The Way La Grande Rusties.

The Dalles has lots to learn from neighboring towns in Oregon. Here is the way La Grande goes after the best-sugar factory proposition. We wish the piece that follows could have been written about The Dalles instead of La Grande:

A called meeting of the Commercial Club was held Tuesday evening. The principal business of the evening was that in regard to the sugar factory proposition. Communications were received from the parties in Portland relating to the preliminary matters and assurance was given that the new company is ready to do business as soon as the subsidy is in hand and other details are arranged.

Chairman Oliver appointed committees to push the work of canvassing in La Grande and vicinity as follows:

First ward—M. Baker, chairman; Geo. H. Curry and David Bay.

Second ward—J. W. Scriber, chairman; Wm. E. Sargent and Charles Nesley.

Third ward—Henry Rinehart, chairman; John Schilling and John E. Hough.

FATAL GASOLINE EXPLOSION.

One Man Killed and Another Badly Burned at Astoria.

A terrible accident, resulting in the death of George James Layzell and the serious injury of Claude B. Hanthorn, the latter a brother of the well-known packer, J. O. Hanthorn, occurred at Astoria Monday morning.

The two men were sleeping in the cabin of the gasoline launch Hanthorn, which was lying at the iron works dock. About 4:30 a. m. Hanthorn was awakened by the groans of his roommate, and upon arising found the latter unconscious. At the same time he detected a strong odor of gasoline. He then struck a couple of matches, to get a better view of Layzell, and at the flash of the second match an explosion occurred.

Hanthorn was enveloped in flames and his clothes caught fire. Rushing to the side of the launch, he jumped overboard and extinguished the flames. He then returned to the launch, and, frantic with the thought of the awful fate of his friend must surely meet, ran into the cabin, which was then a mass of flames.

Although he was being frightfully burned, he made his way to Layzell's berth, but the occupant was no longer there. Then, half blinded and almost dead from suffocation, Hanthorn staggered to the deck. He jumped into the river and swam, with much difficulty, to the shore, where he summoned aid, and, with all possible speed No. 1 engine went to the scene and soon extinguished the flames.

Layzell's body, burned to a crisp, was found in one corner of the cabin, in a crouching position. The unfortunate young man probably recovered partial consciousness when the flames reached him. Hanthorn was taken to the residence of his brother, in East Astoria, where his injuries were attended to by a physician. He is severely burned, but will recover. He is almost demented over the loss of his companion.

The gasoline escaped through a stopcock in a tank, into which oil ran when the launch listed.

County Court Proceedings.

The session of the county court, for the September term was a very brief one. Besides considering the usual grist of bills against the county, several road matters were taken up and this was about all that occupied the court's attention.

The petition of Wm. McCorkle and others for a county road was read the second time and the petition granted, and the road declared a public highway.

The clerk was instructed to issue alias warrants and attach them to the delinquent tax rolls of 1895 and 1896.

In the matter of the road petition of G. J. Gesling and others, Louis F. Henderson put in a claim for \$100 damages. Chas. Chandler, H. J. Hubbard and W. H. Perrin were appointed appraisers.

Regarding road petition of G. E. Johnston and others, J. E. Golt was appointed surveyor and W. D. Richards, Wm. Davidson and W. Taylor viewers.

Dogs, and to Spare.

J. P. Hubrick and wife of Pasco passed through Goldendale the latter part of last week, leaving for The Dalles Saturday morning. Mrs. Hubrick will remain in The Dalles while her husband goes to Alaska. Mr. Hubrick has several dogs with him and expects to get more in The Dalles, making about sixteen altogether, which he will use in sleighing in that country. He will leave Seattle for the Klondike country about the middle of the month, as by that time the ground up there will be frozen.

He has given his wife permission to get another husband if he isn't back within five years.—Sentinel.

Mr. Hubrick need not worry about not finding enough dogs in The Dalles. We have all kinds and descriptions, and although none of them may be suited to Klondike, yet we wish he would take a dozen or two and try them.

Chicago Market Report.

The following is reported by Downing, Hopkins & Co., Chicago Board of Trade brokers, 712 Chamber of Commerce building, Portland:

Wheat advanced 2 1/2 cents yesterday and closed firm, with prospects of a further advance. English, German French and Russian markets were all higher. A cargo of No. 1 standard California, 500 pounds, on vessel, prompt shipment, sold in Paris at 39s 9d.

The corn market displayed great activity and increased interest was shown by the outsider. The crop is in a precarious condition, and about three weeks behind in growth. The late hot spell in Iowa has greatly retarded it, and a sharp frost—which is liable to come any day—would make a total loss.

Not Religious and Not Fussy.

"When I came out on my regular trip the other morning," relates the Lee stage-driver, "the only passenger I had was an old lady of very demure manners. I was most dead for a smoke, but I had sort of got it into my head that the old lady was a religious and a fussy party. When we got along a piece, however, I got to fingering my tobacoker and, by snuff, I just couldn't resist the temptation. So I turned 'round to the old lady and asked her if she had any objections to my taking a whiff or two. She straightened up like a monkey on a stick.

"By —, young man," she shouted,

'you've hit me just where I live. I've been banking for a smoke all the morning. Gimme a match.'

"She pulled out a black T. D., and I tell you, mister, me'n that old lady made the stage look like a steam engine going up a grade."

JOHNNY MORAN'S INJURIES.

The East Oregonian Gives Full Details of the Accident.

A distressing accident occurred Monday morning in the O. R. & N. yard at Pendleton, resulting in serious and painful injury to John B. Moran, brakeman on a freight run between La Grande and Umatilla, says the East Oregonian.

Like many an accident it happened in coupling, and this time it caught a careful and experienced trainman through nobody's fault—not even his own.

Mr. Moran essayed to make the coupling and found the pin stuck fast. He went out and gave the signal to "slack ahead" a trifle. It was answered and he loosened the pin. When the train backed up the jar fastened the pin again and the difficult task of coupling under these circumstances was to much for the dexterity of even a man of Mr. Moran's experience. His hand caught between the bumpers, and he was carried two car lengths by the natural motion of the train before it slacked up and his hand was released. He managed to save himself from fainting and falling, else one more victim would have been added to the list of railroad sacrifices.

As it is, John Moran will not brake again for many a day. There was a compound fracture of the thumb and little finger of his right hand, the bones protruding from the flesh. The first two fingers were fractured and mashed in the joints. Nearly all the flesh was torn from the third finger, and this digit the doctors were compelled to amputate. They hope to save the rest of the hand, although favorable conditions must prevail.

Mr. Moran came up town with his wounded hand bleeding profusely, bearing the pain with the grit and nerve necessary in the make-up of a true railroad-er. In Dr. Smith's office he was operated upon by Dr. Vincent, the company physician, and Dr. Smith. He was soon under the influence of anaesthetics, and the finger was amputated and the hand dressed.

Indigestion is often taken for consumption. The word consumption means wasting away, and dyspeptics often waste away as badly as consumptives.

The reason people waste away is because either they don't get enough to eat, or they don't digest what they do eat.

If the latter is your trouble, take Shaker Digestive Cordial. This will help you to digest your food and stop your loss of flesh.

Shaker Digestive Cordial is made from herbs, barks and the juices of fruit, by the well-known Shakers at Mount Lebanon. It possesses great tonic and digestive powers.

Shaker Digestive Cordial has cured many supposed consumptives (who were really dyspeptics), by simply helping their stomachs to digest their food, thus giving them nourishment and new strength.

Sold by druggists. Trial bottles ten cents.

SMILES.

Young Fish—Mamma, here's a nice fat worm hanging from the end of a string. Shall I— Old Fish—Child, keep your mouth shut.—Chicago Tribune.

He—If people said just what they thought, it would do a lot of harm, wouldn't it? She—Well, it would reduce conversation about nine-tenths.—Puck.

"Well," observed the oyster of the season, as he made his appearance, as usual, a little in advance of the letter, "this is about the warmest reception I ever had. Thanks! Whew!"

As he folded the poetess in his arms after she had promised to be his he heard her murmur softly to herself: "It is a satisfaction to feel that I can go to press myself if my poems can't."

She—What did you mean by circulating the report that I live a hand-to-mouth existence? How dare you? He—Well, that was the way it seemed to me. Whenever I call on you, you put in most of the time yawning.—Indianapolis Journal.

PENDLETON VS. THE DALLES.

It Looks Like an Initial Attempt to Secure the District Fair.

A Pendleton dispatch to the Telegram says:

At a citizens' meeting held in the rooms of the Commercial Association in Pendleton last night, a committee was appointed to solicit subscriptions to a stock company which it is proposed to organize for the purpose of building an agricultural fair ground in this city.

This means more than what the few words indicate. Pendleton is after the District fair meeting, which by legislative enactment, is now held at The Dalles. The legislature has appropriated \$1500, which is spent every year in premiums for exhibits at the fair, and without this sum no meeting could be held.

The people of Pendleton have come to believe, through successes in the past, that they can wrest anything they wish from The Dalles and not content with capturing the woolen mill and scouring mill, both of which were offered us, are now taking steps looking to Pendleton being designated as the place for holding the District fair. Already one director lives in Umatilla county, and he can be expected to lend the influence of his position towards the attainment of that object.

We say no word of blame against our neighboring city. She is doing only what any ambitious town should do, and we admire her enterprise and spunk, but we wish to call attention to the fact, which should be patent to all, that The Dalles must bestir herself and counteract the efforts made to secure the holding of the District fair at another place. The benefits derived from this annual meeting are many and obvious. The coming in of exhibitors and visitors from the country and the consequent excitement is a stimulus to trade and the indirect results are as great as those which take place at the moment. As a social feature the fair has been a pleasant one, and all who attend the exhibits at the pavilion depart better satisfied with the city and county in which they live.

This subject is one which should not need agitation, though seemingly it does. There is yet time in which to make arrangements for holding a successful fair. All that is needed is the hearty co-operation of the citizens of The Dalles. Surely when it is properly considered, such co-operation will not be wanting.

Degree of Honor Social.

The Degree of Honor lodge gave another of its always pleasant socials last evening. The hall was well filled with an audience of ladies and gentlemen, who took keen delight in listening to a well rendered program. The lodge went in regular session at 8, and afterward a short intermission followed for the reception of guests. The following program was rendered:

Session of lodge, from 8 o'clock to 8:45.  
Reception of guests, from 8:45 to 9.  
Piano Duet—"Lustspiel Overture" Keler, Bela  
Address..... Brother Donthit  
"The Courtship of Miles Standish"..... Longfellow  
"The Barefoot Boy"..... Whittier  
Vocal Solo—"He Was a Prince"..... Queen Beendith  
Dr. Lannerberg  
"Abou Ben Adam"..... Leigh Hunt  
"The American Slave"..... Puck  
"As It Will Soon Be Written"..... Kucken  
Vocal Duet—"The Huntsman"..... Kucken  
Madame Jayne and Varney  
"The Song of the Shirt"..... Hood  
"Having More Than One String to Her Bow"  
Presentation of cup to the Little Child of Mr. and Mrs. S. L. Young..... Brother Cradlebaugh  
Vocal Quartet with Tableau—"Lead Kindly Light"  
Dancing and refreshments.

Each selection was rendered in a most acceptable manner, while the addresses of Mr. Donthit and Mr. Cradlebaugh were described as happy hits. After the program, dancing was indulged in till a late hour, when the guests departed well pleased with the evening's entertainment.

Something to Know.

It may be worth something to know that the very best medicine for restoring the tired out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centres in the stomach, gently stimulates the Liver and Kidneys, and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c or \$1.00 per bottle at Blakeley & Houghton's Drug Store. (2)

Health Board in Control.

NEW ORLEANS, La., Sept. 8.—The Louisiana state board of health is today in full control of the situation. Perfect arrangements have been made for prompt reports of yellow fever or suspicious cases.

Up to 10 o'clock today there has not been a single report to the board, and the authorities frankly declare no more symptoms of a virulent type will be reported. No advices have been received of the appearance of further cases at Biloxi, in the immediate vicinity of Point Cadet.

Biloxi and Ocean Springs are in need of supplies, and are appealing to the railroad company to promptly arrange for sending them needed provisions.

"My boy came home from school one day with his hand badly lacerated and bleeding, and suffering great pain," says Mr. E. J. Schall, with Meyer Bros. Drug Co., St. Louis, Mo. "I dressed the wound, and applied Chamberlain's Pain Balm freely. All pain ceased, and in a remarkably short time it healed without leaving a scar. For wounds, sprains, swellings and rheumatism I know of no other medicine or prescription equal to it. I consider it a household necessity." The 25 and 50 cent sizes for sale by Blakeley & Houghton.

Cooper's Chicago Record.

SAN FRANCISCO, Sept. 7.—Chief of Police Lees has received further information regarding the Chicago record of "Sir Harry" Westwood Cooper. He secured from Mrs. Murphy, his landlady there, \$1400, taking her check in exchange for worthless drafts on the Bank of New South Wales. Her attorneys, Danr & Byron, learning of this, warned her that Cooper was a swindler, they having had some experience with him. Instead of heeding their warning she turned their letters of warning over to Cooper.

"Peace With Wheat."

Here is a good "say" from one of our exchanges:

There is food for thought in the fact that the European countries that are longest on war stock are shortest on wheat stock. It is the peculiar happiness of the United States to have the smallest army and the largest wheat crop of all the "great powers." "Peace with wheat" is as good a motto, as Beaconsfield's "Peace with honor."

Mrs. Langtry Caught a Prince.

LONDON, Sept. 7.—Among Mrs. Langtry's friends here it is confidently stated that she was privately married abroad recently to a foreign nobleman. The person referred to, doubtless, is Prince Esterhazy, head of the illustrious Hungarian house. It has been gossip of the European capitals for months that he was a devoted and ardent wooer of the Jersey Lily.
