NO REPLY SENT TO LEE.

State Department Has Neither Granted Nor Refused His Demands.

New York, Feb. 25.—A World special from Havana says:

The state department refuses to answer General Lee's cabled question whether or not it will sustain his demands that Spanish outrages upon Americans cease and that the liberty and treaty rights of citizens of the United States be respected by the Spanish authorities.

Ruiz was kept incommunicado thirteen days before he was killed. To prevent Scott being secretly murdered General Lee demanded of General Ahumada on Friday that Scott be brought out of close confinement and allowed to see his friends. This was not done by Saturday, and General Lee cabled to Secretary Olney the facts, asking him how many warships were on the Florida coast, and if one would be sent here in case it became necessary to enforce a demand.

Not one word in reply to the question has come from Washington up to Wednesday, four days after the state department had been asked by the consul-general in an emergency if he could rely upon his government fully sustaining him in protecting the citizens of his country.

The Spanish authorities do not in the least respect treaty stipulations that no American prisoner must be kept in solitary confinement more than five days, and must be acquainted with the charge against him within twenty-four hours.

No American prisoner ever was brought out of solitary confinement in a dark cell within the time specified.

The American colony is bordering on a panic now that there is no hope of protection from the government at Washington unless congress compels it to send a fleet immediately.

HER SCHEME OF REFORM.

How England Would Administer Affairs of Crete.

LONDON, Feb. 25. —In the house of lords today the Marquis of Salisbury, replying to a question from Lord Dunraven, said that as the best means of placing the house in possession of facts of moment in regard to Crete, he would read a telegram sent yesterday evening to the British ambassadors to the courts of the great powers. It was as follows:

"Inform the government at which you are accredited that her majesty's government proposes to make the following declaration of policy which it intends to pursue and which it believes is in accord with the views of its allies:

"First—Establishment of an administrative autonomy in Crete as a necessary condition for the termination of international occupation.

"Second—That subject to the above conditions Crete ought, in her judgment, to remain a portion of the Turkish empire.

"Third—The Turks and Greeks should be informed by the powers of this resolution.

"Fourth—If Turkey or Greece when

required persistently refuse to withdraw their military and naval forces from the island, the powers should impose their decision by force upon the state refusing."

THE CAMBRIAN LONG OVERDUE.

Grave Fears Are Felt for the Vessel's Safety.

New York, Feb. 25.—The big new four-masted twin-crew passenger steamer Cambrian, the crack vessel of the newly amalgamated Wilson-Farrless-Layland line's fleet, bound from London with a full cargo and a list of passengers for this port, is now seven days overdue. Her delayed arrival, coupled with the painful knowledge of a protracted spell of violent weather at sea recently, and the presence of vast and dangerous ice fields in the track of transatlantic vessels has inclined those interested to the belief that some serious mishap has befallen her.

Another fact that is regarded as significant is that though the Cambrian has been at sea nearly three weeks, no tidings of her have been received since the day she left the Thames.

The Cambrian sailed from London February 4, and should have made the voyage in from twelve to thirteen days. She was scheduled to sail from here today on her return trip to London.

The steamship Siberian, from Glasgow, a much slower vessel than the Cambrian, which put to sea three days after the latter, arrived Monday.

Did you ever stop to think what indigestion really means? It means simply that your stomach is tired. If our legs are tired, we ride. The horse and the steam engine do the work. Why not give your stomach a ride; that is, let something else do its work. Foods can be digested outside of the body. All plants contain digestive principles which will do this. The Shaker Digestive Cordial contain digestive principles and is a preparation designed to rest the stomach. The shakers themselves have such unbounded confidence in it that they have placed 10 cent sample bottles on the market, and it is said that even so small a quantity proves beneficial in a vast majority of cases. All druggists keep it.

Laxol is the best medicine for children. Doctors recommend it in place of Castor Oil.

Slapped by a Stripling.

New York, Feb. 25.—The Herald correspondent in Bogota says that the Spanish minister, Baron de Barre, was slapped and otherwise insulted by Senor Morales on board a railroad train. Morales is a very young man, is a relative of Don Placido Morales, who was killed in the streets of Bogota a year ago. A dispute had arisen between Don Placido and some Spanish residents over the Cuban question. Finally a group of Catalonians led by Rosendo Pach, attacked Don Placido, and killed him.

The insult to the Spanish minister has caused a great sensation in the capital. Senor Morales has been imprisoned. The feeling against the Spanish in Bogota is very bitter.

There is nothing just as good as Dr. King's New Discovery for Consumption, Coughs and Colds; so demand it and do not permit the dealer to sell you some substitute. Regular size 50 cents and \$1.00.

The Baby Has a Name.

INDIANAPOLIS, Feb. 14.—The Harrison baby has been named Elizabeth. This is Mrs. Harrison's mother's name. "Yes, we have decided on the baby's name," said General Harrison, "but the christening will not take place for some time, probably. Oh, the baby is fine," he added, in answer to a question, "and Mrs. Harrison is doing nicely, thank you."

I have given Chamberlain's Cough Remedy a fair test and consider it one of the very best remedies for croup that I have ever found. One dose has always been sufficient, although I use it freely. Any cold my children contract yields very readily to this medicine. I can conscientiously recommend it for croup and colds in children.—Geo. E. Wolf, clerk of the Circuit Court, Fernandina, Fla. Sold by Blakeley & Houghton.

Work, Not Charity, Is Wanted. ST. PAUL, Minn., Feb. 24.—There was almost a riot at a mass meeting of the unemployed last night. The city council recently appropriated \$10,000 to use in relief work, and the meeting was a protest at the way the sum is being expended. Resolutions were adopted declaring the unemployed wanted work, not charity.

A FLIMSY SUBTERFUGE.

Spaniards Claim to Doubt Legality of Ruiz' Citizenship.

New York, Feb. 25.—A World special from Madrid says:

The Spanish authorities doubt the legality of Dr. Ruiz' American citizenship. Nevertheless, they have ordered an immediate official inquiry with a view of punishing severely all concerned in the affair if it is proven that they failed in their duty. Some time must elapse before the matter can be sifted.

The only cablegram the government here has received from the authorities in Havana in response to an inquiry relative to the Ruiz case reports that he was arrested for complicity in the detention of a railway train by the rebel chief Aranguren, and that he died of congestion of the brain in the prison at Guanabacoa on the night of February 17th.

The next day, the dispatch says, Consul-General Lee, accompanied by a surgeon, was allowed to see and examine the body, but not until February 21st did he lodge a formal complaint that he had noticed contusions on Dr. Ruiz' head, possibly arising from blows and causing death by congestion.

Canovas Will Investigate.

New York, Feb. 25.—A Herald special from Madrid says:

Premier Canovas in an interview with certain member of the press touching the death of Ruiz, stated that the Spanish government in order to be in a position to reply to the friendly note for information of the United States government, has cabled General Ahunda for full particulars.

Dauntless May Clear.

JACKSONVILLE, Fla., Feb. 25.—Judge Locke, in the United States court here, has overruled the demurrer of the government in the case of W. A. Bisbee vs. Captain Kilgore and the collector of the port, asking for an injunction to restrain them from interfering with the clearing of the Dauntless. The government is given ten days to attend.

Judge Locke took occasion to say that the secretary of the treasury was going too far in requiring a vessel-owner to swear that he would not carry arms, men or munitions of war, as according to law he can carry any one of them, the combination of them making it unlawful.

A Cure for Lame Back.

"My daughter, when recovering from an attack of fever, was a great sufferer from pain in the back and hips," writes Loudon Grover, of Sardis, Ky. "After using quite a number of remedies without any benefit she tried one bottle of Chamberlain's Pain Balm, and it has given entire relief." Chamberlain's Pain Balm is also a certain cure for rheumatism. Sold by Blakeley & Houghton.

Took the Children Home.

WASHINGTON, Feb. 23.—Mrs. Cleveland, her mother, three children and nurse left here today for Princeton, N. J. After Mrs. Cleveland sees the children safely installed in their new home, she will return to Washington to remain till after the inauguration of President-elect McKinley.

THE ISLAND CONTINENT.

Australia is a Land of Loveliness Through All the Seasons. "There is nothing," we are told, "that astonishes the stranger visiting Australia for the first time so much as the variety and beauty of its flowers." Australia is, indeed, a land of floral loveliness, and nowhere has nature been more lavish in her gifts of bud and blossom than in New South Wales. The landscape is an endless panorama of surpassing beauty.

There is a plethora of color in the flowers that everywhere meet the gaze. They are not placed here and there only, to give one the impression of limit; they cover mountains and valleys in all kinds of forms and shades of beauty. Climbers, in rich crimson and interspersed with every color, are multiplied by millions and scattered with a prodigal hand that knows no stint nor bound, save that of infinitude itself, until every shrub and plant and bush, robed in splendor, makes the country gay with blue and gold and many colored dyes.

The gorgeous coloring of the Australian floral kingdom is hardly to be excelled anywhere. Among the favorite native flowers is the stately waratah, or native tulip, as it is sometimes incorrectly designed. It grows to the height of four or five feet, the slender stem being surmounted by a large dahlia-shaped flower of the deepest crimson. It is sometimes grown as a garden flower, but thrives best in the bush. The native rose, which has no resemblance save in its delicate pink tint to the favorite garden flower, is exceedingly plentiful. The blossom is small and modest, but wonderfully enduring and forms a charming addition to an Australian bouquet.

The rock lily, of which a beautiful specimen, imbedded in ice, was lately sent to the queen, is so called from its being most abundant in rocky country, where its masses of yellowish-white blossoms stand out in picturesque relief from the dense background of dark green foliage. The gigantic lily is, perhaps, the most magnificent of Australian native flowers.—Pittsburgh Dispatch.
