Judge Jenkins is Given En- hang. tire Jurisdiction.

DECISION IN THE SUPREME COURT

Receivers Appointed by It Accepted for Some fime by All Interests-It is a Responsible

Tribunal.

Washington, Jan. 28.—Justices Field, Harlan, Brewer and Brown, of the supreme court, today rendered a decision in the Northern Pacific receivership case, holding all courts along the line of road to be ancillary to Judge Jenkins' court at Milwaukee. The decision gives the Milwaukee court jurisdiction over the entire system in the ma ter of receiverships.

It was shown at this hearing that the creditors' bill and the foreclosure proceedings of 1893 had been filed in the circuit court for the eastern district of Wisconsia, over which Judge Jenkins presides. It was also shown that this court appointed receivers for the entire system who were for a time recognized. Afterwards, however, the circuit court for other districts appointed receivers for portions of the road embraced within their respective jurisdictions, and such confusion and antagonism arose that it was feared the interests of the road would be seriously jeopardized. An exception was taken to the jurisdiction of the Milwankee court on the ground that eastern district of Wisconsin. ## COLOMBIA'S NEW WARSHIP.

It is to Be Taken in Colombian Waters at once.

New York, Jan. 28 .- A dispatch to the Herald from Panama says:

General Jose Maria Sarria, accompanied by Augustin Arrango, jr., has left for New York for the purpose, it is said, of bringing to these waters the warship built in the United States for the Colombian government. It is said to be the intention of the government to use the warship as a cruiser off the At lantic coast.

General Manuel Casabianca, who arrived at Barranquilla with 600 men from Bogota during the recent war scare, has reached this city on an official visit. General Casabianca was recently appointed governor of the district of Toloma.

## FARMERS' INSTITUTE.

Opening Day at Union-Papers Read a the Meetings.

Union, Or., Jan. 28 .- A farmers' institute was opened in Union last night. The meetings are under the direction of a number of professors of the state agricultural college. The address of welcome was delivered by W. T. Wright, followed by addresses by Professor Shaw and French, of Corvallis, and a paper by Miss Etta Lansdon, of the Union school. Professor French spoke on "Wheat as a stock food." This afternoon Professor Shaw delivered an address upon "Alkali Solls, Their Cause and Treatment," and Professor Cordey, of Corvallis, upon "The Uses of Spray Compounds." A paper on "The Jersey Cow" was read by W. T. Wright. The leading features of tonight's session were an address on "Education From an Industrial Standpoint" and a lecture by State Superintendent Irwin.

IN GALLOW'S SHADOW.

Montgomery's Last Chance Now Seems

SALEM, Or., Jan. 28 .- It is now settled that in Lloyd Montgomery's case the gallows will not be cheated through legal process, nor, it is probable, through executive clemency. The condemned man's attorney, N. M. Newport, made a statement to the supreme court today, upon which that tribunal was asked to grant a stay of execution. The counsel was told that on a presentation of the transcript, showing on its face reasonable grounds, such a request might be granted. Being familiar with the case, Mr. Newport concluded it would be useless to make a formal application. The counsel made a plea before the governor for executive clemency, asking a commutation of the death sentence to life imprisonment. The governor declined

to talk after the hearing, but attorney Newport stated before leaving Salem tonight that all resources had been exhausted and, so far as counsel was concerned, Montgomery would have to

Tribunal of Arbitration.

LONDON, Jan. 28 .- The text of a de claration is published here urging the establishment of a permanent tribunal of arbitration for all English-speaking nations, and suggesting that the governments give effect to the resolutions of congress in 1892, and the house of commons in 1893. The declaration is signed by Dean Farrar, Rev. Hugh Price Hughes, Rev. Thomas Bowman Stephenson, Rev. John Clifford, Rev. Dr. Brown, Rev. Oswald Dykes Newman, Rabbi Adier, Lady Henry Somerset, Mrs. Richards, Dr. Darby, William Randall Cramer, M. P., and William T. Stead. The declaration will be sent throughout Great Britain and the United States for signatures.

#### The Report Denied.

New York, Jau. 28 .- A dispatch to the Herald from Caracas, Venezuela, savs:

The agents of the railroad built by German capitalists say that no abrupt demand has been made by their govern- tion. ment in their behalf. They add that the affair has been pending for several months, and that daily conterences have been held with officials of the Venezueian administration. All business was acquiesced in by the German agents in the hope that the matter would be promptly settled.

# GAVE THE FISH A JAG.

This Is One Way of Being Entertaining in California.

"Did von ever see drunken fish?" inquired a Sonoma county wine grower. No one would confess that he had seen intoxicated fish, and the silence indicated a predisposition to incredulity, says a writer in the San Francisco Post.

All of the waste from the winery is thrown into the creek, and that is enough to discolor the water, but the other day a big vat of sour claret burst hole of water just below the winery. In half an hour the pool was crowded with fish floating belly up. I thought they were dead, and pulled a big pike out, but he wiggled and flopped around fish in the pool. They had just been jagged."

Wreck of the Hawkins Keenly Felt by Cubans.

A STATEMENT BY SENOR PALMA

Belief Expressed That the Ship Was Deliberately Scuttled by a Traitor on Board-Investigation Being Made.

NEW YORK, Jan. 29,-Gloom prevaded the headquarters of the Cuban revolutionary party today. Leaders who would not admit last night that any filibustering expedition had met with disaster, freely admitted the reported wrecking of the steamer Hawkins cor-

Thomas E. Palma, the acknowledged head of the Cuban revolutionary party, said that about \$100,000 had been expended in fitting out the steamer J. W. Hawkins, including arms and ammuni-

One Cuban made the startling announcement that it was evident there had been treachery. Said he:

"We hired an expert to examine the steamer J. W. Hawkins before we purchased her. This expert reported the the steamer was not fit to go to sea, or else a traitor on board deliberately scuttled the ship. The latter would seem to be the case. Neither General Garcia, any others at the head of the movement leaking until it was too late to save her. A searching investigation is being made, and if there was any plot to scuttle the ship we will unearth it."

Palma denied there had been any talk of his resigning the leadership of the revolutionary party in New York.

RUMORED AT WASHINGTON.

Suggestion That the True Story of the Wreck Has Not Been Told.

CHICAGO, Jan. 29. - A Washington special says:

There is a curious rumor afloat here that the true story has not yet been told as to the alleged wreck of the steamer Hawkins, which had just set out to carry a lot of men and ammunition to Cuba. Work of Incendiaries.

WOODLAND, Cal,, Jan. 29 .- At 1 o'clock this morning the woolen mills were burned, entailing a loss of \$65,000. The fire was started by an incendiary, and was the second discovered in the build ing within 24 hours. The building was the property of Mrs. Emma C. Langenuer, mother of the ex-assemblyman of that name, and was valued at \$45,000. She carried on it an insurance of \$16,000. The mills were operated by Collins Shepherd, and his loss on the plant will be \$15,000, of which \$11,000 is covered by insurance.

> STUPENDOUS SIZE OF THE SUN. Some Comparisons That Afford a Concep

tion of the Orb's Immensity. Ponder also upon the stupendous size of that orb, which glows at every point of its surface with the astonishing fervor I have indicated, writes Sir Robert Ball in McClure's Magazine. The earth on which we stand is no doubt a mighty globe, measuring as it does 8,000 mlies in diameter; yet what are its dimensions in comparison with those of the sun? If the earth be represented by a grain of mustard seed, then on the same scale the sun should be represented by a cocoanut. Perhaps, however, a more impressive conception of the dimensions of the great send a squadron without paying any reorb of day may be obtained in this way. Think of the moon, the queen of the night, which circles monthly around our heavens, pursuing as she does, a majestic track, at a distance of 240,-600 miles from the earth. Yet the sun which it now follows, and still be en- States was not a signature, but, of him to make his proposed explanation tirely inclosed within the sun's interior.

For every acre on the surface of our globe there are more than 10,000 acres on the surface of the great luminary. Every portion of this illimitable desflame is pouring forth torrents of heat. It has indeed been estimated that if the heat which is incessantly flowing through any single square foot of the sun's exterior be collected and applied could beneath the boilers of an Atlantic liner it would suffice to produce steam enough to sustain in continuous movement those engines of 20,000 horse power which enable a superb ship to break the record between Ireland

#### SOCIABILITY OF INDIANS. They Are Fond of Paying Social Visits Among Themselves. Indians, contrary to widely received

opinions, are of a social nature and fond of which would make a chapter of itthe order of their going while in the dust of travel, but when arrived within a short disance of their destination a halt is called, the ponies are relieved of their burdens, the rawhide packs are opened, and gala dresses and fine ornaments come to light. The two young men selected to be the bearers of gifts of tobacco deck themselves for their mission and ride on in advance. A surprise party is not in the Indian's list of amusements; he takes his enemy unawares, but not his friend. The young men return with messages of welcome; sometimes members of the family to be visited come with them personally to conduct the party.

Meanwhile, writes Alice C. Fletcher in Century, all have been busy prinking; brushing and braiding their locks. painting their faces, and donning their best gear, the wide prairie their dressing-room, their mirrors each other's eyes. When the visiting party is again en route there is not a man or woman who is not gorgeous with color and the glitter of shell or feather finery. Even the children have daubs of fresh paint on their plump little cheeks, while the dudes are wonderful to behold, resplendent in necklaces, embroidered leggings, and shirts, and with ornaments innumerable braided into their scalp locks. The visit over the Indians go back to their homes pleased and contented, happy, if they find, as may not of dollars worth of plunder has been always be the case, that the enemy found in caves under the homes of a have not been at work in their absence.

A French Paper Thinks Europe Needs a Monroe Doctrine to Prevent Meddling by the United States.

CONSTANTINOPLE, Jan. 30. - The renewal of massacres at Aintab, Amassia and Van is feared. The ambassadors have called the attention of the ports to the alarming rumors.

Letters received from insurgents of Zeitoun say no excesses were committed by them until they heard of the massacre at Marash. They then took vengeance upon the Turks.

Diplo- pedestal. matists of old, we are told, would have been horrified at the idea of sending an American squadron to Constantinople, as Senator Frye urges, not because they would have been surprised to learn that America had a squadron to send, but because they would have remembered certain conventions which forbid the sending of a equadron to Constantinople. Americans are aware that such conventions exist, yet Senator Frye wants to gard to them. It is impossible to be more American. It is true the authorities on international law interviewed by the Herald have clearly expressed an course, the idea of attaching any weight the other side of the Atlantic as a Enropean prejudice.

SAN FRANCISCO, Jan. 30 .- Rev. C. O. Brown did not make his confidential explanation of Miss Overman's letters to Mrs. Sarah Cooper this morning. At the meeting of the First Congregational church last evening Brown said Mrs. Cooper should not condemn him until she had heard his version of the scandal precipitated by Mrs. Mary A. Davidson. Mrs. Cooper announced her willingness to hear him, and the minister agreed to make matters clear to her at his home this morning. An engagement for this meeting, however, did not take place.
