Desperate Efforts Making to Prevent Serious Break--Water Still Receding in Tennessee.

ROSEDALE, Miss., March 23 .- The river has risen along the extreme end of the county jail under escort, the warden of lower levee district at Australia, Miss., 20 miles north of here, and the situation is critical in the extreme. A large stream of water is coming in under the levee and has increased to such an alarming extent that Major Sterling, the chief engineer, was sent for by wire. Later, another call was made for 20,000 sacks and 700 shovels, all the hands that could wield a shovel to come quick or the levee would give way.

A special train has left Greenville with the material, and is picking up all the hands between Beulah, Miss.,and Round Lake, the latter point being opposite the threatened place. Should the levee give way it would flood many of the finest plantations in the state, and a stubborn fight is being made to hold it.

Report Was Premature.

MEMPHIS, March 23 .- Authentic information comes at 10 o'clock today that the report of a break in the levee at Australia, Miss., was erroneous. Telegrams say the levee can be held intact for several days.

The river here shows a decline of .02 in 24 hours, which taken with today's bright sunshine, makes the outlook encouraging. Relief boats have ceased running, but there are 3000 homeless people on the Chickasaw Bluff, for whom aid is asked.

ONE HUNDRED WERE KILLED.

Result of the Turkish Attack on Christians at Toka.

CONSTANTINOFLE, March 23 .- Authen-Toka, Asia Minor, where the Turks attacked the Armenians while the latter were in church, showed that 100 Christians were massacred. The Armenians' houses were given over to pillage.

WASHINGTON, March 24 .- The senate committee on privileges and elections has received the brief in the claim of Henry W. Corbett, of Oregon, to a seat. in the senate. It argues that equality of representation of the several states in the federal senate was an essentail fea-

ture in the scheme of the government provided by the framers of the constitution, and that this equality is destroyed when any state has but one senator. The appointment of Mr. Corbett is held to be strictly within the terms of the

constitution providing for appointments by the governor if vacancies occur by resignation or otherwise, and many authorities and precedents are cited to sustain this view.

> As to the recent failure of the Oregon legislature to organize and elect a senator, the brief says:

> The latter said he had no criticism to make of the rates. He only asked that they be collected.

Tawney asserted that the classification of this schedule was such that the duties could not be evaded. The purpose of the framers of the schedule was to give American labor employment in smelting Mexican and Canadian ores, and at the same time fully protect the 'American lead miner.

Simpson, populist, of Kansas, enter tained the house for five minutes. He read from McKinley's speech at the Minneapolis convention a declaration ridiculed. TROOPS TO LEAVE CUBA.

Spain Will Shortly Withdraw Ten Thousand Men.

WASHINGTON, March 25 .- According to advices received at the state department, presumably from General Lee, there will soon follow a big withdrawal of Spanish forces from Cuba in order to satisfy the constant demands for additional service in the Philippine islands, where the present force is said to be inadequate to cope with the insurrectionists. These advices say that Weyler has been directed to, dispatch 10,000 of his best soldiers to Spain, whence they will shortly afterward be transported to the Spanish possessions in the Philippine group.

The demand for troops there is said to have been so incessant that the cortes has been compelled to weaken its Cuban that the foreigner paid the tax, which he forces in order to meet the demand. There are said to be no troops at home that can be spared for duty abroad, and thefarmy'in Cuba is the only source of supply left for it to draw upon.

General Weyler, according to reports received here, has protested against the withdrawal of any part of his force, but orders from the home government are foreigner could be sufficiently increased, believed to be imperative and must be

Diplomats here are said to be once more turning their attention to the conduct of the sultan. It is semi-officially intimated they are again of the opinion the system of friendly representations on the subject of Armenia, which have hitherto been followed, must be changed for sterner methods of dealing with the evils complained of. The sultan, however, consoles himself with the belief that he will survive this new fit of righteous indignation, as he has tided over others of a much more serious character.

English Ships May Run Blockade.

LONDON, March 24 .- The Chronicle prints a Rumor that Lord Salisbury and the cabinet discussed yesterday the sultan's acceptance of the proposal of the king of Greece to nominate Prince George as high commissioner.

The Chronicle prints also another lobby rumor to the effect that Great Britain has declined to be a party to the starving of innocent Cretans in the Interior of the island, and a report that British ships intend to run the blockade, contending that the blockade is indefensible under international law, inasmuch as neither Turkey nor Greece has openly declared war.

France May Withdraw.

LONDON, March 23 .- The Times' correspondent at Paris calls attention this morning to the article in the French constitution which debars the French president from declaring war without the assent of parliament, and says.

"Europe must be prepared for the withdrawal of France from the European concert in the event the Cretan difficulty should require more severe measures than the chamber of deputies will sanction.
