently determined that he will aid the foreign element in upsetting the Boer government, and the next that will be heard of it will be its accomplishment. The movement has been on foot for some time, and the doctor will not stop half way when once started."

ADMISSION OF UTAH.

President Cleveland to Issue the Necessary Proclamation Today.

WASHINGTON, Jan. 3.—The president tomorrow about noon will issue his proclamation in conformity with the act of congress stating that the people of Utah have complied with all of the requirements of the law providing for the admission of Utah to the Union, and declaring that the territory has passed out of existence, and that Utah is added to the family of States. The new era will begin the discharge of their

functions next Monday. The people of Utah are naturally showing an intense interest in every step being taken at Washington, and Private Secretary Thurber has been impromptu to telegraph immediately to Salt Lake the first news of the signing of the proclamation, and to preserve as a valuable historic relic the pen with which President Cleveland affixes his signature to the document.

THE COLD NORTHWEST.

Helena the Only Place to Report the Mercury Above Zero.

ST. PAUL, Jan. 3.—Although Helena reported temperature tonight at 4 above zero, that was the only point in the Northwest where the mercury went above zero. The next warmest places were St. Paul and Huron, S. D., both reporting 10 below. In this city at 8 a. m. it was 10 below. Prince Albert, N. W. T., was the coldest tonight, registering below zero. The weather bureau reports 16 below at Duluth and Calgary; 24 below at St. Vincent, Minn. Minnesota and Edmonton report 26 below, and Winnipeg and Battleford 32 below.

An Old Friend Heard From.

One of Capt. J. W. Lewis' friends in Kentucky has been heard from in a manner very gratifying to that gentleman. At the recent meeting of the G. A. R. in Kentucky, Col. R. M. Kelly was elected department commander of the Kentucky division, and one of his first acts was to appoint Captain Lewis an aid-de-camp on his staff, an honor much appreciated because it came unsought. Colonel Kelly and Captain Lewis served together during the war, and the following clipping from yesterday's Oregonian shows the possible honors in store for the distinguished Kentuckian:

Among the many prominent Republicans who have been named as possible candidates for the United States senatorship from Kentucky, is Colonel R. M. Kelly, the editor-in-chief of the Louisville Commercial. Colonel Kelly is one of the brainiest men in the Republican party in Kentucky, and possibly the best posted on national affairs. His election to the position of department commander of the Kentucky division of the G. A. R. attests to his popularity, and there are hundreds of his comrades anxious to have him enter the senatorial race and be elected to that position.

Mr. Smith French brought to THE CHRONICLE office today a sample of the Kaffir corn, which is creating something of a stir in the agricultural world. This corn is said to be well suited for dry climates and to not only provide good feed for horses and cattle, but to be ground into flour, from which excellent bread can be made. Tomorrow THE CHRONICLE will publish an article upon the subject of the Kaffir corn. The subject is one of real interest to the farmers of Eastern Oregon. Mr. D. M. French, who leaves Wednesday to attend a meeting of the regents of the State Agricultural school, will ask that experiments be tried in growing Kaffir corn to see whether it will justify all that has been said about it.

How's This.

We offer \$100 reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & Co., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

West & Truax, Wholesale Druggists, Toledo, O. Walding, Kinnam & Marvin, Wholesale Druggist, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Neither Hill Nor Whitney.

POUGHKEEPSIE, N. Y., Jan. 4.—Chairman J. W. Hinckley, of the state democratic committee, states that Senator Hill has not thought of permitting his name to be used in the presidential candidacy, and that Mr. Whitney will soon effectively remove himself from consideration as a candidate.

The popularity of Chamberlain's Cough Remedy and the high esteem in which it is held leads us to believe it to be an article of great worth and merit. We have the pleasure of giving the experience of three prominent citizens of Redondo Beach, Cal., in the use of the remedy. Mr. A. V. Trudell says: "I have always received prompt relief when I used Chamberlain's Cough Remedy." Mr. James Orchard says: "I am satisfied that Chamberlain's Cough Remedy cured my cold." Mr. J. M. Hatcher says: "For three years I have used Chamberlain's Cough Remedy in my family and its results have always been satisfactory." For sale by Blakeley & Houghton, Druggist.

TO BE A F. B. C. LOAN

But No Bond Call Till Congress Has Acted.

PRESIDENT AND THE SYNDICATE

A Rupture Between Them Because of the Embarrassment Caused by the Latter's Negotiations.

NEW YORK, Jan. 4.—A special to the World from Washington says it is given out by a senator, who has on previous occasions represented the administration, that the president has definitely broken with the Morgan syndicate. Mr. Cleveland, the senators say, is intensely angry with Morgan, and declares that the syndicate's action in preparing to take a loan was entirely unauthorized, and has greatly embarrassed the government. There will be no bond call, it is said, till congress has a chance to act, and then it will be a public loan, if the president is able to follow his will.

SATOLLI'S ELEVATION.

It Will Occur Today in the Cathedral at Baltimore.

BALTIMORE, Jan. 4.—Cardinal Satolli arrived in Baltimore this morning from Washington. He came in a special car over the Baltimore & Ohio road, arriving here at 11 o'clock. He was accompanied by his entire household, including Drs. Sparretti and Roeker, of the apostolic delegation, the papal envoy Marquis Sacripanti, and a number of priests and pastors of the Washington churches. He was received at Camden by the Rev. A. L. Maglen, superior of the seminary of St. Sulphice, on North Paca street, whose guest he will be.

After the exchanges of greetings at the station, the distinguished visitors were driven in carriages to the seminary. Here they were presented to Archbishop Chapelle, of Santa Fe, who arrived last night, and to Archbishop Begin, of Quebec, and other dignitaries of the church who arrived in the course of the afternoon.

Arrangements were made at the seminary today to entertain all the visiting prelates at dinner at the conclusion of the ceremonies at the cathedral tomorrow. This evening the seminarians tendered the monsignore a reception. Satolli spoke for nearly half an hour to the students. In his address he dwelt principally upon the duties of priests and ecclesiastical law. He spoke also of the prevalence of agnosticism and warned the students against it. He expressed great pleasure at the approaching elevation to the cardinalate and said he was delighted with the American people.

A Second Time in Collision.

GREENFIELD, O., Jan. 5.—At 8 o'clock tonight, at Rosabell, two miles west, in Ross county, O., the west-bound passenger accommodation train, No. 13 on the Baltimore & Ohio Southwestern road, collided with a freight train going 40 miles an hour, and made a complete wreck of both engines. One man was killed and seven injured. The dead and injured are:

Dead—Baggageman William Perdew. Injured—Engineer Scott, the ribs broken, one driven into his lungs, will die; Fireman James Egan, left leg broken, cut about head; Passenger brakeman John Erwin, left clavicle fractured, badly burned; Fireman Charles McCord of the freight, and Engineer Matt Ryan and Brakeman Clifford, of the passenger train, all painfully bruised and cut. The freight crew had orders to take the siding and let the Royal flyer, west-bound, go by, and forgot about No. 13. The Royal flyer was the one in the wreck at Schooley's last night, and was running as a special. The scene of the wreck is a steep grade of the road, and which is approached both ways by sharp curves.

A CARELESS CONDUCTOR.

He Left the Switch Open and Two Trains Collided.

CHILLICOTHE, O., Jan. 5.—At 11 o'clock last night two freight trains stood on a switch at Schooley's station, seven miles east of here. The first train pulled out, and the conductor, thinking the second would follow, left the switch open. Fifteen minutes later the eastbound express came along at 40 miles an hour, and, running into the switch, collided with the train standing there. Both trains were badly wrecked.

Engineer Michaels, of the express, had both arms and legs cut off and died this morning at his home, in this city. His fireman, Leon Mathers was instantly killed. Engineer Fitzsimmons, of the freight train, escaped without serious injuries, but his fireman, George Addis, and another fireman, J. H. Cox,

were killed. Ross King, the front-end brakeman, was also killed, and Postal Clerks J. E. Edgerton, of Loveland, and J. D. Murphy, of Greenfield, were badly injured. Conductor Brown, of the express, had to walk two miles to telephone the news to this city.

Conductor Hensherot, of the freight, is responsible for the wreck, as he left the switch open. The passengers on the express were badly shaken up, but none seriously injured.

CHILLICOTHE, Jan. 5.—Edgerton, the postal clerk, living at Loveland, died of his injuries at 11 o'clock tonight. This makes six killed.

COUNTRY CORRESPONDENCE.

Fair View Notes.

EDITOR CHRONICLE:

SIR:—Not seeing anything in your paper of late regarding the weal or woe of this community, I thought a few items might be of interest.

We are still on top—that is on top of the snow. Our first snow came on December 2d, to the depth of one foot, and laid on about two weeks, and as the ground was not frozen, it got the full benefit of the moisture. But on the 18th it snowed again to the depth of fifteen inches, making a total snow fall of twenty-seven inches up to date, but it is now thawing and is about all gone.

Stock of all kinds is doing well at present, but if the winter should last until the first of March feed will be very scarce.

We have not had a boom in this vicinity, but a steady growth. There have been about seven claims taken up here this season and there is still room for some more.

There is some talk of sinking several artesian wells in this settlement. Then with a plenty of water and our good soil, Fair View will be the garden spot of Wasco county.

If the honorable county court will grant us a road just where we want it we will be under many obligations to the same.

We met at the school house on Christmas eve and had an enjoyable time. From a well laden tree old Santa Claus delivered presents to each of those present—about ninety-six in number. There was a well-organized program, consisting of dialogues, recitations, vocal and instrumental music, all of which was excellent in a manner that reflected credit on the Fair View local talent.

R. F. W.

FAIR VIEW, ORE., Dec. 28, 1895.

Kingsley Items.

EDITOR CHRONICLE:

We are having plenty of snow, wind and rain; old Mother Earth is getting a good soaking; the wells are mostly all full of water, and the farmers are rejoicing over the future prospects of a bountiful harvest in 1896.

Mr. James Ward, our Kingsley merchant is a wide-awake young man, and is doing a tip-top business, taking everything in consideration. When the Republicans get in full power again and we get good prices for our produce, then James will soon grow rich.

The members of Mr. James Cox's family who have been so sick, are reported some better today. It is hoped that they will all be restored to health again soon.

Leo Kondaugh is killing some fine hogs today, which he puts on the Dalles market at \$3.70 per cwt.

The wheat that was sown in the fall is looking well, and bids fair to make a good crop.

There is plenty of stock hogs on the ridge, but there is no market for them. I guess that Cleveland got away with the hogs, as well as the sheep. F. Kingsley, Jan. 5, 1896.

For the many accidents that occur about the farm or household, such as burns, scalds, bruises cuts, ragged wounds, bites of animals, mosquitoes or insects, galls or chafed spots, frost bites, aches and pains on any part of the body, or the ailments resulting from exposure, as neuralgia, rheumatism etc. Dr. J. H. McLean's Volcanic Oil Liniment has proved itself a sovereign remedy. Price 25c, 50c and \$1.00 per bottle. Snipes-Kinnersly Drug Co.

Old People.

Old people who require medicine to regulate the bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whiskey nor other intoxicant, but acts as a tonic and alternative. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding Nature in the performance of the functions. Electric Bitters is an excellent appetizer and aids digestion. Old people find it just exactly what they need. Price 50 cents and \$1.00 per bottle at Blakeley & Houghton's Drug Store.

NEW STATE OF UTAH

Inaugural Ceremonies Held at Salt Lake.

THE CITY CROWDED WITH PEOPLE

Chief Justice Zane Administered the Oath of Office to Governor Wells and Other Officials—Governor's Address.

SALT LAKE, Jan. 6.—Another state has been added to the American Union, and the rights of self-government have been extended to a quarter of a million of industrious, law-abiding and intelligent people. The acquisition of these long-sought rights causes universal joy among all classes.

The oath of office was administered to the state officials of Utah at noon today, and the new state, with her vast mineral wealth, great railway systems, agricultural resources, churches and institutions of learning, starts off with the promise of a bright and glorious future. Among those who took part in the ceremonies were many of the old pioneers of 1857, who faced the privations and dangers of frontier life to lay the foundation of this great commonwealth.

The city was crowded with people from all parts of the state. Acting Governor Richards had, by proclamation, declared the day a holiday. All business was suspended and the buildings along the principal streets were decorated with the national colors. The day was ushered in by the ringing of bells and the sounding of all the steam whistles in the city.

After marching through the principal streets the procession reached the Tabernacle at 12 o'clock, where an immense crowd was waiting for the inaugural ceremonies. The great building had been beautifully decorated for the occasion. Acting Governor Richards, as master of ceremonies, called the house to order, and prayer was offered by Wilford Woodruff, president of the Church of Jesus Christ of Latter Day Saints.

He addressed the creator as the God of nations and the Father of all men. He acknowledged the Lord's hand in the liberty which had come to Utah, and also in the wonderful transfiguration of this land, now teeming with plenty and abundance. He prayed for the welfare of the nation, to which Utah will be ever loyal, and for the prevalence of justice, mercy, truth and peace throughout this land, and that it may be extended to all the earth, until every nation rejoices in fraternal union and universal brotherhood, and every soul is free to worship as it sees fit and to exercise the fullest liberty in every sense which does not encroach upon the liberty of others.

After the prayer the "Star Spangled Banner" was rendered by a chorus of 1000 voices, under the direction of Professor Stevens.

After this the proclamation by the president of the United States granting statehood was read by ex-Delegate Joseph Rawlins.

The oath of office was administered to the governor and state officers by Chief Justice Zane, of the supreme court of the state.

Governor Wells then delivered his inaugural address.

WESTERN KANSAS BURNING

Newspaper Read by the Light of the Fire Fifteen Miles Away.

WICHITA, Kan., Jan. 6.—There are probably two counties in Western Kansas covered by fire. Tonight lurid light was seen in the sky, observable simultaneously at Pueblo, Colo., and Wichita, a distance of 500 miles. The supposition is that there are two immense prairie fires in Kansas, a distance of about 150 miles apart. The Eagle has reports from 19 towns, which indicate the largest fire to be in Kiowa county, and that it is of vast proportions. Haviland is the nearest station which can be reached and the agent says the nearest fringe of blaze is probably 15 miles away, but so powerful that a newspaper can be read by its light in his town. At St. John Stafford county, the people were panic-stricken, as the fire is sweeping in their

direction before a strong wind. Many farms have been abandoned for years, and the fire is feeding on the rank grass, sunflowers and dead hedges.

St. John people think that the loss of property and life of man and beast will be appalling.

It is impossible to obtain details tonight, as operations on the Wichita & Western road were recently abandoned in that section of the country, and there are no operators at the stations to report the disasters of the fire.

HAVANA HAS FALLEN.

Insurgents Now in Possession of the Spanish Stronghold.

BOSTON, Jan. 6.—The Traveler has received the following dispatch:

BATANORNO, Cuba, Jan. 6.—At 10:30 this morning a cable operator received here the following dispatch: "The Cubans have captured the city of Havana. Moro castle alone holds out. General Campos." Here the dispatch ended as the cable communication between Havana and this point was cut off.

Spaniards Hemmed in on all Sides.

KEY WEST, Jan. 6.—Jesus Petana, a well-known Cuban patriot, received a cipher dispatch from General Gonex this morning, declaring the Spaniards were hemmed in on all sides, and before nightfall Havana would be in the possession of the patriot troops.

The Victorious Insurgents.

BARCELONA, Jan. 6.—News most unfavorable to the Spanish government has been received from Cuba. It is understood the insurgent forces are pressing around Havana.

The Wheat Situation.

The first of the year finds the wheat situation not meeting expectations. The expected high prices have not come nor can it be said that the indications are bright, at the present, of any immediate rise. While it is true that both buyers and sellers are disappointed at the way things are going, yet it's early in the fight and a month or two may see a difference. A European war, while it would mean misery on the other side of the Atlantic, would be a blessing to the American farmer. The following, taken from the Commercial Review, gives an intelligent view of the situation in Portland:

Five months of the present cereal year have passed and exporters have dispatched forty-three vessels, containing 3,533,721 bushels of wheat and 100,968 barrels of flour to European ports, and there is still one-half of the present crop in the country. This does not include China and San Francisco shipments. The obstinacy of holders has been clearly shown when wheat was selling at 54c per bushel, a great many unloaded their holdings, the majority held on for higher prices; at that time we stated, that the exporters here were paying all the stuff was worth, and we were accused of standing in with them. Now Walla Walla wheat is worth about 50c, and possibly some could get as much as 51c for good round lots, and the prospect for higher prices seems dim. From the present outlook of the situation we would not be surprised to see prices go still lower. There is nothing as yet to make the same advance, though earlier in the season we had hopes that prices would be firmer by the first of the year. The outlook then was better, and we find ourselves mistaken, with many others. As formerly stated in these columns, exporters had all the wheat for loading requirements to Jan. 1, they saw no necessity to increase their bids for wheat, and that by the turn of the year this port would be fully cleaned up with engaged ships, our predictions have proved true: the ships now in port are all finishing, and exporters are not in need of any wheat for the present, and what ships are likely to arrive will have their wants quickly filled. Tonnage due in January and February will receive prompt dispatch.

The markets here during the week have been in the same condition as the eastern markets, dull and lifeless, with very little doing, and no prospect for betterment in the near future. Shippers are quoting Walla Walla at 49@50, valley 53c per bushel. Millers are paying 51c and 54c respectively for the same.

When persons are weak and languid from sickness or overwork, feel debilitated and depressed, it is an indication that the blood is out of order, and they need help to throw off the miserable feeling. The best remedy for this purpose is Dr. J. H. McLean's Strengthening Cordial and Blood Purifier. It restores lost strength, gives vigor to circulation, promotes good appetite and a flow of cheerful spirits. Snipes-Kinnersly Drug Co.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE
