Five men were killed in a landslide in British Columbia Tuesday. The place where they were killed has a hard name, it being "Illecillewaet."

General Nelson A. Miles is the biggest man in London, and on the occasion of the queens jublice will be right up at the head of the procession.

The Indian earthquake did immense damage Saturday last. At Chittagong the earth opened and literally swallowed many buildings, among them the post-

office. The Cape Town parliament adjourned out of respect to Barney Barnato, and the London papers devoted column after column to obituary notices for the dead marauder.

In Praise of Ellis.

The following which is clipped from the Oregonian, is a remarkable utterance for that paper. It is the first words E. E. Lytle, who has been in Portland of praise for Ellis we have ever seen in that paper:

> The persistent work of Representative Ellis was fruitful in securing for Oregon cattle and sheepmen the privilege of

pasturing their herds and flocks on the forest reserve in that state and in stopping prosecutions of those that had been

pasturing until it was determined what could be done under the new law governing the forest reserves passed by congress in the sundry civil appropriation bill. While the committee of the American academy of sciences has pointed out that pasturing does a great deal of damage to the forest reservations, yet it

has not been determined that all the damage or even a molety of it is companied by his wife, came up on the from this source, and it is possible that the damage is not so great as has been claimed. At all events, the Oregon sheep and cattlemen wanted very much to utilize the reserve as pasturage, and Representative Ellis bent every effort to

secure it for them. He went to the secretary of the Interior several times, and tinally got the Oregon delegation to go in a body and made representations to the secretary that until the new legisla-

About twelve miles from Halifax. writes a Canadian correspondent, lies Cow bay, a picturesque inland sweep of sea, where on the calmest day the waves break in long lines of surf and foam, rushing shoreward with a tumult and an exhalation of strong, invigorating sea air. But under the lash of a sontheast storm the waves come tumbling furnously landward, towering mountains high and thundering upon

the sandy coast with a roar that can be heard miles away. It was in such a gale in October, 1891, that the schooner Dora, laden with had seen as he grew up. His father had codfish and bound for Halifax from St. John's, Newfoundland, was driven into Cow bay, and on the dangerous shoals lying some way out. There she lay laboring heavily, disabled by the loss of her maintopmast, with the sea sweeping her deck, breaking the deck-houses and bulwarks and smashing the boats. The crew, fearful of being washed overboard, lashed themselves to the standing rigging. They had nothing

on board to signal the shore except a take up the reins and save the country. pneumatic fog-horn, which was kept moaning out the sounds of distress They were heard by a family named M-, living close to the beach, and by some fishermen, who all hastened down to see if anything could be done. But the rope that was flung out time and again only fell far short into the sea.

At last, when all efforts seemed in vain, Mr. M--- thought of sending out a line by his dog "Sailor," a fine Newfoundland and a powerful swimmer. A cod line was fastened to his collar. The noble animal seemed to understand what was required of him, as with a bound he bravely answered the guiding hand and voice of his master.

He plunged into the sea, and, though swept ashore several times by the immense waves, at last reached the schooner, where he was hauled on board by the shipwrecked crew.

A small rope was fastened to the line by those on shore. Next a hawser way sent out and made fast to the main mast, and then to a tree some way up the beach. A cradle made by the crew was then placed on the hawser, and by its means all the sailors reached the shore.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever: nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Send for circulars; free. Cure.

Jondition of His Kingdom on His Accession. *Egypt Is Desolated and Abandoned to

Invasion from All Lands," Was the Picture He Drew-Building Up His Power.

Prof. Flinders Petrie contributes an account of his discovery of a tablet which gives the first historic account of the oppression of the Children of Israel. Concerning the character of "Pharaoh of the Hard Heart" Prof. Petrie writes as follows: A melancholy prospect he been active in the earlier years of the reign; but after about 20 years he ceased all personal labor, and seems to have sunk in his fatuous pride into a mere despot, devoted to perpetuating his effigies on the monuments, and his family in the harem. The kingdom went steadily into decay year after year, and the old man became more indolent and more fituous, while none of his sons seems to have Been allowed to 'Egypt is desolated, and abandoned to invasion from all lands; the barbarians overrun its frontier, the revolters in-

vade it daily, every country is pillaging its cities, raiding its dwellings in the fields and on the river. They abide and settle there for days and months seated in the land; they reach the hills of middle Egypt. * * * They search for the corn land, seeking to fill their bellies; they come to Egypt to find pro-

vision for their mouths. Such is the melancholy picture drawn by Merenptah of the state of the country on his necession-a striking contrast to the work of the really great kings of Egypt, of the Amenhotep and Thothmes line, who had handed down the rule of Syria from father to son unbroken. The continuous record that we have of Thothmes III, shows that every year regularly he went through Syria to receive tribute and maintain his power, taking all the young princes to be educated in Egypt before they came to act as vassals in their own country. Until he was over 50 this annual outing was kept up, and his children to the third and fourth generation received this dominion in peaceful succession. But under Rameses all this sta bility had vanished; a few raids which did not cover half the previous conquests of Syria, a treaty on equal terms with the foe, and the boastful king sunk into an inglorious lethargy, in which

to the foreigners. And this decay was what had eaten into the soul of Merenptah during all his youth and vigor; until he was at least 40 nothing could be done by him. It was not until the old king had come to that condition which we can now see before our eves in the Cairo museuma withered mummy, which seems as if still dwelt in and half alive with the spirit of insensate pride-it was not until this evil genius of the land was in his tomb that a stroke could be struck for the freedom of the country.

even Egypt itself was largely given up

Then began careful preparation. For four years Merenptah was consolidating his power, with apparently one expedition to Syria, up the coast to the plain of Esdraelon and Tyre: this reconquest we have learned of only since finding the new tablet. But it did not do more than secure the principal for-

SALOON IN TWO COUNTRIES. Ingenious Arrangement for the Thirsty on the Merican Border.

There is an ingenious saloonkeeper who conducts a place in a little village on the border between this country and Mexico, says the Louisville Commercial, The village is half in California and half in Lower California. There are two bars in his saloon, one on the south

and one on the north side of a large room. The dividing line between the two countries bisects the house, and one bar is located in Mexico and the other is located in the United States. The proprietor pays big license to both countries, but still makes a handsome living out of the business. He has suspended all the way across the street in front a unique sign. On the United States side it reads, in letters a foot high: "Your first and last chance." On the other side, in Spanish, it expresses the same idea.

The saloon is known by that name for miles around, and many an eastern tourist who has quenched his thirst there will remember it. It is a great resort for "cow punchers" of both nations who work in that territory. Hence many is the bloody fight that takes place there, and few are the ones brought to justice whose crimes are committed there.

A Judge's Reply.

At one time a delicate question as to the construction of a statute was discussed before the venerable chief justice of the New York court of common pleas, Charles P. Daly, and after elaborate arguments on each side the chief justice decided the question in open court, giving his teasons in a few well timed remarks which caused a full in the courtroom. The silence was speedily broken by the successful attorney, who stood up and said with an air of patronizing approval: "May it please your honor, I, for one, agree with you entirely." The chief justice, with a twinkle in his eye which betokened his enjoyment of the joke, but a perfectly grave face, quietly removed his glasses. and, amid a breathless silence, said: "I have, counselor, generally found in my experience that the successful party agrees with the court."

CHICAGO HORSES AT LUNCHEON Man's Faithful Servants Emulate Him in

Taking a Hurrled Mcal Downtown. Even the horses of this city take luncheon downtown. Every business man knows what this means, the hurried bite taken in the short hour about noon every day, when business is abandoned long enough to permit the destruction of a piece of pie or a sandwich. Everybody does it, so it is as fair for one as the other, says the Chicago Chronicle.

This same haste applies to the nag which pulls the cab or the heavy draft borses used as freighters. At the noon hour on any of the downtown streets the observant person can see these faithful beasts with nosebags depending from their heads quietly munching their oats or corn with every evidence of satisfaction.

It mal:es no difference to the horses that the passing throng sees them in the act of taking food. They are as callous on this subject as their masters, many of whom can be seen sitting on the wagon or adjacent sidewalk with tinnail open, eagerly destroying the luncheon which the wife packed in the morning. It is all in a lifetime, and the Chicago horse has learned that he must eat when he can, and not be too particular about it. Hence he lays his ears back and munches away with placid joy. の現代

He comes back to attend a meeting of the Indian war veteraus, of which he is adjutant, and to recover from some injuries received while chasing a rabbit on his bicycle. He was out Sunday back of the city, taking a spin all by himself and imbibing the mountain air, when he saw a rabbit in the road a short distance off. He started after the rabbit in a playful way, not expecting to catch him. The rabbit shook his long ears at Mr. Kleeman, if to say, "You ain't in it." Mr. Klee man put on more steam, and was rapidl overhauling the creature when it jumpe to one side out of the road. Mr. Kle man had been so intent in the chas that he did not see there was a hi ahead of him, and, when he did, it was too late, and down he went, and, as h reached the bottom, he encountered a Eastern Oregon sand bank, which stopped the bicycle, but not the man or Mr. Kleeman plunged over his it. wheel and plowed in the sand some distance. When he did stop he found

his left arm badly bruised and his clothes cearly torn off. He limped back home, considerably domoralized. No bones were broken .- Oregonian.

The Scio Colonists.

A. W. Merenntah had a dream. Ptah, the great god of Memphis, appeared to him, and warned him to be ready a fortnight hence. This is doubtless a priestly way of putting some warnings from spies or travelers who reported the preparations in progress. Then, early in April, the great tempest of foreign invasion burst in from the west, just when all the harvests were gathered in, the fields stripped bare, the whole land naked and open, and canals dried up; in short, just when the greatest facili-

ties existed for invasion, and the full granaries tempted the desert peoples The warning had not been in vain. Merenptah was prepared, and attacked the assembled host with his cavalry; the gods fought with them, and for one long afternoon, from midday till dark. they slew, and slew, and slew, for six hours slaughtering the multitude. The defeat was utter. The king, Maury, son of Dad, escaped, thanks to the darkness; but he did not even secure a horse or provisions, and fled from the fight on gold and bronze vessels, the ornaments of his wife, his thrones, his bows, his weapons, and all that he had were a prey to the Egyptians.
