# Governor of Porto Rico Reports Vessels, Supposed to Be Sampson's Fleet.

Madrid, May 10 .- The governor of Porto Rico reports that three suspicious looking foreign vessels have been sighted of the coast. It is supposed that they are ships of Sampson's squadron.

NEW YORK, May 10 .- Nothing has been received at Washington concerning the expected battle between the Spanish fleet and Sampson's squadron as yet, but officials expect news by Thursday at the latest.

### **CAPTURED** BY SPANIARDS

Major Smith Taken While Escorting a Party of Newspaper Men to Gomez' Camp ... Probably Executed.

New York, May 7 .- A special to the World from Tampa says:

A telegram from General Lacret, received tonight, gives the information that Major Smith, who on April 24th landed at Caibraicon to escort a party of newspaper correspondents to General affair. Gomez' camp, has been captured by Spaniards and killed.

The message was signed by a Cuban officer named Lorenez. He has been with Captain Dorst, of the Fourth cavalry, who, with two other officers, was sent by General Miles to confer with the insurgents. Captain Dorst reached America today and is due in Tampa late tonight, en route to Washington, where he will lay before the president and his advisers the information he gained.

The telegram regarding Smith is brief. It simply says that when his captors discovered his identity and nationality they beheaded him. The news is regarded as authentic.

Nothing is said of the fate of the newspaper men accompanying him.

## TIME NOT RIPE FOR INTERVENTION

Berliner Post Publishes an Inspired ington. tude as Being Against European Mediation.

New York, May .- A dispatch to the World from Berlin says:

The Berliner Post publishes, probably in reply to the rumor that the capture of the Philippine islands by the American fleet calls for German inteference, the following declaration, which was inspired by the imperial foreign office:

"Rumors of renewed attempts at mediation between the United States and Spain by the powers are again in circulation. We can only repeat that this mediation is not possible at present. The very first requisite to such a step is lacking, viz: that Spain should ask for intervention-to say nothing of the disposition to resent such interference manifested by America. Absolutely nothing is known here of any attempt on Spain's part to solicit intervention."

# DISORDER IN SPAIN ON THE INCREASE

Riets Have Broken Out at Cadiz and Alcante--- Trouble at Many Other Points is Imminent.

Madrid, May 9 .- The disorder in the Spanish provinces is increasing. Riots have now broken out at Cadiz and Alcante, and trouble is expected to spread to parts of the country which have hitherto been quiet. At Martos men, women and children have been parading the streets, crying: "Death to the thieves!"

Serious rioting occured at Linars yesterday. A mob attacked the town hall. tore out windows and threw everything moveable into the street. A conflict between the civil guards and rioters resulted, it is said, in the death of fourteen persons. Sixty were wounded. Reinforcements were asked for.

The political situation here is unchanged. Everybody appears loathe to assume responsibilities of accepting office under the existing condition of

# LARGE ARMY TO

General Miles Favers the Sendidg of a Force Sufficient to Defeat the Hundred Thousand Spaniards.

WASHINGTON, May 9 .- Sixty-six thousand men will go to Cuba. This is the latest information from General Miles' office. An army of this kind is altogether out of proportion to what it was proposed to send only ten days ago, then it was only 6000 instead of 66,000, and not only that the transports which were engaged were chartered only for one round

It was intended to land supplies of food and arms for the insurgents to back up their efforts to maintain a support of States regulars, and then withdraw until a great naval conflict shall have been fought. Dewey's victory in the Phillipines and the utter inability of the authorities to chase up reports concerning the movements of the Spanish warships and the troubles in Porte Rico, which have culminated in such great destruction of American property there, have all led to a radical departure from the original program.

From the outset General Miles has favored invading Cuba with a large army. He has not put much faith in the ability of the insurgents to send him reinforcements, and consequently he has insisted that the troops behind him shall be sufficient in numbers to conquer at least 100,000 Spanish soldiers. Then, too, the question arose as to legal authority for carrying arms and food to the Cubau insurgents.

It was clearly the intention of congress that the suffering in Cuba should be relieved, and it was for that purpose ostensibly at least that war was begun.

TAMPA, Fla., May 9 .- The United States has begun the work of arming and equipping the patriots in Cuba. An expedition will leave Port Tampa in the morning on board the transport Gussie. It will be in command of Captain Dorst, of the Fourth cavalry, and will carry nition to the Cubans, besides sufficient rations. Two companies of the First infantry will go along as guards. Sudden Breaking of the Ice on Which the Goldseekers Were Walking Sent Them to Their Doom Without a Moment's Warning.

San Francisco, May 9 .- A special to the Examiner from Victoria says:

On Monday last the ice covering a stream in a defile near Crater lake gave way under the passing throng of Klondikers, and more than a score of men were precipitated into the water and carried to certain death beneath the river's frozen coating.

Dr. J. F. Frizelle, of Los Angeles. who came down on the Al-Ki and who brings the news, passed the scene only a few hours after the calamity occurred. It was on the other eide of the summit between Lindemann and the long lake, at a point in the canyon some 14 miles above Stonehouse, where an ice slide ized as a path for sleds by the fortune seekers.

A number of men were advancing in almost unbroken rank, each hauling his laden sled, when at 8 o'clock in the morning there was a crash. The ice opened for 30 feet or more, and in an instant 22 men with their supplies were whirled down and under the smooth surface of the stream to drown without even the chance of battling for life.

The names of the victims of the icebreak Frizelle cannot give. There is no possibility of identifying them now, he says, nor can the names be announced with positiveness until the bodies are delivered by the stream at the lake or the disappearance of the ice.

Four Montana and two California men are thought to have been among the victims, while the other included an Eastern party of seven, almost all being remembered only by the nicknames which Western freedom has given them.

### ARRANGING FOR TRANSPORTATION

The City of Pekin Put in Shape for the California Troops-A Full Quota of Volunteers Ready.

San Francisco, May 9 .- The steamer City of Pekin, which has been anxiously awaited, arrived in port shortly after 6 o'clock this evening. She will discharge her cargo with very little delay. Supplies and ammunition which are all in readiness will be placed on board, and arrangements for the accommodation of the troops which the steamer may be expected to carry, will only require the work of a few hours.

If the authorities at Washington desire it, the Peking can undoubtedly be dispatched to Devey's aid by Thursday. A full quota of California troops are now in San Francisco. ' Two batallions
