

A REMEDY FOR FEVER

A Denver Physician Said to Have Discovered It.

CURES BY REMOVING THE CAUSE

Animals Are Immersed in a Solution Which Causes Ticks to Leave Their Bodies.

DENVER, Sept. 17.—After many months of effort and repeated experiments, a cure for cattle fever has been found. Dr. V. A. Norgaard, of this city, is the discoverer. Solution after solution was tried by him in the effort to find one that would be effectual and cheap, as well as immediate in its results.

The plan is to exterminate the insect known as the tick, which abounds on fever-stricken cattle, and through the means of which the disease is communicated. To do this the cattle are forced to swim through a solution in a vat. What the solution is, is not known at present, but crude petroleum is used.

When the successful experiment was tried 27 head of very "ticky" cattle were forced to swim through the solution, and it was noticed that while standing on the dry boards there was almost a perfect rain of ticks falling off the cattle. They were put into a special pen, and the next day, just 17 hours after the experiment, a rigid examination was made and the examiners failed to find a single tick in the whole herd. There was no damage done the eyes of the cattle dipped, and not a single bad effect resulted.

If the remedy proves to be all that it claimed it can do, the cattle market will experience somewhat of a revolution, and about 500,000 head of cattle will be shipped north each year during the now prohibited season, which extends from February 15 to November 15. The "fever line," from beyond the limits of which no cattle can be shipped to the North during the prohibited period, as it now stands, stretches from ocean to ocean and Arizona, New Mexico, Texas, Arkansas, Mississippi, Alabama, Virginia, part of West Virginia and Louisiana from the district affected.

State Veterinarian Goswell is much pleased with the results of Dr. Norgaard's experiments, and says without doubt the long-sought remedy has been found.

A convention of men from all states and territories that handle cattle has been called to meet at Fort Worth, September 27, and at this meeting it is expected the new scheme of dipping cattle will be shown, and should it prove a success, many of the states will be ready to so modify their laws that the cattle of the South can enter Northern Markets.

MAY BE A BRUISER'S HAVEN.

Police Disposed to Countenance "Friendly Contests."

St. Louis, Sept. 17.—While the benefit given last night at Armory hall to Dan Creedon, the pugilist, who returned recently from Europe, was not a success financially, the friends of pugilism in this city were much pleased with the result, for the police made no interference, as had formerly been the case.

The programme consisted of boxing and wrestling bouts, feats of heavy lifting, etc. In a boxing bout between Fitzsimmons and Connors, both of Springfield, Ill., the latter had his right wrist broken. Three rounds were boxed by Creedon and Joe Choyanski.

Heretofore the police have interfered with all boxing matches held in St. Louis, and the local sporting fraternity were afraid that they might do so last night. That the police did not has given them much encouragement, and will make an opening for more such events in the future.

A FLOOD OF CRITICISMS.

London Newspapers Incensed at the Bank of England.

LONDON, Sept. 17.—The Westminster Gazette this afternoon referring to the letter of Governor Hugh C. Smith, of the Bank of England, to Sir Michael Hicks-Beach on the subject of the bank's reserve, says:

"Although the governor's statement is perhaps meaningless so far as practice is concerned, it is to be deeply deplored that the bank has budged from its principles. It is not dignified for the 'old lady of Threadneedle street' to flirt with the bimetallic faddists.

"We want gold against notes and there is no reason why the old statute, when silver bore an entirely different

character, should be refurbished at the bidding of those who want to dispose of silver. The bank's reserve is not so large that it can be tinkered with. Moreover, by yielding in these matters of principle we open the way to the thin edge of the wedge. If the threat is carried out, what would happen is exemplified by the statement of the trustee who declares he would feel compelled to sell his bank stock and close a risk."

St. James' Gazette says on the same subject:

"The scheme seems to be knocked in the head for the present, but the reception of even the feeble announcement in the city will have the effect, if anything, of being favorable to the bimetalists. The United States has done nothing to make such risky politeness to the silver men on our part popular in this country."

The Globe says: "The whole scheme is innovating and mischievous. It seems to us wholly undesirable and even perilous to subject our monetary system to foreign influence through the government."

BAD COLLISION IN WISCONSIN.

Two Trains Came Together Near Chippewa Falls.

MILWAUKEE, Sept. 17.—A special to the Journal from Chippewa Falls, Wis., says:

A disastrous wreck occurred on the Wisconsin Central railroad six miles west of this city this morning, resulting in the death of five people and the serious injury of four others.

Two free trains, through a mistake in orders, while going forty miles an hour, met on a curve and came together with terrific force.

The dead are: Engineer Warren, Engineer Smith, Fireman Smiley, Brakeman Miller, and an unknown man riding between the cars. It is thought others are buried in the wreck.

The two brakemen were taken from the wreck about 7 a. m. and are seriously injured. Two passengers in the caboose are slightly injured. Engineer Warren and Smith and Fireman Smiley and Brakeman Miller, all killed, were residents of this city. Their bodies were terribly mangled.

It is not known where the blame lies, but it is rumored both trains were given the right of way.

DAMAGE NOT GREAT.

Reports as to Condition of Eastern Washington Wheat.

SPOKANE, Wash., Sept. 16.—The reports that from one-third to one-half of the wheat crops has been ruined by rain north of the Snake river are incorrect. A Tacoma grain buyer, who has just returned from a tour of the Palouse towns and country, from Riparia, on the south, to Spokane on the north, states, that if the damage by rains exceeds 5 per cent he is no judge of grain. Where the rainfall was greatest, the grain is bleached, but has thoroughly dried and is being threshed and will grade high.

The only important damage reported is to 80 tons of wheat in sacks stacked on the Snake river awaiting transportation. Much of it was ruined.

The Potlatch country reports that not 5 per cent damage has been done.

About Moscow, Idaho, and on the Nez Perces reservation 3 per cent will fully cover all losses.

In the Big Bend country, the great wheat belt of Central Washington, the prospects are glowing. Not 2 per cent of the crop, which is the largest ever raised, is damaged, or will be lost.

C. P. Chamberlin, general manager of the Central Washington railroad, which handles nearly all the Big Bend wheat says absolutely no loss will occur to standing or stacked grain from rain.

IMPROVEMENT IN FERRIES.

Inspectors Edwards and McDermott on the Columbia River.

PORTLAND, Or., Sept. 17.—Inspectors Edwards and McDermott left for up the Columbia last evening to inspect, under the new law, the ferries fitted with gasoline engines now plying on the river. They will look after the naphtha launch Rufus, ferrying from the town of Rufus; the gasoline barge Yukon, crossing from Arlington, and the newly built ferry steamer Cuban Queen, at Columbus, Wash.

The ferries of the Columbia river have been greatly improved during the last year, increased business, due to better times, having encouraged the owners to put on new and modern boats.

The Luettgert Trial.

CHICAGO, Sept. 17.—The Luettgert trial opened this morning with the cross-examination of Professor Dorsey. The questions of the attorney referred entirely to the various kinds of bones of animals and human beings. The answers of witness were technical, but of a character supporting his original identification, and the testimony with reference to the bones in evidence.

THE FEVER EPIDEMIC

New Cases Reported From Many Southern Cities.

A TROCHA NORTH OF MOBILE

Suspicious Cases Near Cairo—Jackson Citizens Determined That Quarantine Shall Be Respected.

MOBILE, Ala., Sept. 18.—There has been an accumulation of cases today. The president of the board of health states that, had the physicians recognized and reported promptly the suspicious cases, many of these cases would have been anounced several days ago. The number announced today is 11, making 18 in all so far announced, of which number three have died, two of which were previously reported, and one was today discharged. Three suspicious cases are under surveillance.

Frank Donaldson, one of the day's new cases, died tonight. C. L. Swazyie, the Associated Press operator at the Register office, saw tick tonight.

There has been a quarantine line drawn from Chesabogue creek, north of Mobile, some five miles northwesterly to the Mississippi, to form an absolute embargo against Mobilians penetrating into the interior of Alabama. This trocha is guarded continuously.

Some 200 people from this city started out into the country this morning, intending to take refuge at farms from 10 to 15 miles out. They encountered the guards at the trocha and were stopped there. At 6 o'clock most of the immigrants were still there in the open air, fearing to return to the city and not able to go further.

The people here are still in a panic, and leaving whenever they can.

IN NEW ORLEANS.

Two Deaths and Four New Cases of Yellow Fever.

NEW ORLEANS, Sept. 18.—A trifling improvement in the fever situation marked the close of the day's work on the board of health. There were two deaths today, as against one yesterday, but there were fewer new cases. At 6 o'clock this evening there were still two cases under investigation by the experts. Of the cases investigated today, four were declared by the experts to be yellow fever, and, as usual, they were widely scattered. This is the record:

Deaths—E. Harmon and Santa Grafato.

New cases—Marie Dubois, Rafael Fontien, C. G. Gormon and Melchier.

As a general rule, the patients who are suffering with yellow fever are reported tonight to be improving, with the exception of Dr. Lovell, whose condition is not considered satisfactory.

There have been a total of 35 cases here, and the death rate has not reached 10 per cent, thus showing the mildness of the type of the fever now prevailing.

Marion Dowden, a member of the Onachita guards, who were guarding the city, was accidentally shot this morning at Monroe by Henry McCormick, a fellow-member, and it is not thought that he can recover.

FROM THE FEVER DISTRICT.

Effect of the Epidemic on the Cotton Harvest.

DENVER, Sept. 18.—C. E. Williams, of Meridian, Miss., arrived in the city today. Mr. Williams is the first visitor to arrive from the yellow fever district. He carries with him a health certificate and an affidavit, the latter pledging that he will not re-enter the state of Mississippi until after the quarantine had been removed.

"Even in case of death in my family," he said, "I could not re-enter without being arrested. The greatest consternation prevails all over the state, and the strictest regulations are enforced. Trains bearing passengers through the state are moving with the doors of the cars locked, just as Chinamen are sent under bond through this country to Cuba. Everybody who is able to move is fleeing to the country. Business in many of the towns is almost at a standstill.

"The cotton crop, which is only one-third harvested, is the heaviest, is the history of the state, and if the epidemic spreads the loss will be incalculable. Everything depends upon the success of the authorities in holding the fever inside the line between New Orleans and Mobile.

FAKE KLONDIKE BUREAU.

Postal Authorities Investigating a San Francisco Concern.

SAN FRANCISCO, Sept. 18.—The local postal authorities are investigating the affairs of a concern known as the "Klon-

dike Shipping & Information Bureau," of this city, which is alleged to be using the mails for illegal purposes. The promoter of the concern is Dennis O'Donovan Rossa, who has caused circulars to be distributed all over the country, through the mails, containing the claim that 150 women were wanted at Dawson City; that profitable employment would be guaranteed them, and that they could secure passage through the bureau for \$200, which could be paid in weekly installments. Hundreds of letters have been received at the office of the bureau within the past few weeks, and many women have called in person. The alleged fake was brought to light through J. C. Stuart, who was employed by Rossa as press agent, but whom he failed to pay for his services. Stuart says he was led to believe that Rossa was backed by some Stockton merchants, but as soon as he found that they were myths, he severed his connection with the bureau.

C. B. MOORES GETS IT.

Recommended for Registrar of Oregon City Land Office.

SALEM, Or., Sept. 18.—C. B. Moores, of this city, received a telegram this afternoon from Senator McBride, of St. Helens, saying:

"You have been recommended by the Oregon delegation in congress for appointment as registrar of the land office at Oregon City."

It was for this office the delegation on September 6th recommended T. T. Geer. He declined the recommendation, but was yesterday appointed by the president. Mr. Geer declined the delegation's recommendation for the reason that he was a candidate for collector of customs at Portland, and would hold out for that place.

Mr. Moores had been applicant for the Oregon City office, with little hope of getting it. He is a strong friend of Mr. Geer, having signed two petitions for his appointment as collector. Mr. Geer having declined, Mr. Moores will accept the office if he is appointed.

A SPANISH MINISTER RESIGNS

Was Excommunicated for Taking Possession of Church Funds.

MADRID, Sept. 18.—The cabinet held a meeting yesterday and refused to approve all the steps taken by the minister of finance, Senor Reverter. Consequently he will resign.

The Bishop of Majorca, Balearic islands, as announced yesterday, has excommunicated Senor Reverter for taking possession of the treasury of the church in his diocese. It may be inferred that this is the action which his colleagues refused to approve. It is announced, however, that the minister proposed to appeal to the holy see against the action of the bishop. The bishop of Majorca has refused to comply with the order of the archbishop.

King Oscar's Jubilee.

STOCKHOLM, Sept. 18.—This being the 25th anniversary of the accession of King Oscar II. to the throne, the city was brilliantly decorated and the streets are crowded with sightseers. The royal family and princely personages, foreign envoys and others were present at the Te Deum, which was chanted at 11 o'clock in the chapel attached to the castle.

Spanish Uprising Feared.

MADRID, Sept. 18.—A company of infantry has been sent to Morella, province of Castellon de La Plana, as it is feared an uprising is to take place there.

NOT AN ANARCHIST

He Does Not Favor the Use of Dagger and Torch.

HIS FOLLOWERS SO INFORMED

Anarchists Notified That They Had Better Withdraw From the Social Democracy.

CHICAGO, Sept. 20.—E. V. Debs attended a meeting of branch No. 1, social democracy, at Journal hall last evening, and lectures its members soundly on account of the incendiary speeches of the preceding Sunday.

Mr. Debs told them in plain language that he did not favor the use of the dagger or the torch. He said he did not advocate arson and assassination. He repudiated the talk of revolution. He declared that violence and bloodshed had no part in the plans of social democracy. He said the hope of social democracy lay in peaceful methods, and he pointed to the ballot as the remedy for the evils complained of. He told the anarchistic element in plain terms that it had better withdraw from the organization.

The hall was crowded and Debs was frequently interrupted by questions. One questioner who asked if social democracy was not virtually anarchy, seemed to be hostile, but as a rule, the meeting seemed to be in sympathy with Mr. Debs, applauding his repudiation of violence and laughing scornfully at the hostile questioner. Several police officers were present in citizens' clothes, but there was no excuse for their interference.

John J. Cook caused a mild sensation by resigning his membership, and declaring that Debs had partially abandoned the colonization scheme and was seeking to make a political party.

Fitzgerald Murphy, chairman of the executive board of branch No. 1, frankly acknowledged that he had committed an error in making an inflammatory speech and he announced he would endeavor to carry out Mr. Debs' programme of peace.

Sylvester Kelliber, secretary of the national organization, explained that the national executive board had repudiated the resolutions passed by branch No. 2 on the preceding Sunday, and had suspended its charter.

Branch No. 2, of which T. Putnam Quinn is president, resolved last night to stand by the fiery resolutions adopted the previous Sunday, to resist any action looking to the suspension of the branch by the executive board of the social democracy, and to prefer charges of malfeasance against Debs and the four members of the executive board.

NO TRACE OF THE VICTIM.

Little Doubt Remains That Andy Still's Wife Was Murdered.

WARRENSBURG, Sept. 20.—Six days have elapsed since the young wife of Andy Still was abducted by the three drunken farmer boys, Hall, McKeehan and Jackson, yet no trace of her can be found. Feeling is still running high in Jefferson township, where the outrage was committed, and the conviction has become settled that murder has been added to abduction and assault.

Advices says today that the missing

woman has not returned to Warsaw, which disproves the story of young Hull that she was placed on the train at Leeton and sent to that place.

All concerned are now under arrest, but they deny any knowledge of the whereabouts of their victim.

THE YELLOW FEVER SITUATION.

Illinois Establishes a Quarantine Against the South.

SPRINGFIELD, Ill., Sept. 20.—Mr. Egan, secretary of the Illinois state board of health, wired from Cairo, establishing a general quarantine against Louisiana, Alabama and Mississippi, both passengers and trainmen being prohibited from leaving Cairo en route to the North.

Twelve New Cases at Edwards.

EDWARDS, Miss., Sept. 20.—Twelve new cases of yellow fever since the last report has developed. The total number registered is 54.

One Physician's Report.

NEW ORLEANS, La., Sept. 20.—Dr. Joseph Hill, ex-president of the board of health, has reported nine cases of yellow fever in his practice.

All Patients Doing Well.

NEW ORLEANS, La., Sept. 20.—Up to 9 A. M. no deaths have been reported. All the patients except one or two are doing well.

SITUATION IN THE YUKON.

Actual Starvation Not Imminent, Says Bishop Rowe.

SAN FRANCISCO, Sept. 20.—Right Rev. Peter Rowe, of the Episcopal church, after an absence of two years in Alaska and along the Yukon, has returned to civilization, and is staying for a few days in this city. He reached the Klondike about the time the mining excitement was at its height, and he is of the opinion that the stories told of the mineral resources of that region are not at all exaggerated. When asked as to his opinion relative to the outlook for those who have gone into that country this year, the bishop said:

"While there is sure to be some privation and want, still I do not believe there will be many cases of actual starvation."

While on the Yukon, the bishop paid considerable attention to the natural features of the country, and he expresses the belief that while the Yukon valley will never be an agricultural country, still there are many vegetables that will grow there.

Sick stomach means sick man (or woman).

Why not be well? Sick stomach comes from poor food, poor nourishment; means poor health, poor comfort. Shaker Digestive Cordial means health and a well stomach.

If we could examine our stomach we would understand why it is that so little will put it out of order.

But, unless we are doctors, we never see our stomach. We don't feel it. We would feel it less if we took Shaker Digestive Cordial.

Shaker Digestive Cordial makes your stomach digest all the nourishing food you eat, relieves all the symptoms of indigestion, acts as a tonic and soon makes you feel well and strong again.

The more you take, the less you feel of your stomach.

All druggists. Trial bottle 10 cents.

Deaths at Ocean Springs.

OCEAN SPRINGS, Miss., Sept. 18.—Since last reports, three deaths have occurred here. Walter F. Bransford and Miss Mamie Goodrich, both of yellow fever, and Oscar Elder, formerly from Michigan, who has been sick about 12 days. His ailment was not pronounced yellow fever.

Fumigation at New York.

NEW YORK, Sept. 18.—An order was issued today by Health Officer Benjamin, of Jersey City, directing the trains arriving from the South, especially from the vicinity of New Orleans, be fumigated so as to guard against any possible yellow fever germs.

A Fine School.

St. Mary's academy for ladies, located in this city and under the direction of the Sisters, is one of the best educational institutions on the coast. The building is of brick, large and well ventilated. Besides the regular studies, especial effort is made to instill into the minds of the pupils a desire to form their hearts to virtue, and to fit them to be true and noble women. Gratuitous lessons are given in all kinds of plain and fancy needle work, knitting, embroidery, etc. Pupils will receive the same watchful care that would be given them by conscientious parents. It is in fact an ideal school and a pleasant home. Those who have girls to send to school should write to St. Mary's academy for terms. tf.

Closed August 31st

That Schilling's Best tea missing-word contest closed August 31st.

We shall announce the winners and the word at the first possible moment.

A \$2000.00 missing-word contest begins at once.

Schilling's Best baking powder and tea are because they are money-back.

What is the missing word?

Every ticket taken from Schilling's Best baking powder or tea is good for one guess at the missing word.

Send your ticket with your guess and name and address to

MONEY-BACK, SAN FRANCISCO.
