A report is current that a new paper will soon be started at Dufur, and that press and material has been ordered.

Dr. Smith of Pendleton has discovered an infectious disease for the destruction of squirrels. It is pronounced a complete success.

Mr. Samuel Driver, a report of whose death appears in this issue, has been blind about thirty years. He was a very companionable old gentleman and universally liked by all his neighbors.

Thirty-nine sacks of wool was received by the Moody warehouse yesterday from Mr. Constantine of Klickitat. There is about as much more to come, but the 'rain has stopped shearing for the present.

A surprise party was given Miss Lorene Lee at the residence of Chris Bills last night. There were a number of her young friends present of both sexes, who enjoyed themselves in the usual manner with games, music and lunch.

Col. O. B. Hartley started from Hood River for Juneau, Alaska, last Monday. He is employed by a mining company that is setting up a stamp mill 60 miles above Juneau, near the coast; and goes to superintend the hauling of the machinery to the mines.

Mr. Phil Metschan, state treasurer, stopped off at The Dalles on his way to his home in Salem, and is visiting Mr. Emil Schanno and others of his old friends. By a singular coincidence Mr. Schanno and Mr. Metschan are both of the same age and both came to this country when 14 years of age. Mr. Metchan took the local for Portland this afternoon.

Lieut-Col. J. M. Patterson of The Dalles was in Hood River Sanday, savs the Glacier, looking over camp grounds and the race track to see what advantages Hood River possessed for holding O. N. G., in Jone. He will make his report to the colonel, and it is likely Hood River will be selected.

NOTED EVANGELIST COMING. A Proposition to Hold Union Services for Ten Days.

Rev. J. H. Wood has been in correspondence with a noted evangelist who has been touring the country for the past twelve years, Chas. N.-Crittenton by name, with the object in view of securing him for The Dalles. It was only by prompt and energetic work that a promise was given Mr. Wood by Mr. all parts of the country, and about next Crittenton to come to The Dalles for ten days, as Portland was working heroically to secure him, and this was contin-'prairie schooners" will be transporting gent upon all the churches of the city uniting in a union service, and foregoing

Death of Samuel Driver.

Samuel Driver died at 5 o'clock last evening, after a short illness at the advanced age of 82 years.

Mr. Driver was the father of Mr. Thos. Driver, our present sheriff. Others of his sons are Isaac, the eldest, Brenton, Frank, Bruce, Henry and Edward. The last named lives in the Malheur country and is so far inland that he does not yet know of his father's death. The other sons were all present at his bedside, as were also their wives with the exception of Mrs. Thos. Driver. The Rev. I. D. Fort Wayne. A COLORED WOMAN TRAMP. An Old Auntie Who Has Been Coming

from Baton Rouge Four Years.

A colored woman tramp is approaching The Dalles, and is seen quite often by the railroad boys running between ward to her unknown journey, except, as she says, she is bound for California. The old auntie is something of a curiosity, as she has been on the journey for four years. She hails from Baton vict the persons believed to have had a Rouge, La. She has some little books which contain autographs from many, together with the names of the places where she has been. Unlike Schlatter. she does not claim to be a direct lineal descendant of Christ, though on a simi-

lar mission-"to preach de name of de Lawd." In speaking to one the boys she said :

"Bress yor soul, honey, I'se on my way to Californy, and de Lawd smiles on me kase I'se gettin' 'long fine. I'se been four year comin,' de Lawd bress you." The question was asked, "Why are you traveling this way?"

"Kase de Lawd said, take up thy feet and walk. Take thy feet out ob de mire and go and preach my name. Go to de fo' coners ob de earf and tell de people ob his comin' and ob his name,' "Would you not like to ride in the cars?"

"No, oh no, bress your soul, chile, de Lawd said you mus walk, not ride." She will probably reach The Dalles about Wednesday, as she left Arlington Saturday evening, and since she does not travel on Sundays, it will take her about three days to reach The Dalles at the rate she has been progressing.

Some Good Suggestions.

WASHINGTON, April 24 .- Senator Mc-Bride has secured a provision appropriating \$50,000 for continuing the work at the Cascades, \$20,000 of which shall be used for extending the walls of the lock, so that it may be opened for commerce. The appropriotion is intended to secure the building of another lock.

EDITOR CHRONICLE-The above clipping from the Oregonian of April 26th shows that our delegation is at work and have not forgotten us, and we should be thankful for all favors, large or small; but for the sake of suffering humanity, don't try and build another lock. The two that are started have been in progress for twenty-six years, and we can't wait eighteen years more. But I would suggest to Senator McBride that if we must have another one, to try and secure the right of way on the other side of the river and work them so as to sup-Gibons. "The soil is unusually well soaked and the farmers are pleased over the prospects for the year's crops. As a rule but little rain falls over Eastern Oregon after. May 1st, and the year's crops are directly dependent upon the moisture in the soil and the occasional showers of May and June; should the soil not be moist on May 1st, then it requires good rains in May and June for good or average crops, but when the soil is moist, as

it is this year, then light or occasional rains are sufficient to produce good crops.

More About Coal.

A specimen of the coal found last summer by Mr. Gus Hansen, a fisherman, 18 on exhibition at THE CHEONICLE office. It was found below Lyle on the Washington side and was taken from a six foot vein.

Mr. A. Winans tells of the existence of a two foot vein of coal on his ranch three miles from the city, which shows on the river bank when the river is at the lowest stage. He has often thought of drilling down to strike the vein at a suitable distance from the river and may do so the coming summer.

There is now scarcely a doubt that coal exists in immense quantities some hundreds of feet below us, and it only remains for intelligent [effort to develop some valuable coal mines. The circumstances of outcroppings and direction of veins are to be taken into consideration, so that a drill may, with considerable certainty, strike the coal bed. It will take some money, and the work must be done under the direction of an experienced miner, but a future awaits the man who will take hold of the matter in earnest, and incidentally the whole community will be benefitted.

A full house greeted Mr. J. H. St. Lawrence, the Populist orator, when he spoke Saturday night at the court house. He is a good musician and his talk was enlivened by Populist songs and music on the organ. His speech was entertaining, embellished with illustration and anecdote. He charged that considerable corruption had found its way into both old parties, but very little in the Populist party. The money question occupied the greatest share of his time. He first spoke of paper money being the best in the world, and later made the same assertion as regarding silver. He received respectful attention and without doubt pleased his audience.
