A Fair Statement From a Democratic Source.

Portland Sunday Welcome.

Why is it that so many people are clamoring for the free and unlimited coinage of silver? Do the majority of them recognize or realize the probable consequences of such a policy? And is it not probably true that most of them scarcely care for the consequences? They know that they are not as well off as they formerly were; that the country has fallen upon evil times; that there is trouble somewhere in our financial system. They recklessly say that they cannot be much worse off, anyway; they are willing to take a leap in the dark. Many, without the ability to reason clearly or to subdue unreasonable prejudices and passions, merely jump blindly at the conclusion that the free and unlimited coinage of silver—the substitution of silver for gold as the monetary standard—would break up the "money power," would afford an opportunity of getting rid of half our debts, would shake up and unsettle affairs generally; and that in some chance way they would be benefited thereby. The free silver propaganda finds its strength in the unrest and dissatisfaction that

Nothing is so unpleasant, nothing so common, as bad breath; and in nearly every case it comes from the stomach, and can be so easily corrected if you will take SIMMONS' LIVER REGULATOR. Do not neglect so sure a remedy for this repulsive disorder. It will also improve your appetite, complexion and general health.

CONSTIPATION SHOULD not be regarded as a trifling ailment, in fact, nature demands the utmost regularity of the bowels, and any deviation from this demand paves the way often to serious danger. It is quite as necessary to remove impure accumulations from the bowels as it is to eat or sleep, and no health can be expected where a coarcted habit of body prevails.

SICK HEADACHE: This distressing affliction occurs most frequently. The disturbance of the stomach, arising from the imperfectly digested contents, causes a severe pain in the head, accompanied with disagreeable nausea, and this constitutes what is popularly known as Sick Headache, for the relief of which TAKE SIMMONS' LIVER REGULATOR OF MEDICINES.

agitate the people, and fit them for any "change," however unreasonable. Some of the silver advocates are able men; most of them, let it be conceded, are honest; but the "free silver craze" is fed principally by ignorance, recklessness and discontent. Whether this popular wave of unrest and delusion is yet at its height is uncertain, but it must eventually subside.

Creating Adverse Sentiment. EDITOR CHRONICLE:—I find the following article in the Portland Telegram of Saturday:

Messrs. Henry Failing and George Dekum, who have been in the mountains during the past week, state that the sheepmen are firing the underbrush in many places with the object of encouraging next year's pasture. It is from this source that most of the destructive forest fires which mar each summer in the mountains originate.

I was rather surprised at the above item, knowing how careful sheepmen are in regard to forest fires; and upon making inquiries to secure further particulars, it has occurred to me there is an unwarranted effort being made to create a prejudice in the public mind by some people here who, to say the least, "handle the truth with parsimonious frugality." I have seen Mr. Henry Failing and Mr. Geo. Dekum regarding the matter, and they both pronounce the statement, so far as the mention of their names are concerned, a pure fabrication without a particle of truth in it as neither of the gentlemen have been out of the city, and they know absolutely nothing of the matter at all. Yours truly, F. N. JONES.

Sheep Owners and Bryans. The opinion which sheep owners entertain of the coming election is shown in the following transaction which took place recently between two Montana sheepmen and is vouched for by the Great Falls Leader: E. E. Leach of Dnpuyer and James McDevitt of Ponders, both large sheep owners, were in the city. Mr. Leach owned 2500 sheep on his ranch near Dnpuyer which he sold to Mr. McDevitt upon the following conditions: Should William J. Bryan of Nebraska be elected president of the United States in November next, Mr. McDevitt is to pay Mr. Leach \$1 per head for the sheep. Should William McKinley of Ohio be chosen president of the United States in November next then Mr. McDevitt is to pay Mr. Leach \$2 per head for the flock. The sale is bona fide and the transfer has already been made and on the election of president hangs \$2500 to be put in the pocket of either Mr. Leach or Mr. McDevitt.

You Can't Make Black White.

Philadelphia Inquirer. Suppose congress should pass the following act: "An act to make one ton of coal equal to one bushel of wheat."

"SECTION 1. Be it enacted by the senate and house of representatives of the United States of America, and it is hereby enacted, That upon the passage of this act one ton of coal shall be equal in value to one bushel of wheat."

How would such legislation be received by the people? They would just laugh at it. They would make all manner of fun of the congressman who had taken part in such nonsense. The man with the ton of coal would still demand its market value and the farmer with the bushel of wheat would get just what he could for it.

There is a universal law of supply and demand which is paramount to any legislation, and there is not a 10-year-old child who would not puncture congress with his dart and ridicule its members as a set of know-nothings should they adopt such legislation.

Suppose, again, congress should enact the following: "An act to establish the ratio between gold and silver."

"SECTION 1. Be it enacted by the senate and house of representatives of the United States of America, and it is hereby enacted, That upon the passage of this act 16 ounces of silver shall be equal in value to 1 ounce of gold."

The market price of silver today is about 30 to 1 when compared with gold. How would it be possible, then, for congress to declare 50c to be \$1 any more than it would be possible to declare that a bushel of wheat is equal to a ton of coal?

You cannot make black white. An Excellent Choice.

A Salem exchange says: "We are glad to learn that Mr. M. W. Smith, of this city, has received the appointment of principal of the schools in the city of Grass Valley, California. Mr. Smith has occupied a similar position on several occasions, and always to the complete satisfaction of both pupils and parents. At one time Mr. Smith was at the head of our reform school, and left it much to the regret of the public and the sorrow of the boys under his care. Mr. Smith carries with him testimonials from some of the best educationalists in this country, from such men as Prof. Lewis, McLouth, of Ypsilanti, Michigan; B. E. Hood, superintendent of schools in Aberdeen, South Dakota; W. H. H. Beadle, now principal of the state normal school of South Dakota; Hon. G. M. Irwin, state superintendent of public instruction for Oregon, and from many other eminent persons. To our certain personal knowledge we can truthfully say that Mr. Smith has been a favorite wherever he has been engaged in school work. The school directors of Grass Valley made a wise choice when they selected Mr. Smith, for he will undoubtedly make their school one of the best in the state. Mr. Smith carries with him the good wishes of this entire community."

Mr. Smith was formerly principal of The Dalles public schools and our people can endorse everything stated in the above article.

He Kicked a Widow, Too. The books of George F. McConnell, the defaulting Knights of Pythias grand keeper of records and seal, are being examined by experts, and from present indications the loss to the grand lodge will amount to more than \$1000, although the subordinate lodges will lose whatever remittances they made to McConnell after the change in the constitution. One of McConnell's bondsmen said yesterday that, although no one knew where the defaulter had gone, the matter had been reported to the police and every effort would be made to find him and bring him back to answer for his crime. It has transpired since the departure of McConnell that he in some way possessed himself of \$1000 life insurance which was carried in the order by the late H. G. Mathies, and spent it with the rest of his stealings. The money was placed in McConnell's hands to pay the widow, and he blew it in, and the widow is deprived of the benefits which the husband provided for her by joining the order.—Oregonian.

Silver Wages in Mexico. Albuquerque, N. M., Citizen. The railroad employes of this territory have a pretty good idea of what wages are in Mexico, where the railroad men are paid in silver. They get the same wages in Mexico as in this country, but the money is worth only about half as much. If the free-coinage proposition carries, the United States will be placed on exactly the same monetary basis as Mexico, and, with a debased money, laboring men will be the first and principal sufferers. The rich men of Mexico have grown richer by the free coinage of silver.
