THE STORY CORROBORATED. Captain Neilson Says a Slide Occurred

at Sheep Camp.

PORT TOWNSEND, Wash., Sept. 24. Captain Neilson, master of the tug Pio-Skaguay, corroborates the story of the snowslide, or more appropriately, landslide, in the neighborhood of Sheep Camp. Captain Neilsen says:

"Three men came to Skaguay beach Sunday night with a story that at Sheen Camp that morning at 3:30 o'clock a peculiar sound from the southwest side of the mountain was heard, and before the residents of the camp could fully dress they found themselves being rapidly borne down the canyon on a mass of moving debris from the mountain side. The majority of the residents of Sheep Camp escaped, although the entire town was almost wholly destroyed.

"The slide struck the town in the northern part, where nearly all the packers were quartered tents and sleeping the sleep of hard, overworked men. The main part of the slide from the mountain missed Sheep Camp proper, although from the report very little of the town remains. Packers' camp was wholly carried away, and it is impossible to learn the full names of the unfortunates, as they were all known by surnames, such as Jack, Jim. Dick,

"The cause of the slide was reported to be the action of heavy rains on the hills where a sort of reservoir was formed, which body of water forced the land down into the basin below. Never before have such heavy rains been experienced by the Indians in the neighborhood of Chilkoot pass."

A SAD ACCIDENT.

A Son of Prof. W. R. Neal, of Arlington Shoots Himself at Long Creek.

ARLINGTON, Sept. 25 .- The sad inteltelephone that Prof. W. R. Neal's son, neer, which arrived this morning from aged about 19 years, accidently shot himself last Wednesday in the Long Creek country. Prof. Neal is principle of the public school here, and recently came to Arlington from Goldendale. With his family he will go by way of Heppner to the scene of the accident and arrange for the funeral.

Working to Save Their Wheat.

COLFAX, Wash., Sept. 25. - Wheat dropped today to 65 cents sacked in the warehouse. There is absolutely none selling and no shipments are being made except a few cars contracted some time ago. A great deal of wheat is coming to town, but it is being stored for higher prices. Farmers are holding for 75 cents, and it is doubtful if much wheat will be sold for less, as they can borrow all the money necessary to pay harvest expenses.

The weather continues perfect. A few days of cloudy weather this risk frightened farmers, and they are working almost night and day. The vast amount of grain. estimated by some at 2,000,000 bushels, has been saved during the past week. In many places entire crops have been harvested. A number of teams are needed to move the remainder of the

Quotations in the Palouse country ranged frgm 65 to 68 cents sacked.

Louise Back From Wrangel.

VICTORIA, B. C., Sept. 24.-The steamer Princess Louise has returned from Wrangel. The Dominion govern-W. W. Sprague, of Tacoma, returning ment's survey party started from Glenora to survey the route to Tealin lake and other surveyors have started up the river. Both parties will be able to complete their work before the bad weather starts. Fifty men are at Wrangel waiting for a chance to take them on the first part of their journey to the mines.

Down in the Wreck.

BOMBAY, Sept. 25 .- Recent advices the Besuregard school building, which from the scene of the wreck on the bridge of the Pangalore-Mysore railroad, near Maddurs, indicate that 150 persons were killed and fourteen injured. Sevannex and one end of the structure were enty persons succeeeed in making their tains now, and I met sixty more going escape. Most of those killed and injured in when I was returning. I believe the were natives. The train, which was mineral is as rich as has been reported,

First Authentic News of the as follows: New Eldorado.

Route Is Passable to a Point Five Miles From Discoveries, Where Great Obstacles Are Met.

SEATTLE, Sept. 25 .- The first authentic news concerning Washington's new Eldorado, near Mt. Baker, and how to get there, with all intermediate details. was brought to Seattle yesterday by E. W. Saportas, president of the Information & Registration Company, who, with Frank Crydo and Gus Wagner, experienced miners of Dawson City, the former having been in the Klondike five years, left for the scene of the latest excitement last Saturday morning.

According to Mr. Saportas the route is passable, and not very difficult until the investigator is within five miles of the promised land, but the last five miles present obstacles that would forever discourage anyone who was not an experienced prospector and mountain-

There is in Mount Baker and its surrounding heights enough gold, says Mr. Saportas, to keep prospectors busy for the next ten years. All the stories of the fabulous discoveries are corroborated. In samples of ore that were brought back by the informant, Mr. Bogardus, the assayer, by a cursory inspection declared that free gold existed in exceedingly good quantities.

"I met many men," Mr. Saportas said, "who came from Mount Tomohoy ('Tomboy'), and they all reiterated the stories that have been told concerning the great strike of \$10,900 to the ton, made in Bear mountain. Among them was a man named Leith, who has a great claim. Post and Lambert's claim is on the east side. In the Tomohoy, Steiner, Brooke and others have found ore equal to the discovery in Bear mountain. A man named Johnson and several others. have been there two weeks and still remain, locating more claims. East of these mountains is Silicia creek, along which, my people tell me, is placer gold. There is enough yellow metal there to occupy prospectors the next ten years.

"There are 300 people on the moun-

not to go in now, as the rain and rough weather are great obstacles to successful prospecting.' A special correspondent of the Even-

ing times sends more from Sumas today, "The gold discoveries in the moun-

tains of Whatcom county are, beyond any doubt, the richest in the annals of is. Vasquez about four years ago was the Pacific coast, or even in Alaska. So president of Honduras, but was driven "The recent finds are in the Bald

mountains, situated in the northeast portion of Whatcom county, northward and east of Mount Baker. The mineral range runs northwest and southeast, and today is located for three miles. Every hill in the immediate vicinity of the finds is covered with location stakes. At present there are 350 prospectors in the field, running from experienced men to office boys, who have forsaken their employment to try their luck in the new fields.

"The vein in the five claims-Lone Jack, Jennie, Sidney, Lulu and Whistvaries from three to five feet in thickness. It runs northwest and southeast, and under a layer of porphyry, in a serpentine manner, and auriferous shale appears in the ledge. It is free-milling quartz of sugar and rose color, carrying copper and silver. The vein can be traced half a mile. The cropping is under solid porphyry.

"The gold is known as 'wire gold,' and can be seen without trouble by the it there, no one who has seen the ledge can doubt.

the finds are located denotes it to be very rich. However, it is no place for a tenderfoot, If there is any placer ed to be a paying proposition. Tenderat present, opinions of the prospectors zation already in existence. differ. Those who have been there the longest say it is safe for from one to two cans will begin by admitting the correctmonths yet.
