Several weeks ago Mrs. Mary J. Davenport sued S. M. Meeks, both of Mosier, for \$227 and costs, and received a judgment. Today a suit in equity was begun to sell the property under mortgage to pay the indebtedness. In 1893 Meeks mortgaged his farm to his mother Kate Ann Meeks for \$2,250. The plaintiff will claim that the mortgage was fraudulent and should be set aside.

Willis Brown, manager of the Oregon Fruit Union, offers a prize of \$6 for the first crate of Hood River shipping berries. At Milton and Fortland he offers \$5. The crates of berries will be sold on commission in whatever market they will bring the best price.

The prosecution failed utterly to make their case yesterday in the case of the State vs. Robins, Miller and Templeton. The defendants were completely exonerated, the evidence showing without doubt that they were entirely innocent of the charges. The case was dismissed without taking any testimony whatever for the defense.

Salvation Army a Despotism.

The Reverend Nathan E. Wood, pastor of the First Baptist church, Boston, Mass., has been an active working member of the Auxillary League of the his congregation by announcing his withdrawal from the league. In explanation of his action he said: "I have not looked into the family troubles of the Booth family, but into the methods of the Salvation Army, and have become convinced, after careful study, that the Salvation Army, with General Booth at the head of it, is a military despotism, and that he is more despotic than the pope of Rome. General Booth is a despot in a military way, and is at variance with the established principles of Christranity. He said he had no stones to throw at the Salvation Army. #### Bis Faith in Democracy is Firm.

Mr. Alfred S. Bennett, the well-known attorney of The Dalles, and Democratic candidate for congress in the Second district, is a guest at the Imperial. Mr. Bennett has made the canvass of Eastern Oregon, speaking last at Dutur, Wasco county, on Saturday afternoon. This morning he leaves for St. Helens, and from there goes to Astoria and other lower river points, returning to Portland Thursday, when he will speak here, Mr. Bennett says the Democrats have as good a show to win in this district as any other party this year. He talks in favor of free silver and a revenue tariff on wool. Martin Quinn, the Populist congressional nominee, also talks in favor of free silver and in favor of a prohibitory tariff on foreign products. Mr. Bennett says that he has been met by ine andiences during his campaign, and has talked every day, and sometimes twice a day. He expects to poll the full vote of his party-sound money Democrats and all others.-Oregonian.

## Strawberries in the Williamette Valley.

Tuesday's Oregonian says: "The continuous cool, showery weather is not favorable to the early development of strawberries, and many are anxiously inquiring as to the prospects for the strawberry crop this season. A reporter yesterday met Mr. N. B. Harvey, the well-known grower of berries at Milwaukee, who is inclined to take rather a gloomy view of the situation. He says that in not one of the 15 years he has been engaged in growing strawberries have the vines or plants looked so unpromising as at pessent. In fact, they are not more than half as well grown as is usual at this time of year, and where the plants make a poor growth he says ther cannot be a big crop of berries. He says the fruit will be 10 days later than usual this year. Generally speaking he has commenced picking berries for market from the 28th of May to the 1st of June, but he thinks it will be June Salvation army. He recently surprised 10th before there will be any picking done this year, and then there will not be over half a crop.

#### MAYS & CROWE, The Dalles, Or

INITIAL STEPS.

Articles Filed for The Dalles and Goldendale Transportation Co.

"The Dalles and Goldendale Transportation Co." is the name of a new organization evolved from the wagon train idea brought to the attention of our citizens recently by Mr. L. H. Campbell. This gentleman has been very energetic in attending to the details of the formation of such a company, and his perseverance and faith in its practical adaptibility has been crowned with success.

Enough men of means now share his opinion to warrant articles of incorporation of "The Dailes and Goldendale Transportation Co." to be drawn up, and they were filed at the clerk's office this afternoon. They contain the names of J. W. French, A. S. Mac Allister and Hugh Glenn of The Dailes and Frank Motter of Portland.

After the articles have been filed, the next step is to circulate the stock book for subscriptions. When half the amount is subscribed, the company can commence stocking with the equipment necessary to conduct the business. A large amount of the capital stock has already been promised by citizens of Goldendale.

The articles of incorporation provide for carrying on and conducting a general freight and transportation business in the states of Oregon and Washington, with all the rights and privileges of a common carrier granted by the laws of those states between The Dalles and Goldendale, also Rockland, Centerville and Cleveland, Wash., and such other branches as business may demand.

## Fruit Will Bring High Prices.

Mr. Mark Levy, a leading fruit buyer and commission man of Portland, is in the city today. He speaks in most enconraging terms of the market for fruit the coming season, and believes that Portland can alone furnish a good market for Wasco county fruits. He says that the Willamette valley will have a lighter crop than for twelve years; that peaches, prunes and early apples are al-

most a total failure, and that cherries and strawberries will not be more than a half crop. The general failure is caused by the excessive rains, which were unusually prolonged this season.

#### Sound Money.

Judge H. H. Northup of Portland was listened to by a large audience at the court house last evening. He announced his platform to be sound money, protection, the restriction of foreign immigration and an open river from the Inland Empire to the sea. Judge Northup's utterances bear the impress of sincerity. He is of the opinion that free comage of silver will be a calamity that if adopted will be most generally deplored. It will drive gold out of circulation, because it will then be the more valuable metal. He is therefore the true bi-metallist and the silver champions are the monometallists. He exposed the plan of a minority in the senate to block tariff legislation until the financial question is settled, and believes the American people are therefore forced to pronounce first upon it. Another principle of importance advocated by Judge Northup was the restriction of foreign immigration, and his vemarks on that score seemed to be universally appreciated. His speech throughout was received with marked attention, very few leaving the hall during his address of nearly two hours' length. Many who could not find seats stood up during the whole evening. Judge Northup was followed in a short speech by Mr. Lydell Baker, who is a fluent speaker and orator, and who entertained and gave expression to the same views as Judge Northup.
