At the 2,100-foot level it is thirty feet wide, and as the workmen go still deeper the ore body grows. It is like a great wedge in the earth, with the edge to the surface.

Orders have been given to sink the shaft an additional 200 feet, and mineowners on the Pacific coast are awaiting the result. If that ledge continues to grow in size there will be some lively lode this coming summer. Even the Comstock people may be tempted to make another experiment.

At its present development the Kennedy has the distinction of being the deepest gold mine in the world, with the exception of a property in Victoria. Australia. The shaft from top to bottom, allowing for the incline, measures 9 450 feet.

Spaniards Kill Hundreds In Guanabacoa Province.

NEW YORK, Jan. 7 .- Antonio Aguierro a member of the Havana produce exchange arrived here on the steamer Orizaba, from Havana. He was a resident of Guanabacoa, where, according to recent reports from Havana, atrocites were committed by the Spanish troops under Colonel Fondevila. Senor Aguierro when seen last night said;

"The reports which reach the United States of the affairs in Guanabacoa are far from telling the whole truth. Colonel Fondevila has instituted a reign of terror at the place. His name is well known to the American press as that of the most bloodthirsty officer of General Weyler's command. He is a favorite of captain-general and has been appointed military commander of Guanabacoa, just across the bay from Havana.

"Fully 500 families have left the town and moved into Havana since his taking charge. People are taken from their homes and killed with machetes in the ontskirts of the town. The world is then made to believe that such people were leaving their homes to join the rebels who swarm the neighborhood. I know of 39 persons who have thus been done away with.

"Even honest Spaniards are shocked at Fondevila's acts. One of the honest Spaniards warned me that my name was on the list with more than 200 more kept by Fondevila as men marked by him for secret execution as rebel sym-

many a brave man has hesitated and looked well to his gun before entering on the trip. To Mrs. Minton, however, the highway has no terrors. She enjoys the unique distinction of being probably the only female mail-carrier in Uncle Sam's service who rides horse back fearlessly through the forests with her pouch, which contains the missives which are the only means of communication with the world at large to the residents of Andersonville.

She is a typical Kentucky mountain girl, active, strong, fearless and very intelligent. She is an excellent horse woman. No animal is too high spirited

for her, nor does she need help it mounting and dismounting. With the mail pouch thrown across the pomme of her saddle, she rides fearlessly along the lonely highway, and it is safe to say that anyone interfering with Uncle DOORS.
