Rain Retards the Work of the Divers

NO NEW DISCOVERIES REPORTED

The City of Havana Has Again Settled Down to Its Regular Latent

No new developements in the inquiry regarding the Maine disaster are reported from Havana or Key West today. Divers are still at work about the wreck of the battleship, but their operations are somewhat retarded by rainy weather. The court of inquiry is expected to leave Key West for Havana this evening, unless contrary orders are received from Washington.

The state departments are in recelpt of no fresh news from either Havana or Key West.

HAVANA, Mar. 4 .--- Warm, rainy weather prevailed here today, and everything has settled down to a regular Lenten quiet. Divers are working slowly but steadily during such hours as is possible in the turbid water. The Spanish divers have been down but little to to the wreck, and any reports sent as coming from them are very liable to be incorrect.

Cabled dispatches from Madrid published here say the minister for the colonies confirms the statement that the government never thought of dismissing the volunteers. Cable dispatches also deny the report that the Spanish flotilla of torpedo-boats and torpedo-boat destroyers are to come this port or to Cu-

Spanish Agents Negotiating for Several

The rumor, oft repeated of late, that Spain is negotiating for the purchase of new warships have culminated in the positive announcement der course of construction for the Brazillian government have been purchased by Spanish agents, and that others are being negotiated for. The basis of these purchases, present and prospective, is cash, and speculation is rife as to where Spain could have obtained funds for such a purpose.

LONDON, Mar. 4.-Spain has purchased two cruisers which the Armstrongs have been building for Brazil, the Amazonus and her sister ship, the Unnamed, of 4,000 tons each, 23 knots and 10 guns. Spain is also negotiating for and will probably secure two cruisers of a similar type which have been building in France for Brazil. The Amazonus is ready for for launching, and her sister ship will soon be as far along.

The Spanish government is also endeavoring to secure guns and large supplies of ammunition in England and the Continent for immediate use

The government of Spain seems to have funds, for it is understood to be paving a large part of the purchase money in cash, giving good security for the balance, these being the only terms falling 444 feet, and was instantly killed. upon which the Armstrongs would deal. Some weeks ago Spain attempted to buy ships and supplies in England on credit from prominent firms having close relations with the government, but after inquiries the firms refused the credit. Spain's Desire that the Warships be Replaced by Merchant Vessels Was Also Denied.

MADRID, Mar. 5 .- Senor Gullen, Spanish minister of foreign affairs, recently intimated to United States Minister Woodford that the Spanish government desired the recall of Consul-General Lee and that the American warships which have been designated to carry supplies to the sufferers in Cuba should be replaced by merchant vessels, in order to deprive the assistance sent to the reconcentrados of any official character otherwise possessed.

Minister Woodford cabled the request to Washington, which refused to recall General Lee under the present circum- est, curative medicine that has helped stances or to conntermand the order for to make the Shakers the healthy, longthe dispatch of the war vessels, making lived people that they are. Sold Spain the Mines. LONDON, Mar. 5 .- According to the statement of a man whose cards describe him as an electrical engineer, whose name cannot be disclosed, but which has been forwarded to Washington, he sold to Spanish officers in London a number of years ago a large number of mines, cable, which he contends he can posi- tle. tively identify, if the smallest piece is produced. Some of the mines, the man continues, were fixed so they could be fired from a fort, and two of them had bulbs arranged so that they would explode when a vessel came in contact with them. > New York, Mar. 7 .- A Havana dispatch says:

Not many days will be needed for Captain Sampson and his associates to complete the investigation. The wrecking companies are making progress in clearing away through superstructure. During the absence of the board, the naval department divers have been able to extend their examination of the plates of exhibited the plans of one of these mines gress, but is made in accordance with the hull. They found the plates twisted as if from an outside explosion.

Everything previously learned regarding the forward magazine being in tact and the existence of large quanticonfirmed and strengthened.

The Spanish divers have been working slowly. They have been giving more ly, than to any other portion of the wreck. They have made nothing more than a superficial examination of the hull.

It seems to be understood that the Spanish board in its investigation is finding little evidence to give plausible support to the theory of accident. This distinction from positive proof of an external explosion it may be able to ignore. There is clearly less confidence in official circles than during the period when the declarations of accident were made by General Blanco. The Spanish inquiry proceeds in leisurely fashion. It may be a long time before a conclusion is reached. This will be no reason for a board.

WASHINGTON, Mar. 7 .- It is learned General Lee is based largely upon his sympathy with the Cubans and some of way into print. It is learned that the Spaniards also take exception to the friendly relation and companionship existing between Lee and the correspondents of newspapers which have been decidedly unfriendly to Spain.

It is believed De Lome carried information which was calculated to make the Spanish government request the recall of Lee.

New York, Mar. 7 .- Advises from San Jose, Costa Rico, via Ponta Arena, say the report has reached the capital that an encounter has taken place on the front in the neighborhood of Libera, between Nicaragua and Costa Rico troops. The result is not known.

The letter states that President Iglesias, of Costa Rico, has gone to the field in person, and that General Estrado will probably be commander of the Nicaragua army.

Costa Rico continues cut off from the outside world, because Nicaragua refuses to permit the cable company to handle its dispatches.

Will Not Go to Cuba.

KEY WEST, Mar, 7 .- Orders were received today rescinding the instructions to send the Fern to Cuba with supplies and reiterating the original order namattention to the coal bunkers, apparent- ing the cruisers Nashville and Montgomery as the vessels to carry out that mission. There was some excitement in naval circles here over the sudden change in the program, as no explanation was obtainable.
