The Regulator carries in her pilot house a book for visitors to register their names in the book being also provided with spaces for the visitors to record their impressions. Some very pretty things have been recorded therein. Mr. Allaway, in examining it a few days ago, ran across two. which he kindly copied for us. But you must have hope and you must have faith; You must love and be strong, and so If you work, if you wait, you will find the place Where the four-leaf clovers grow.
