More "Unwritten Law."

About a year ago W. S. Kimes shot and seriously injured Benjamin Hall, turnkey of the jail at Parkersburg, W. Va., because Hall had alienated the affections of Mrs. Kimes. Kimes confessed and said he regretted that he had not killed his victim. Judge Jackson gave him a sentence of twenty-four hours in jail and a fine of \$100 and costs, and then concurred in a petition signed by many citizens pleading for the remission of the fine. Governor Atkinson on August 10th gave notice that he would remit the fine. The governor said: "This is a remarkable case. The only regret in the matter is that Kimes did not kill Hall. He ought to have done so. He tried to do so, but his pistol missed fire. He shot the scoundrel four times, but unfortunately did not kill him. Every man who has a soul in his body will agree with me that he ought to have killed him. "Hall is still at large. He ought to be apprehended and imprisoned for life. If the prosecuting attorney of Wood county does his duty he will see that the scoundrel is prosecuted and imprisoned for breaking up Kimes' home. I remit this fine and costs with more pleasure than any word the English language furnishes me to express. Kimes did what every man would have done under the circumstances, except that he should have practiced with a revolver or double-barreled shotgun, so that when he made the attempt he would have brought Hall down. "A villain like Hall is unfit to live in a civilized community, I repeat again. I remit this fine and costs with the greatest pleasure." Since Kimes' release he has been employed at Wheeling, going to Parkersburg occasionally to see his children. Hall is living with Mrs. Kimes, and every visit the husband makes there the wife endeavors to have the police arrest him for failure to pay his fine.

The Wheat Trade.

The past week has been a lively one in wheat circles, and compared with the week preceding has fairly eclipsed it. Under ordinary circumstances, the volume of business which has been done throughout the Pacific Northwest would be considered very large, as more wheat has passed out of primary hands than for the same time for a number of years past. In many sections of the interior farmers have sold quite freely at current prices, and by so doing have placed themselves in good circumstances. In other localities, the disposition to hold back supplies is noted, in anticipation of obtaining figures later on, owing to strong reports recently received from Europe. On the whole, enough wheat has passed from first hands into those of exporters to meet the wants of early tonnage contracts, and present appearances warrant the belief that vessels from this port will receive prompt dispatch.

In and around Walla Walla there has been keen competition on the part of buyers, and in many instances farmers have realized prices which were above the spot value here. Liberal purchases on the basis of \$1.45 per cental here have been made, and in a few cases even higher prices were paid for club wheat. In the Palouse country, high prices were realized. In the Valley, where competition was particularly active, wheat sold on the basis of \$1.45 per cental. To warrant these prices, foreign markets must go a little higher than present quotations. The movement during September is expected to be very large, and the outlook for heavy receipts from the interior and very liberal exports from the Columbia river and Puget sound during the remainder of the season is very propitious. We quote Walla Walla wheat 84c, bluestem 87c, Valley 87c per bushel.—Commercial Review.

Enormous Power in Sunshine.

A French scientist calculates that in an average day the sun will pour on two and a half acres of ground heat which might be turned into energy equal to the muscle power of 4163 horses. M. Mouchot believed that this heat might be utilized and made to do the work now done by steam and electricity. He found that by condensing the heat playing on less than a yard of ground he could boil two plates of water. By arresting sunshine and condensing it, small steam engines have been operated successfully in Paris, but nothing has yet been done to realize practically the great hopes of revolutionizing civilization by using directly the enormous power which comes to us daily from the sun. This power is calculated at that of two hundred and seventeen trillion, three hundred and sixteen billion horses, and a thousandth part of 1 per cent of it would run all the factories the world will ever need.

He Was Alive.

Some time ago an officer of artillery called upon Sir John A. Simla for a certificate of his being alive, as without this he had found it impossible to draw some pay and allowances due to him. As he seemed to all intents and purposes lively enough he got what he wanted, but on examining the document he remarked: "Oh, I see you have dated it August. This is no use. I have already sent them in one of this kind, but they say they must have a certificate stating that I was alive in July." This, of course, was a different matter, and demanded circumspection. However, after consideration, Sir John gave him one, in which he certified that to the best of his belief the officer was alive in the previous month.

Whole Frontier Assumed.

SIMLA, Aug. 18.—It is announced here this afternoon that the whole frontier seems to be aflame. The Afridas are marching through Khyber pass upon Jamrud, while the Orakzais are advancing by Kurram and are threatening Samana. The 36th regiment of Sikhs, which is divided into detachments along the frontier, has been ordered to concentrate at Pork Lockhart. All ladies, except Mrs. Dosvoeux, wife of Mayor Dosvoeux, of the 36 Sikhs, have left Samana and reached Hangin-sa ferry. The Guerah and Samil-Mazasahi have combined and threaten Parachoner, in the Kurram valley, which is garrisoned by detachments of Goorkhas and Sikhs.

Claims Valuable Land.

SAN FRANCISCO, Aug. 18.—Joseph Shanneberger, a middle-aged man who came to this city recently from the East, called at the hall of records yesterday and made inquiries about the record of a deed to the block of land on Montgomery street between Bush and Pine streets, upon which the Russ house stands, and which he claims is the property of a relative of his, to whom it was deeded many years ago and recorded in the name of that relative. Shanneberger has the deed to substantiate his claim, and said that he would cause the records to be searched in order to ascertain whether he can read his title clear to the valuable block of land.

A March at Plum Creek.

PITTSBURG, Aug. 19.—The campers at Plum Creek marched at 5 o'clock this morning, but were stopped by deputy sheriffs and turned back to their camps. No strikers were allowed to be on the

road, even though they were in pairs and 100 yards apart.

It is reported that about 200 farmers from Plum Creek and Wilkins township will make a sympathetic demonstration today. They will form at New Texas and march to the strikers' camps at Plum Creek and Tartie Creek. Speeches will be made by leading farmers.

When a person begins to grow thin there is something wrong. The waste is greater than the supply and it is only a question of time when the end must come.

In nine cases out of ten the trouble is with the digestive organs. If you can restore them to a healthy condition you will stop the waste, put on new flesh and cause them to feel better in every way. The food they eat will be digested and appropriated to the needs of the system, and a normal appetite will appear.

Consumption frequently follows a wasting of bodily tissue because nearly all consumptives have indigestion. The Shaker Digestive Cordial will restore the stomach to a healthy condition in a vast majority of cases. Get one of their books from your druggist and learn about this new and valuable remedy.

When the children need Castor Oil, give them LAXOL; it is palatable.

Many Tires Were Punctured.

MILWAUKEE, Aug. 17.—About 200 bicycle riders who took a spin into the country for pleasure, had to walk back to the city, a distance of seven or eight miles, owing to punctures. Some one buried a plank filled with spikes in the bicycle path on the Cedarburg road, between Maquon and Thiensville, and succeeded in disabling 200 wheels before the cause of the disaster was discovered. This road is a favorite with the wheelmen of this city. Another plank was discovered buried on Ninth street near the city limits.

Something to Depend On.

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with LaGrippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into Hasty Consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from the first dose, and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to do this good work. Try it. Free trial bottles at Blakeley & Houghton's Drug Store. (5)
