NUMBER 37.

ARE FOR SOUND MONEY

McKinley and Hobart Wheelmen's Club Meets.

A LINE OF ACTION AGREED UPON

Clubs Are to Be Organized Under Military Rules—Presidential Campaign Plans.

CHICAGO, Aug. 14.—The executive committee of the National Wheelmen's McKinley and Hobart Club held a meeting last night in their rooms at the national Republican headquarters. Messrs. Hanna and Dawes, of the national Republican committee, were present, and a line of action was agreed upon.

From the mass of correspondence received from other cities seeking information, it is evident that large masses will have to be handled, and nothing but military discipline can accomplish this without confusion. The executive committee has therefore adopted the following plan of organization:

Companies of not more than fifty nor less than 30 shall be formed, each company to choose a captain, lieutenant, standard-bearer and bugler.

Every four companies shall be organized into a battalion and shall choose a major, who may select his aids and a standard-bearer.

Every battalion shall form a regiment, for each regiment a colonel shall be chosen, who shall select his aids and standard-bearers. The executive committee shall choose brigadier-generals.

It is intended to have a meeting at Chicago of all the members of the national organization at least once during the campaign. For organization in other cities and towns the national executive committee urge that the above line be followed as closely as possible.

Any person desiring to form a branch in his locality, by addressing the national secretary, Charles Whitacre, at the national Republican headquarters, Chicago, will have forwarded to him the necessary literature and instructions.

CAMPAIGN GOSSIP.

Joint Financial Debate Will Probably Be Given Up.

WASHINGTON, Aug. 14.—It is probable that there will be no joint debate between the gold and silver standard-bearers. The idea has few advocates in the Republican ranks here, and Chairman Babcock, of the Republican congressional committee, is pronounced in his opposition to it.

When asked whether Mr. McKinley would take the stump, he said he did not know, but hoped that Mr. Bryan would continue to talk, as everything he said made Republican votes.

Representative Mercer, of Nebraska, secretary of the committee, strongly favors a stumping tour by McKinley. He said:

"On the Pacific coast the great and vital question is the tariff. So far as the money question is concerned, we have the best of that argument, as all will readily see if they take the pains to inform themselves. I should like to see McKinley make a tour, beginning in California, working up the Pacific coast, then coming East, giving about six weeks at the end of the campaign to that work."

Two of Candidate Sewall's Vessels Seized for Debt.

New York, Aug. 14.—Two ships belonging to Arthur Sewall, Democratic vice-presidential candidate, were seized by the marshal on libels yesterday morning, but were subsequently released upon the filing of a bond. Mr. Sewall is the head of the firm of Arthur Sewall & Co., shipbuilders of Bath, Me. His partner is unknown to the libellants, who designate him in the complaint as "John Doe."

The two ships, the Iroquois and W. F. Babcock, were repaired on July 2d and July 15th last at the drydocks of the John N. Robbins Company. The amount of the bill was \$848 and \$852. The repairers declare they have repeatedly asked for payment of their bill, but could get no money. A second attachment against the Iroquois was obtained by Lewis Davis, owner of the barkentine E. S. Powell, which was injured in a collision with the Iroquois in June and damaged, it is alleged, to the extent of \$8,000, for which amount action was brought.

HE WILL NAVIGATE SPACE.

A San Francisco Man Designs a New Airship.
SAN FRANCISCO, Aug. 14.—Dr. C. A.

Smith, is more enthusiastic than ever over his flying machine since he received a telegram Wednesday from Washington informing him that a patent had been granted on his device for sailing through the air. A company was incorporated in this city last Saturday to build Smith's airship, navigating air vessels and carrying on a general business in them. I. J. Truman, president of the Columbian bank, and George T. Garden are among the stockholders. The attorney for the company is M. M. Estee.

These well-known men declare that Smith's machine appears feasible as a mechanical proposition, and that it is really a most ingenious solution of the difficult problems that have faced the scientific aeronaut. Smith himself claims it will lift itself and additional weight, and more that, he can so control its flight as to practically imitate a bird on the wing. This means that the airship can be lifted from the earth and depressed at the will of the engineer, who may also steer his vessel bither and thither, describe circles regardless of the wind, and perform evolutions like a ship at sea.

It is still further claimed for this wonderful invention that it can be driven into the very teeth of a storm. Indeed, if all that is claimed for it proves true, the long-talked-of airship will soon be an accomplished fact.

The company intends to open a workshop at once and begin the construction of Dr. Smith's first airship. And in the course of a few months, the expectation of seeing the machine arise and float aloft will be very strong.

Oregon Jungle Story.

"Pole" and George Avery left Corvallis three weeks ago for a rousing old time in the mountains says the Times. Well, they had it. They returned yesterday noon, and were heavily laden with dried meats and stories of adventure that rival Kipling's "Jungle Stories." They hunted in the Yachatte, 5-Mile creek, and 10-Mile creek countries, and 5-Mile creek they were joined by Jim Wilkinson, a nephew of Beaver Creek Jim. Jim is a good hunter as well as "Pole" and George, and they had famous success. When George was asked "what luck?" he replied "Thirteen deer, a bear, a cougar and a bee tree." Jim Wilkinson had a dog with him to use in hunting, and he also had a pup along that he was teaching to hunt. Some one of the party had killed a deer and taken it to camp. Arriving there the carcass was thrown down in front of the tent near the place where pup was chained. Not one of the party was far from the camp, and either George or "Pole," or both of them, were shooting within a short distance of the camp, and Jim was but a few rods away, when there was a terrible screaming, howling snarling and ki-yi-ing to be heard at the spot where the pup was chained. Jim Wilkinson rushed up and beheld the pup in the clutches of the cougar. As often happens in cases of emergencies, his gun was empty, and what was worse, the cougar was inside of the tent lying on his cartridges, and ere long the pup was literally torn to pieces. He shouted for George to come quickly, and when the latter reached the scene, Wilkinson seized the gun and shot the animal, killing it right in the tent. Jim was so enraged at the destroyer of his pup that he grabbed a knife and cut it into strips. The cougar was a female and it must have been very hungry, for it never flinched at the approach of the men. The scalp was saved and will bring a bounty of \$2 or \$3.

Sixteen to One vs. Nothing to Eight.

The Wiley B. Allen Company have posted up their show window a letter just received from George E. Griswold, of the firm of Lyon & Healy, Chicago, who, by the way, is a great silver man, but who writes that he has a good gold story to tell:

A silver man asked an Irishman if he knew what 16 to 1 meant, and the Irishman said: "You bet your life I am the man that knows."
"Well, what is it?"
"Well," he said, "you are blowing and spouting about 16 to 1 before election, and after election it will be nothing to ate (eight)."

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City Ill. was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 139 Florida St. San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which there are samples, that prove the wonderful efficacy of this medicine in Coughs and colds. Free trial bottles at Blakeley & Houghton's Drug Store. Regular size 50 cents and \$1.00.

THE VITAL QUESTION

Senator J. Sherman's Great Speech at Columbus.

THE OHIO CAMPAIGN OPENED

Ten Thousand People Listened to a Plain Statement of the Financial Issues of the Day.

COLUMBUS, O., Aug. 15.—The Republican campaign in Ohio was formally opened today by two monster meetings in this city. The orators were Senator John Sherman, Senator-elect J. E. Foraker and Hon. Stewart L. Woodford of Brooklyn, N. Y. The meetings were held in an immense tent on East Broad street, the city having no auditorium large enough to accommodate the crowds. At the afternoon meeting, fully 10,000 people were crowded into the tent. The large attendance was a great surprise, as it was feared the extreme warm weather would interfere. Governor Bushnell presided at the afternoon meeting. The governor made a brief speech. He said the people from all parts of the state were present to open a campaign that will elevate to the highest office in the gift of the people of the United States a distinguished son of Ohio—that man was William McKinley. The speaker reminded his hearers that no Ohio candidate for the presidency, except the first and greatest of them all, Abraham Lincoln, was a native of Ohio.

RALLYING TO MCKINLEY.

Populist of Klickitat Who Will Vote the Republican Ticket.

GOLDENDALE, Wash., Aug. 15.—J. M. Coney, a resident of Goldendale, who represents an extensive portion of the Populist party in Klickitat county, and voted for James B. Weaver four years ago, today he declared he would vote this fall for McKinley and Hobart. He believes the success of McKinley and the party that was tried so many years the only remedy that will bring to the poor man prosperity. Mr. Coney believes the Populist party has retrograded by an alliance with the party with a record of failures and a syndicate capitalized at over \$500,000,000 by silver-mining owners. Mr. Coney said:

"The Populist party came into existence to right the wrongs that had been perpetrated by corporation greed; but now it is in the act of aiding the greatest corporate greed ever known."
Andrew Jackson Murphy, an old-time newspaper man, and at one time editor of the Populist paper in Klickitat, also a candidate on the Populist state ticket four years ago, has joined the Republican club.

Albert Madsen, a prominent Democrat, who ran on the Democratic ticket two years ago for office, has joined the McKinley Club, and wears the McKinley hat.

TALKED TO HIS EMPLOYEES.

A Railroad President Speaks on the Money Question.

KANSAS CITY, Aug. 15.—A. E. Stillwell, president of the Kansas City, Pittsburg & Gulf railroad, is the first employer of any large number of men in this vicinity to begin an active and open political campaign among the men whose labor he hires. Today all the railroad's shopmen in Pittsburg, Kansas City and intermediate points, besides many other employes of the road, altogether numbering several hundred, were given a free holiday and transportation to Fairmount Park. When they arrived, Mr. Stillwell appeared before them in the auditorium and delivered an earnest address in opposition to the free-silver "crisis," as he termed it. Mr. Stillwell declared that the free-silver agitation had done more harm to the laboring man—had taken more bread out of his mouth—than the civil war. He assured his employes that they would never see any free-silver men at the head of any great enterprises that develop the country and give work to the laboring men.

None But Ayer's at the World's Fair.

Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed on exhibit at the world's fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the world's fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."

"DIDN'T KNOW IT WAS LOADED."

Edward Ward Accidentally Kills His Brother at Portland.

A sad and fatal accident occurred yesterday morning at the home of Mrs. Ward, a widow, living in the third story of the building at the northwest corner of Morrison street and Union avenue, Portland.

Edward Ward, her eldest son, aged 23 years, was engaged in cleaning a revolver, which he supposed to be empty. It was loaded in every chamber, however, as was subsequently ascertained. Edward's brother, Henry, aged 17, wished to examine the weapon and made a search for it while it was in Edward's hands, and in some unaccountable way it was discharged. The bullet entered the lower region of the boy's abdomen, and he started to run out of the room, but fell to the floor. Recovering his feet, he hurried down the two flights of stairs, and ran into Logan's drug store, near by, and told Mr. Logan what had happened.

Drs. Gillespie, Chambers and Johnson were summoned, and soon arrived, and upon examination saw that the boy was fatally wounded.

Young Ward was thereupon conveyed to St. Vincent's hospital, and in the afternoon Drs. Gillespie and A. C. Smith placed him under an anesthetic, and found that the bullet had passed through the stomach, perforating the large intestine in three different places, and had then lodged in the spleen, which was badly lacerated. The wounds were carefully stitched, but the worst feature toward a possible chance for recovery was the perforated spleen, which made the case even at that time almost hopeless.

When young Ward regained consciousness, Dr. Gillespie informed him that he had but a few hours to live. The boy, who had borne up bravely, received this sad information in a calm and heroic manner. He suffered intensely, but endeavored to repress the evidences of his sufferings, as he did not wish to add to the sorrow of his heart-broken mother, who was at his bedside, and to whom he spoke comforting words. At 10 o'clock he died, his mind remaining clear to the very last.

At the time of the shooting, Mrs. Ward was at church. Edward Ward says that he did not know the revolver was loaded, and his grief over the deplorable accident is as keen as that of his mother. Young Henry declared that the shooting was purely accidental. An inquest will be held this afternoon by Coroner Koehler.

Arraigned for Larceny of a Saddle.

Henry Tennant was arrested last evening for larceny of a saddle on complaint of Alex. Fargher.

The facts in the case are that about three weeks ago defendant borrowed a saddle from Mrs. Fargher, stating he was sent for it by a friend of Mrs. Fargher who wanted to use it. Soon afterward the same saddle was sold to Rupert & Gabel for \$7.50 by Tennant. About this time Mr. Fargher returned from the East and hearing of both transactions had Tennant arrested for larceny.

The defense we understand will be intricate, if the story Tennant told in connection with the transaction is to be used. He claims he lent the saddle to a friend for two or three days. The days lengthened into weeks and still the saddle came not. Finally a stranger came in with a horse and saddle which Tennant admired and he purchased them. He then sold the saddle to Rupert & Gabel, when he, it turns out that the saddle he sold was the identical one he loaned to his friend some weeks before. This story possesses much artistic merit from a novel writer's point of view, but who shall say that truth is not stranger than fiction?

The trial of defendant took place this afternoon at 3 o'clock before Justice Filloon.

The Barking of Dogs.

VARDOE, Norway, Aug. 17.—Dr. Nansen left this morning for Christiania. The meeting between Nansen and Jackson, the English explorer, was the result of the barking of dogs. The Norwegian and companions were exploring when they heard barking. Following the sound they reached Jackson's camp. Vardoe has been decorated in honor of Nansen's return.

Cure for Headache.

As a remedy for all forms of Headache Electric Bitters has proved to be the very best. It effects a permanent cure and the most dreaded habitual sick headache yields to its influence. We urge all who are afflicted to procure a bottle, and give this remedy a fair trial. In cases of habitual constipation Electric Bitters cures by giving a needed tone to the bowels, and few cases long resist the use of this medicine. Try it once. Fifty cents and \$1.00 at Blakeley and Houghton's Drug Store.

WITH THE NOMINEES

What the Presidential Candidates Did Yesterday.

MCKINLEY RETURNS TO CANTON

He Visited His Campaign Manager at Cleveland Yesterday—Mr. Bryan Leaves Irvington.

CLEVELAND, O., Aug. 17.—Major William McKinley, the Republican presidential nominee, accompanied by his wife, returned to Canton this morning, after having spent Sunday in this city as the guest of M. A. Hanna, the Republican campaign manager.

When Major and Mrs. McKinley arrived at the depot this morning to take the train for Canton, they found a crowd of people waiting to see them off. Hearty cheers were given for McKinley, to which the nominee responded by bowing and raising his hat. The demonstration was not concluded until the train had pulled out.

Hanna will leave for New York this evening to visit the Republican headquarters there and look after important business in connection with the campaign.

When asked today as to the truth or falsity of the recent report that McKinley would soon take the stump, Manager Hanna responded that McKinley would do no speaking during the coming campaign.

Hanna is confident of the success of the Republican party at the coming election, and says that evidence continues to come in of the weakening of the free-silver craze in various states.

Bryan at Poughkeepsie.

POUGHKEEPSIE, N. Y., Aug. 17.—When W. J. Bryan reached Poughkeepsie 400 people were on deck to greet him, and followed him up the street cheering and shouting for a speech. When he reached the depot the crowd became so insistent that Bryan finally yielded to their wishes, and standing on a box said:

"I am up here for rest, and I did not expect to make a speech, but I probably shall not see you again, and I will take this opportunity to say a few words to you. I am very glad to see you all. From the tone of the New York opposition press one would be led to suppose there was no silver sentiment in this state. I am glad to see here the refutation of that fallacy and to notice that even the great New York press cannot stifle the wishes of the people. This is a time when the thinking people outnumber corporations and when people will vote according to their own judgment."

"It is to be the greatest campaign we young people have ever seen, and I believe is a good sign when we can, as in this campaign foresee independence. We are naturally an independent people, and this is a time when that independence should be asserted."

Then Bryan asked, "How many here are silver men?"

A number of men raised their hands, and he said: "I want you to study up this matter and see how many silver men you can get out for our campaign."

"How are you for the workmen?"

Bryan hesitated a second and then answered: "Will you take what I have said and what I have done, consider it very carefully, then judge as between our cause and that of our opponents? The candidates represent only the politics in their parties, and it is not for me to tell you what is your duty. It is for you to study the issues and I am glad that you are doing so, and when you find out what your duty is, do it."

Mr. and Mrs. Bryan left on the New York Central train for Trivoli, where Mr. Perrine will meet them.

Like Darius Greene.

NEW YORK, Aug. 17.—A special cable from Berlin to the Journal says that Professor Otto Lilienthal, the well known inventor, died Tuesday from the effects of a fall from his flying machine. The aeronaut arose 15 meters from the mountain when he lost his balance and fell to the ground head first. His last words were: "Mine is the true inventor's death."

The Nogales Raiders.

WASHINGTON, Aug. 17.—The war department has received dispatches from General Wheaton, detailing the movements of the troops in pursuit of the Indian raiders from Mexico. It is believed that such disposition of the troops has been made as will intercept them if they attempt to cross into Mexico. The Indians are on foot and are pursued

A cream of tartar baking powder. Highest of all in leavening strength.—Latest United States Government Food Report. ROYAL BAKING POWDER CO., NEW YORK

by mounted troops. Mexican authorities will establish a garrison at Nogales for the purpose of preventing further Indian raids.

GAIL HAMILTON DEAD.

Famous Journalist Passes Away at Her Home.

HAMILTON, Mass., Aug. 17.—Miss Mary Abigail Dodge, writer, biographer and controversialist, died here this evening. Miss Dodge sustained a stroke of paralysis while sitting at the breakfast table yesterday morning. She fell from her chair, was picked up unconscious, and remained in that condition until her death.

Since the illness of last year, which came on suddenly in the Blaine mansion in Washington. Miss Dodge lived very quietly at her old home in Hamilton, Mass. Her strength had never rallied after that illness, but during that time she had been able occasionally to drive about the town and to entertain, in her old delightful manner, the friends who called upon her. Her literary work during this time had been fragmentary, done by the help of an amanuensis as a diversion when some current event had especially attracted her interest.

A Boy Murderer.

MINNESOTA, Minn., Aug. 17.—Carl Ranberg, an 18-year-old boy of this place, was shot and almost instantly killed by a stranger, who calls himself Walter H. Glass of Nebraska City, Neb. The weapon used was a shotgun of large bore. Two other lads, Mike Bunce and Gaeger, who among others were with young Ranberg at the time, were also wounded by stray shots.

Glass gave himself up to the authorities and was taken to Marshall and lodged in the county jail. He claims that he was provoked to shoot by insulting language used by some of the boys in the hearing of the prisoner and his wife.

Lost!

On the morning of July 4th, between 5 and 8-Mile creeks, a tan-colored valise clothing and other valuables. A liberal reward will be paid on leaving the same at this office. j16-das-wim

His Last Patrol.

WALLA WALLA, Wash., Aug. 17.—M. Ames, city marshal, died at midnight Sunday, after a brief illness of three days. For years he was afflicted with a complication of liver and kidney trouble. He was taken ill three days ago, and became unconscious Sunday evening, expiring at midnight.

PURELY VEGETABLE.

The Cheapest, Purest and Best Family Medicine in the World! AN EFFECTUAL SPECIFIC for all diseases of the Liver, Stomach and Spleen. Regulate the Liver and prevent CHOLERA AND FEVER, MALARIA, COMPLAINTS, RHEUMATISM, BRUISES, SWELLINGS, JAUNDICE AND NAUSEA.

BAD BREATH!

Nothing is so unpleasant, nothing so common, as bad breath; and in nearly every case it comes from the stomach, and can be so easily corrected if you will take SIMMONS' LIVER REGULATOR. Do not neglect so sure a remedy for this repulsive disorder. It will also improve your appetite, complexion and general health.

PILES!

How many suffer torture day after day, making life a burden and robbing existence of all pleasure, owing to the secret suffering from Piles. Yet relief is ready to the hand of almost any one who will use systematically the remedy that has permanently cured thousands. SIMMONS' LIVER REGULATOR is so drastic, violent, purgative, but a gentle assistant to nature.

CONSTIPATION

SHOULD not be regarded as a trifling ailment. In fact, nature demands the utmost regularity of the bowels, and any deviation from this demand paves the way often to serious danger. It is quite as necessary to remove impure accumulations from the bowels as it is to eat or sleep, and no health can be expected where a constive habit of body prevails.

SICK HEADACHE!

This distressing affliction occurs most frequently. The disturbance of the stomach, arising from the imperfectly digested contents, causes a severe pain in the head, accompanied with disagreeable nausea, and this constitutes what is popularly known as Sick Headache; for the relief of which TAKE SIMMONS' LIVER REGULATOR OF MEDICINE.

MANUFACTURED ONLY BY J. E. ZEHLIN & CO., Philadelphia, Pa.
