THE DALLES, WASCO COUNTY, OREGON, WEDNESDAY, JULY 1, 1896.

NUMBER 28.

WHY THEY REMAINED

Montana Republican Delegates' Action Explained.

WERE NOT INSTRUCTED TO BOLT

Senator Mantle Thinks the Democrats Should Nominate Teller—German Will Not Go to Chicago.

CHICAGO, June 26.—The Record this morning prints an interview with Senator Lee Mantle, of Montana, who is stopping at the Auditorium, in which he says that Senator Teller should be nominated for the presidency by the Democrats at Chicago. When asked if he was in full sympathy with the silver men who walked out of the St. Louis convention the senator replied that he certainly was. Continuing he said: "The circumstances surrounding the delegation from Montana were somewhat different from those of Idaho and Colorado. In those states they were practically instructed to bolt, while the Montana state convention voted down a bolting instruction. Hence five of the six delegates from Montana felt that they would best be reflecting the wishes of their constituents by reserving all their rights and relegating the whole matter back to them to determine for themselves what their action shall be. So far as I am advised this course seems to have met the approval of the great body of Republicans of my state."

When asked if he endorsed the candidacy of Senator Teller for the presidential nomination, he said:

"I do, most emphatically. In my opinion he is at this time the only man in the public mind which can draw to himself the full strength of the bimetallic sentiment of the country, and unless the full strength of the movement can be concentrated upon one man, defeat is certain."

"Do you think a silver Democrat could win?"

"I do not. In the first place it is only upon the issue of bimetalism as opposed to the gold standard policy of the Republicans that the Democratic party has the slightest chance of success in this campaign. With the silver question out, it would be a waste of time for the Democrats to hold a convention even. The silver question assumes an importance which at this time overshadows everything else."

He then said that the issue upon which the coming political contest must be fought is not distinctively a Democratic principle or a Populist principle or a Republican principle, and concluded as follows:

"The Populists and silver Republicans jointly will, I think, number at least 3,000,000 votes—nearly or quite one-half of the votes necessary to bring success. It is useful for our Democratic friends to say that these people are not honestly for bimetalism if they refuse to support a Democrat. The fact remains that many of them will not. The reasons are numerous and not difficult to explain."

"The question arises, 'Will the Democratic party in convention take note of these varying conditions and take for a standard-bearer the only man who, it seems to me, can at this time weld the bimetallic forces of the country into a homogenous mass and lead them to victory?'"

"Senator Teller has formally renounced the Republican party, so that in supporting him no Democrat need fear that he is voting for a Republican. He stands preeminently as the great champion and defender of bimetalism in this country. Bimetallists everywhere look upon him as their leader. He possesses in the fullest degree every necessary attribute of learning and experience and ability for the discharge of the great office of president. His record is absolutely clean, and his personal character is above reproach. He is acceptable to the Populist party, although he differs from them in many ways, and without their indorsement the Democratic candidate cannot possibly be elected. No other candidate could attract the full Republican silver strength, which lies mainly in states absolutely essential to the success of the silver candidate."

"With him as their nominee I firmly believe the Democrats can snatch a victory from what, up to the meeting of the national Republican convention, was the most hopeless prospect which ever confronted a political party."

THREW HIS CRUTCHES AWAY.

Engineer W. Hayes, of the Southern Pacific Cured.

MR. EDITOR, DEAR SIR:—I hold it to be a duty, as well as a pleasure, to make known through the press that which of all other things is essential to most, viz: The way to cure pain and sickness. From December 1st to the 29th I was confined to my house with sciatic rheumatism, kidney trouble and inflammation of the neck and bladder and general indisposition. Could not sleep more than an hour at a time. All means I tried proved unavailing. I was prompted to visit Dr. Darrin through the advice of my friends who had been cured by him, though I must say I had little faith that electricity would cure me. I came to the doctor on crutches. Two weeks' treatment has cured me, so I've thrown away my crutches and my other complaints have all disappeared, so I can now take command of my engine again.

W. HAYES,

914 Fifth street, East Portland, Or.

Dr. Darrin is now located at the Umatilla house, The Dalles, and will remain until July 3d. jun29-d3t-w1t

A COAL MINE HORROR

Ninety Men Were Imprisoned by a Sudden Cave-In.

WILKESBARRE, Pa., June 28.—While about 90 miners were at work in the Red Ash vein of the twin shaft at Pittston, about 3 o'clock this afternoon, the roof caved in, and it is believed all of the men perished. About 40 of the imprisoned men are English-speaking miners, the others foreign.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75 cents.

THE DISGRACE TOO MUCH

Sale of the Father of the Woman Who Challenged Corbett.

NEW YORK, June 28.—A special to the World from Batavia, N. Y., says: Jerome Rowan, a rich banker, the father of Lansing Rowan, the California actress who has challenged Corbett to meet her in a scientific sparring contest, committed suicide by shooting himself through the heart. By his side lay a copy of Saturday's edition of the Batavia Daily News, containing a dispatch announcing that his daughter had challenged Corbett.

Mr. Rowan left a letter addressed to his wife, the contents of which she declines to make public. Mr. Rowan was 66 years old.

A Household Treasure.

D. W. Fuller, of Canajoharie, N. Y., says that he always keeps Dr. King's New Discovery in the house and his family has always found the very best results follow its use; that he would not be without it, if procurable. G. A. Dykeman Druggist, Catskill, N. Y., says that Dr. King's New Discovery is undoubtedly the best cough remedy; that he has used it in his family for eight years, and it has never failed to do all that is claimed for it. Why not try a remedy so long tried and tested. Trial bottles free at Blakeley & Houghton's Drug Store. Regular size 50c. and \$1.00.

These Must Go at Once.

A home with lot, worth \$900; \$750 takes it. Owner leaving city, and must sell. Three lots only five blocks from Court house. Lay in fair shape; \$150 for the three. One fine business lot in heart of city; \$800. Among a multitude of offerings, these three are the very best. Match them if you can.

FRANK D. HILL,

Real Estate & Fire Insurance, Room 12, Chapman Block. may1-tf

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Blakeley and Houghton, druggists.

Lost—A dark Jersey cow, branded CL on left hip. Has been from home since Wednesday morning, June 24th. Finder will please communicate with this office. jun25-2w*

MULTNOMAHS AHEAD

California Athletic Club Is Defeated.

THE COAST RECORDS BROKEN

Talent of Portland Runs a Mile in Remarkable Time—W. E. Talent Broke the Record.

PORTLAND, June 27.—The Multnomah Amateur Athletic club, of this city, won from the Olympic Athletic club, of San Francisco, in the athletic games by a score of 57 to 44.

There were thirteen events and of these the Multnomah took nine firsts. Two Pacific coast records were broken, the running high jump and the one mile run. Kerrigan of the Multnomahs and W. C. Patterson of the Olympics each cleared the bar at six feet two inches, which breaks the former record for the running high jump, held by Kerrigan, by two inches. Patterson refused to jump off the tie and Kerrigan was given first place.

In the one mile run W. E. Talent of Multnomah broke the Pacific coast record by 23-5 seconds, making the mile in 4:31 2-5.

The War in Cuba.

HAVANA, June 27.—Major Louis Trujillo, with the Farneseo squadron, while reconnoitering near Siebe, this province, met a force of 600 insurgents under Alberto Rodriguez, at the Brujo bridge, near the California farm. Under the fire of the enemy, the squadron charged at a gallop and dispersed the insurgents, with a loss of twenty-one killed and many wounded. The main body of the troops then started in pursuit of the fugitives, and inflicted further loss upon them. Eight troopers were wounded with machetes.

The repeated denial of General Fitzhugh Lee, United States consul-general, that he has made unfavorable reports to President Cleveland, as announced in the United States, have produced a favorable effect here, and have counteracted the bad feeling occasioned by the publication of the erroneous reports.

HOPE IS ABANDONED.

The Entombed Coal Miners Cannot Be Rescued.

WILKESBARRE, Pa., June 29.—Excitement at the Twin shaft in Pittston, where nearly 100 miners are entombed, continues today. At the mouth of the shaft, besides the wives and children of the entombed men, there are hundreds of persons, not residents of Pittston alone, but visitors from Scranton and Wilkesbarre. The wives and children of the entombed men stand near the opening of the death chamber urging the rescuers to greater efforts.

Practically nothing has been accomplished toward the recovery of the men. There is scarcely an old miner about the opening of the mine who does not believe the men are all dead. The rescuing party which went into the mine about 1 o'clock came out at 7. The foreman remarks that the timbering is going on as rapidly as possible. The work is necessarily slow, owing to the danger of falling rocks loosened by the explosion. It is hardly possible that actual digging will begin before late this afternoon. If the slope is not completely choked with debris, the rescuers may possibly be able to reach the men within twenty-four hours. Otherwise it may be two or three days.

The damage to the mine is estimated at \$25,000, and the expenses of getting the bodies out may reach \$20,000. The company is censured for sending the men into the mine when it was in a dangerous condition. In answer to this the company said they either had to or close the mine, which would have meant the loss of all the capital invested.

Water has been pouring into the slope and threatens to drive out the rescuers. It is thought to be surface water, and will soon cease flowing, while others think the water comes from the Susquehanna river. If it is the river water, the whole mine will be flooded in a short time, and it will be months before the bodies can be got out.

CURES BY ELECTRICITY.

Card From Mr. Austin Telling How His Wife Was Cured of Total Blindness.

THE DALLES, Or., June 28, 1896.—MR. EDITOR:—Hearing of Dr. Darrin's advent in The Dalles, I wish to make known what he has done in my family. Eight years ago my wife was totally blind from what the doctors called "nervous abhorrence of sight." In that condition she visited him and was

cured, so she could see as well as ever in her life. I know of hundreds who have been as miraculously cured. I am employed on the railroad and stopping at the Umatilla house when in The Dalles, and can be referred to. I most earnestly recommend the afflicted from whatever cause, to consult Dr. Darrin. It will not be out of place to say the doctor performs his cures by electricity in the majority of cases. W. H. AUSTIN.

Dr. Darrin will remain in The Dalles at The Umatilla house until July 3d.

CITY COUNCIL MEETING.

Franchise Granted—Bills Allowed—The Retiring Councilmen.

A special meeting of the city council was held last night, being the last meeting of the council as at present organized. Mayor Menefee was absent on account of sickness, but there were present Councilmen Saltmarsh, Wood, Eshelman, Johns, Ross, Laner and Nolan.

On motion Councilman Eshelman was chosen mayor pro tem, who thanked the council for the compliment and assumed the chair.

A number of petitions to sell liquor were then read from Dan Baker, Sinnott & Fish, Otto Birgfeld, A. Keller, T. T. Nicholas, John Howe, F. W. L. Skibbe, August Buchler, Chas. Frank, F. Lemke, Wiseman & Marders, Ben Wilson, A. Baldwin, Marders & Michelbach and Maetz & Pundt. The petitions were granted, on motion of Nolan.

An ordinance was then read granting a franchise to Senfert & Condon for erecting, constructing, maintaining, using and operating telephone, electric light, power and telegraph lines in, under and through the streets, alleys and public places of Dalles City. The company does not ask for an exclusive franchise, guarantees that no expense shall accrue to the city from any work they may perform, and hold themselves responsible for any damage that may result from their business.

Mr. Nolan desired to know if the firm would be willing to return for a franchise to supply the recorder's office with a free telephone. In explanation Mr. Condon said the franchise was as good a thing for the city as himself. The company proposed to lay all its wires underground at great expense, which would be out of the way of the firemen and would greatly lessen all trouble and danger. They asked for nothing better than what they already had from a business standpoint, but wanted their underground wires protected by a franchise from being destroyed by anyone who might come upon them and think they were in his way. Councilman Thompson believed that an unconditional franchise should be granted, and on motion of Mr. Nolan, the ordinance was placed upon its final passage and passed.

No other business appearing, Mr. Nolan arose and made reference to the retirement of some of the councilmen, and he wished to tender the courtesies of those who remained to those who retired. Speaking for himself, Mr. Eshelman said he was gratified for the kindly expression manifested, that his duties had been pleasant, there had been little unpleasantness among the council and he retired with the kindest feeling toward all. Councilman Laner made no remarks. He has served longest of all—three years and a half—having been appointed to fill a vacancy six months prior to his regular election. The city expenses at the time Mr. Laner entered the council, have been as high as \$1,400 per month. Now they are but little above \$300. Messrs. Laner and Eshelman retire with good reason for self congratulation.

None But Ayer's at the World's Fair.

Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed on exhibit at the world's fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the world's fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."

Did You Ever.

Try Electric Bitters as a remedy for your troubles? If not, get a bottle now and get relief. This medicine has been found to be peculiarly adapted to the relief and cure of all Female Complaints, exerting a wonderful direct influence in giving strength and tone to the organs. If you have Loss of Appetite, Constipation, Headache, Fainting Spells, or are Nervous, Sleepless, Excitable, Melancholy or troubled with Dizzy Spells, Electric Bitters in the medicine you need. Health and Strength are guaranteed by its use. Large bottles only fifty cents and \$1.00 at Blakeley & Houghton, Druggist.

REBEL CHIEF'S DARING

Maceo Visits Havana in Disguise.

INTERVIEW WITH COL'R RYAN

Says He Will Continue to Fight Spain Until Cuba is Free—American Filibusters at Matanzas.

NEW YORK, June 29.—William Ryan, collector of internal revenue for the eastern district of Virginia, who was released from quarantine Saturday, said that in Havana he had a personal interview with General Antonio Maceo, the commander-in-chief of the insurgent forces stationed in Pinar del Rio province. According to Mr. Ryan, General Maceo was in the very heart of Havana last Monday, and more than that, had his picture taken and handed a copy of the same to Mr. Ryan so that he might show it to the president and to General Lee. Maceo came to Havana, and the place of meeting, Maceo was in disguise. He was dressed like a poor peasant. He was in perfect health and hopeful of success for the Cuban arms.

"Yes, I saw General Maceo," said Mr. Ryan. "I had a long talk with him. Yes I told General Lee all about it, and he knows what Maceo told me."

Mr. Ryan was asked whether he asked General Maceo if he was in favor of annexation of Cuba.

"I did mention this to him," said Mr. Ryan. "His reply was: 'I am a soldier. I am here to make war. I am going to continue to fight Spain until Cuba shall be free. I know nothing about diplomatic relations.'"

During the interview General Maceo was surrounded by three of his commanders who had accompanied him to Havana. "I think he came to Havana to see some of the leaders of the revolutionary party," said Mr. Ryan. "He was awaiting news from the United States. He said he hoped the United States would recognize the Cubans as belligerents."

"Our only hope lies in the action that may be taken by your country," is what General Maceo told Mr. Ryan.

Another important feature of Mr. Ryan's trip is that he personally visited the trocha unknown to General Weyler, and he intimates that General Lee, too, has seen the trocha.

An expedition of 100 filibusters landed in the Cardenas district of Matanzas. It is understood most of them are Americans. The expedition was protected by a numerous band of insurgents. The troops attacked the enemy and inflicted a loss of twenty-three killed upon the protecting party. Two large boats used in landing an expedition have been found at Punta Maya. They are believed to be from the Three Friends.

BY X RAYS.

Photograph of the Bones of Mr. Morris' Arm Taken Today.

Several months ago THE CHRONICLE mentioned that Electrician L. L. McArthur, Photographer Herrin and Dr. O. C. Hollister had made a combination to personally investigate the workings of the X rays. Though Mr. Herrin has withdrawn from the experimenters the experimenters have continued, until now success may be announced, and that of a very flattering quality. Mr. McArthur is interested in the question as a student and scientist, while the doctor's motive is to make the discovery of value in his surgical practice.

Today a photograph was taken through the flesh of an arm, the bones of which were smashed in a threshing machine accident two years ago. The subject is Mr. W. M. Morris, whose arm was caught in the threshing machinery at Juniper Flat. The X ray photograph was taken today at the electric light house, the sitting continuing from 12:30 to 1:45, an hour and a quarter being required for the exposure. The entire machinery required for making the photograph was constructed by Mr. Arthur, with the single exception of the Crookes' tube, a glass vacuum which requires expensive and delicate machinery to make.

The experiment today was very interesting. Mr. Morris sat comfortably

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

PURELY VEGETABLE.

The Cheapest, Purest and Best Family Medicine in the World! AN ESSENTIAL SPECIFIC for all diseases of the Liver, Stomach, and Spleen.

Regulate the Liver and prevent CHILLS AND FEVERS, MALARIOUS FEVERS, BOWEL COMPLAINTS, RESTLESSNESS, JAUNDICE AND NAUSEA.

HAD BREATH!

Nothing is so unpleasant, nothing so common, as bad breath; and in nearly every case it comes from the stomach, and can be so easily corrected if you will take SIMMONS' LIVER REGULATOR. Do not neglect so sure a remedy for this repulsive disorder. It will also improve your appetite, complexion and general health.

PILES!

How many suffer torture day after day, making life a burden and robbing existence of all pleasure, owing to the secret suffering from Piles. Yet relief is ready to the hand of almost any one who will use systematically the remedy that has permanently cured thousands. SIMMONS' LIVER REGULATOR is no drastic, violent purge, but a gentle assistant to nature.

CONSTIPATION

SHOULD not be regarded as a trifling ailment—in fact, nature demands the utmost regularity of the bowels, and any deviation from this demand paves the way often to serious danger. It is quite as necessary to remove impure accumulations from the bowels as it is to eat or sleep, and no healthy man can be expected to have a constive habit of body prevail.

SICK HEADACHE!

This distressing affliction occurs most frequently. The disturbance of the stomach, arising from the imperfectly digested contents, causes a severe pain in the head, accompanied with disagreeable nausea, and this constitutes what is popularly known as Sick Headache, for the relief of which TAKE SIMMONS' LIVER REGULATOR OR MEDICINE.

MANUFACTURED ONLY BY J. H. ZEILIN & CO., Philadelphia, Pa.

in an arm chair, his exposed arm being stretched along a table, his shirt sleeve rolled up to the end of the arm. A few inches above his elbow was the tube, a glass globe about 5x8 inches, lighted by a palpitating electric glow. In the center of the globe was a square bit of platinum, where the current ends from the upper pole of the magnet. The current passes through about 4 inches of vacuum, and produces the crossed rays. A negative will be ready tomorrow, which will reveal the internal structure of the arm. This is certain from other negatives taken by Mr. McArthur. One was taken of Mr. McArthur's hand, showing the entire bony structure. Another was taken through a walnut box, a quarter to a half inch thick, showing a number of tools on the inside. The photograph of the arm will be described tomorrow.

Chinese Patrons.

Mr. Kerns, the liveryman, drove a very interesting couple from Cello to The Dalles yesterday. They were strictly Oriental people, Chinese. The lady occupied the back seat alone, her escort riding with Mr. Kerns. She carried a fan which she used in a most bewitching manner, often leaning forward and chatting and laughing with her male companion. She was too much for him; that was apparent. He could not keep up with her sallies of chin music and fan, and was plainly of the opinion that he preferred her asleep. He was much relieved, therefore, when they drove up in front of Doc Sing's, for though the Chinese men congregated there greeted the arrivals with stupid indifference, Mrs. Doc Sing went out to the buggy and welcomed the lady in a truly hospitable manner. The couple were related to Mr. Senfert's Chinese foreman at the cannery, whom they have been visiting, and left this morning for their home in Seattle.

Plenty of Fish Now.

Last night's catch of salmon was the best of the season, every wheel doing well. Seufert Bros. caught three tons, which is a good paying catch. This firm has facilities for canning about forty tons daily, and if pressed could can fifty tons for ten days or two weeks. Notwithstanding this they have been compelled in years past to shut down their wheels on account of catching more fish than they can handle. The news is now that the run of fish at Astoria is poor, and if a surplus is caught here, it is possible to ship them to the Astoria cannerymen, provided the railroad facilities are prompt, which has not been the case heretofore; thus compelling fishermen to shut down their wheels.

Fourth of July Rates.

For the Fourth of July the O. R. & N. Co. will sell excursion tickets to any rail station within 300 miles of The Dalles at rate of one fare for the round trip. Tickets to be sold July 23, 3d and 4th; good up to and including July 6th. j619d E. E. LITTLE, Agent.
