ARE FOR INTERVENTION

Senate Practically Agrees on a Resolution.

NO DECISION REACHED AS YET

It Will Also Declare in Favor of Requiring the Immediate Evacuation of the Island by Spain.

WASHINGTON, April 12.—The senate foreign relations committee is understood to have practically decided on a resolution declaring for immediate intervention and requiring the evacuation of Cuba by Spain.

WASHINGTON, April 12.—The foreign relations committee resumed its sitting this morning. They immediately took up the task of formulating a resolution defining its idea of the course to be pursued in the present complications with Spain. They are hopeful of being able to report today, but the report may be delayed so as to afford an opportunity to hear General Lee.

The committee is finding it a very difficult task to reach an agreement on the terms of the resolution. There is by no means the same unanimity as when they first met and decided to report the Foraker resolutions. The indications at the beginning of today's session were that there would be a return to the compromise proposition which was made prior to the reception of the message.

The committee remained together until noon, and then adjourned till 3:30, to hear General Lee. A formal vote was taken, but the committee knew what its report would be when it adjourned at noon. The result was not made public. The best information obtainable is that it will be a declaration for immediate intervention, and that no action on the part of Spain short of evacuation of the island will satisfy this country.

THE HOUSE COMMITTEE

No Agreement Reached and No Report to Be Made Today.

WASHINGTON, April 12.—The Democrats of the house foreign affairs committee have agreed on a resolution of independence and armed intervention. The Republicans are divided still. The house committee will make no report today.

WASHINGTON, April 12.—The foreign affairs committee of the house took a recess at noon until 3 o'clock this afternoon. They expect to have General Lee before them at that time. The Republicans are coming together on a resolution for intervention.

In barley the advance is 12 and 10½¢ a cental, while since Thursday May has gone up from \$1.15 to \$1.44, or 18½¢ a cental, equal to \$3.65 a ton, and December from \$1.25½ to \$1.41½, or 15½¢ a cental, or \$3.15 a ton.

COMMUNICATION

IS INTERRUPTED

Cubans Cannot Notify Comrades in the Field of Events at Washington.

NO VESSELS MOVING AT PRESENT

Cable Connection With Havana Is Also Cut Off—Spaniards Are Busily Engaged in Fortifying Mediterranean Islands in Anticipation of War.

KEY WEST, April 13.—Agents of the Cuban insurgents are trying to communicate the probable action of congress to their associates in the field. They may get news across the gulf by means of a boat from other ports. No vessels are leaving Key West for Havana, and none have arrived from there. Though cable messages are sent, no answers are received. Nothing has been received since General Lee's departure from Havana.

PREPARING FOR WAR.

Spain Fortifying and Manning Her Mediterranean Islands.

MADRID, April 13.—As the result of a long, important cabinet council last night, the Spanish war office is actively engaged in fortifying and manning the Mediterranean islands of Spain and placing other portions of the kingdom in a state of defense. It is understood instructions have been cabled Captain-General Blanco to carry suspension of hostilities into practical effect "according to circumstances in each district."

The cabinet refused to recognize the right of the United States to intervene in Cuba.

NICHEROY HAS BEEN PURCHASED
Government Buys the Warship, Subject to Inspection by Committee.

NEW YORK, April 13.—A Herald dispatch from Washington says:

Admission is made at the navy department that the Brazilian cruiser Nicheroy has been purchased subject to an inspection by a naval committee to be appointed by Minister Bryan.

The Nicheroy, which is equipped with a dynamite gun, will, naval authorities say, be available for siege duty, provided she is still in good condition. She was built at Newport News five years ago and sold to Brazil six months after her completion, being converted for that government into a man-of-war. She is a steel vessel of 7080 tons displacement, and her one screw propels her at the rate of 19 knots an hour. Her engines and boilers are protected by coal bunkers, and her armament consists of one 15 inch pneumatic dynamite gun, one 4 inch quick-fire gun, two 3.9-inch quick-fire guns, eight 6-pounders, ten 1-pounders and four Howell torpedo tubes.

By the terms of the contract under which she will be sold to the government she will be delivered at any point on the coast of the United States that the department may designate.

There has been some talk in naval circles of holding the Nicheroy at Rio Janeiro until the arrival of the Oregon and the gunboat Marietta at that point so that they may shift a crew to her and convey her to Key West. These vessels, however, will not reach Rio in less than 24 days, and if war were declared in the meantime and the Nicheroy had become the property of this government, Brazil would be compelled to refuse to deliver her. If the Nicheroy should leave Rio and war be declared a few days after her departure, the officials say the Spanish government might send the torpedo-boat Temerario, which is still in Montevideo, after the American ship in order to seize her as contraband of war, and should she resist, the Spanish would make an effort to sink her.

The department has determined, however, that it is in the interest of the government to have the vessel in American waters before the sale is confirmed, and by this means it is believed we cannot possibly suffer loss.

NOT ASSENT TO RECOGNITION.

The President Determined to Veto Resolution for Recognition.

WASHINGTON, April 14.—The president is determined to veto the Cuban resolutions if they carry a provision for recognition of Cuban independence. He stated this today to a senator who called on him.

WASHINGTON, April 14.—The action of the house yesterday in adopting the Cuban resolution made the senate today the storm center of the war elements. The galleries were packed and thousands were turned away.

Hale presented a memorial, calling attention to the necessity of repealing some of the present navigation laws in the event of war. The laws, he said, prevent our merchant vessels from sailing under a foreign flag, while every Spanish merchantman would be under the French flag. Our ships would therefore be preyed upon by Spanish privateers.

Penrose presented the following telegram from Philadelphia:

"The house resolution is dishwater; the Davis resolution is satisfactory; remember the Maine."

A message was received from the house transmitting to the senate the Cuban resolution passed by the house by unanimous consent.

The resolution yesterday reported by the senate foreign relations committee was laid before the senate, and Turner (Wash.) began a speech, in which he sharply criticized the administration for its vacillating, irresolute, cowardly and pusillanimous policy in the Cuban question. He said the developments of the past two weeks had shaken his faith in those who held the president's ear and confidence.

Turner declared himself strongly in favor of the minority resolution, maintaining congress could not delegate to the president power to make war, and vehemently attacked the president for delays in sending his message to congress, charging that the delay was not due to General Lee's request, but to the fact that Archbishop Ireland cabled the vatican in the hope that the pope might bring about a peaceful solution of the difficulty.

Turner ridiculed the diplomatic negotiations of the administration, and declared with bitter sarcasm that with such diplomatic agents as we have representing the United States, the Madrid government might eventually, for a suitable indemnity, absolve this country for blocking the harbor of Havana with the shattered bulk of the Maine.

Hoar followed Turner. He said this was no time for impassioned rhetoric, and manifestations of approval greeted the sentiment. He said that Turner, who represented only half a state, was making McKinley, who represented 45 states, the subject of the same kind of oburgations that were inflicted upon Washington. Hoar thought the Maine affair was enough to justify war. Still he thought honorable reparation might possibly be secured without war.

Turpie followed Hoar with a speech for the recognition of the Cuban republic.

AT THE CAPE VERDES.

Second Spanish Torpedo-Boat Flotilla Expected Daily.

NEW YORK, April 13.—A dispatch to the Herald from St. Vincent, Cape Verde islands, says:

The second Spanish torpedo flotilla is expected daily by the officers of the torpedo-boats now in port. Portuguese war vessels are expected to arrive here within a very short time. The governor of the Cape Verde islands, it is said, will remain at St. Vincent until advised that the differences have been settled. The name of the transport with the torpedo-boats is the Ciudad Cadiz.

Another "Dirty" Fight Ahead.

SAN FRANCISCO, April 13.—Articles were signed last evening by representatives of Tom Sharkey and Jim Jeffries for a contest to take place May 4. Alex. Greggans was selected as referee, and it was agreed the men should be ready at command of the referee, and that hitting with one hand free is permissible. It was further agreed that the pugilists may bandage their hands if they desire.

Two Ships for the Navy.

WASHINGTON, April 13.—The navy department has decided to buy the transatlantic liners St. Paul and St. Louis. It is understood Captain Sigbee will be assigned to command either the St. Louis or the St. Paul.

REGARDED INEVITABLE

Spain Will Have a Fight on Her Hands.

MORE DENIALS MADE BY SPANIARDS

Proof, It Is Claimed, Can Be Furnished That Havana Harbor Was Not Mined—Opposition Press Brings Weyler Out as the Prospective Savior of Spain.

MADRID, April 14.—The newspapers here regard war as inevitable. The latest dispatches from Washington have created profound excitement throughout Spain. The Spaniards protest against the "odious imputation" that Spanish officers are responsible for the loss of the Maine. It is asserted that proof can be furnished to show that no torpedoes have ever been laid in Havana harbor. The official Gazette tomorrow will publish a decree organizing a national subscription to increase the strength of the Spanish fleet.

The feature of the opposition press is an endeavor to bring Weyler to the front and make him champion of the cause of revolution, under the guise of the savior of national honor. Weyler today undoubtedly has numerous followers, and even the newspapers which, ever since his return from Cuba, have violently denounced him, are now lauding the former captain-general of Cuba as the man who can save the nation.

Weyler at Madrid.

MADRID, April 14.—Weyler arrived here today, apparently having been called by the government. He considered war with the United States as inevitable.

WILL NOT GIVE UP CUBA.

Spain Determined to Resist Any Such Demand it Made.

LONDON, April 14.—According to a special from Madrid today, a Spanish minister has declared in an interview that should President McKinley notify Spain to evacuate Cuba this government will immediately and emphatically refuse, and is fully prepared to take the consequences. The government does not regret according an armistice, as it thereby proves its position from an international point of view and makes it more difficult for the United States to intervene without putting itself completely in the wrong.

There was a big revolutionary demonstration at Valencia, capital of the Spanish province of that name, yesterday evening. A large crowd assembled, a red flag was waved and the "Marseillaise" was sung. The police dispersed the people who took part in the demonstration and captured the red flag.

I was reading an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the Worcester Enterprise recently, which leads me to write this. I can truthfully say I never used any remedy equal to it for colic and diarrhoea. I have never had to use more than one or two doses to cure the worst case with myself or children.—W. A. ENGLISHMAN OF ROMANCE.

Sir Edwin Arnold's Life in the Flower Kingdom.

Sir Edwin Arnold, who legalized his union with a fascinating Japanese widow by an English marriage service in London recently, was always cosmopolitan in his ideas. Surely no Englishman born and bred has ever succeeded in merging his own individuality into that of other people's as the author of "The Light of Asia" and "The Light of the World" has done. When he was in India in his young days his work showed his intense sympathy with the Buddhists, and in the preface to "The Light of Asia" he wrote: "This book was written by one who loved India and the Indian people."

For two score of years he was English to the core of his heart in the editorials he wrote for the London Telegraph, and in 1890 he came to America, seemed quite able to understand us (as few of his countrymen could do), and then he went on to Japan and immediately began to live a Japanese.

He lived in a native house, left his shoes at his door, slept on a thick quilt and, they say, ate in true Japanese style. In his bedroom he had a cheap European washstand, two Japanese chests of drawers of white wood and black iron work, and the usual sliding cupboard, into which his bed was put when it was rolled up in the daytime.

The walls of the room were of tissue paper panels powdered with silver maple leaves, and a clear glass belt ran around the room "at a height inconducive to propriety," as one correspondent of the day remarked.

The drawing-room was glass paneled from door to ceiling, and the only thing in the whole house that hinted at other civilizations was an American stove, which stood in one of the corners.

With such surroundings it is not much wonder that the impressionable poet found himself going through the ceremony of tea drinking with his charming companion of the hour, and that he was content to accept the ceremony as a bona fide marriage is tribute to his kinship with genius that since the world began has ever faunted a little the staid laws and regulations that ordinary folks find necessary to comfortable existence.

It was in Japan, by the way, that Sir Edwin began "The Light of the World," and, indeed, completed it, too, during his stay of several years.—Philadelphia Record.

WOMEN AS TEACHERS.

The Proportion Largest in the United States and Smallest in Germany.

There are in the United States, roughly speaking, 350,000 school teachers, and of this number 120,000 are men and 230,000 are women. In other words, there are nearly twice as many female as male teachers, and the disparity is increasing year by year. According to the last official census of Prussia there were 68,000 school teachers in the kingdom, of whom 9,000 were women and 59,000 men. It is evident, therefore, that the Prussian preference is for male teachers. In all Germany there are, including the government, church and private schools, 135,000 teachers, and the number of pupils is nearly 10,000,000. There are 140,000 teachers in France, of whom 65,000 are men and 75,000 are women, the number of each being subject to about the same ratio of increase. There are, it is supposed, about 100,000 teachers in Great Britain, but authentic figures are lacking.

Ironical Ifs.

If a man does you an ill turn he will never forgive you for it.

If a man re-leases a piece of property he takes a fresh grip on it.

If people didn't have hobbies the world would soon cease to revolve.

If a man once uses porous plasters he is apt to become much attached to them.

If hope assumes the guise of an easter bonnet it springs eternal in the female breast.

If it is necessary to write to anyone you don't care two cents for, use a postal card.

If we listen to the troubles of other people it sometimes makes us better satisfied with our own.

If two souls find they have but a single thought it is useless to waste any time contemplating matrimony.

If a man marries a woman because she has more sense than he has, he is never allowed to lose sight of the fact.—Chicago Evening News.
