On her present western tour she is making and selling Hon. Binger Hermann and the one by native needle work for the purpose of completing her education before returning so her own country. Her father is Hon. E. L. Smith, a Republican presia resident missionary in Syria. The young lady is below the medium height, prepossessing in appearance, about 21 years of age, and very much in earnest over her work.

About the most senseless "kick" is that contained in this morning's Dispatch against the members of the However one may think as to whether or not the McKinley club was organized to distribute old shoes and ham bones to the deserving poor, the Dispatch must admit that if a number of individuals desire to get up a parade and buy uniforms it is their own business and does not violate any law of morals or expediency. If it is all right to hire a band to increase the efficiency of a political demonstration it is all right to buy uniforms, if the ones who pay for them do so with their own money. Under the Dispatch's code of morals no one would have a right to smoke a cigar, wear a ring, or take a buggy ride. They should keep a continual lookout for objects of charity.

Hurley at the Baldwin.

Mr. Hurley, a California orator, had the audacity to hold an audience until 11 o'clock last night at the Baldwin. The fact that the door kept squeaking for two hours, with departing auditors, before he quit made no difference to Mr. Hurley. He kept hammering away, until the few who remained so long absolutely showed signs of an open revolt before he shut down his talking machine. It is a marvel how anyone remained, and shows the remarkable tolerance of a Datles audience. SIMPLE SUMS FOR SILVERITES.

Problems Which Can Easily Be Figured

A farmer raises 1,000 bushels of wheat, for which he now gets \$500. With that money he buys various kinds of manufactured goods at low prices. With free coinage at 16 to 1 he might get \$1,000 for his wheat, but would certainly have to pay nearly twice as much for the goods he would buy. How much would the farmer gain from a most indefatigable workers for an open cheap money scheme which doubled the price of the things he gets in exchange for his wheat?

The Sherman silver law of 1820 provided for the purchase by government of 54,000,000 onnces of silver per year.
