## Six Thousand Volunteers and Many Regulars Flee From Puerto Principe and Neuvitas to Join the Cuban Army.

NEW YORK, June 16.—A special from Key West says that advices from the headquarters of the Cuban civil government in La Guanaja, Camaguay, report that over 6000 Spanish volunteers and many regulars from Puerto Principe and Neuvitas garrison have deserted to the Cuban patriot army. The immediate cause of the desertion was fear inspired by the proximity of the American fleet.

### GERMANY DARE NOT INTERFERE

European Powers Would Not Tolerate an Attempt to Turn the American Victory at Manila to the Kaiser's Advantage.

NEW YORK, June 16 .- A World dispatch from London says:

Neither Russia nor France, and still less England, would tolerate any attempt to turn America's gallant overthrow of the Spanish fleet and virtual capture of Manila to Germany's special advantage. In the jealousies are a gaurantee that America will not be troubled by any interference in the Philippines. This is the opinion in high political quarters here, where the utterances of the Berlin chauvinist press are treated as of no account.

The arrival at Manila of Admiral Diedrich, the German naval chief, it is said, is simply because of the desire to witness the operations of Admiral Dewey's squadron for nayal reasons.

# DESTROYS CHANCES

Departure of Shafter's Expedition Commits the Government to a Vigorous Presecution of the War.

WASHINGTON, June 16. - A leading

member of the diplomatic corps said today that the departure of Shafter's army of invasion into Cuba put an end to all present prospects of peace. While none of the foreign representatives had ever made peace representations to the government, yet peace negotiations always seemed to the members of the diplomatic fraternity as within the bounds of possibility, and even probability, so long as the troops remained at Tampa and Key West. Now, however, with 15,000 American soldiers about to take a position on Spanish soil, it is said the conditions heretofore opportune for peace have undergone a material change, as visitor's mind a modern Venuce, and the United States is committed to an aggressive land campaign, and it also any other course than that of defending her soil against invasion.

The cabinet crisis in France may exert indirect influence on the present war. Hanotaux, the minister of foreign bridges. affairs in the present French cabinet, has been foremost in overcoming the anti-American spirit shown by the people and the French press. He has, moreover, exercised a strong repressive influence on Spain. He was able to do this through his peculiarly close and personal intimacy with the Spanish ambassador at Paris, Senor Castillo, and through him to have a considerable part square feet. in shaping the policy of the Spanish

government. The course of Hanotaux has been highly gratifying to the authorities here, and they would be glad to see him regain control of foreign affairs in France. What is feared particularly in democratic circles is that Hanotaux' withdrawal, along with that of the Meline cabinet, will bring some flery deputy to bail for trial at Sitka. The 600 foreigners on board the two ships, however, maintain that the American line and the government is ried by force, to discharge the duties British and German vice-consuls have refused to interfere in the matter, and to desert, and if they do they can be apprehended by officers of the law.

WASHINGTON, June 15 .- Reference is made in a report by Thomas W. Cridler, third assistant secretary of state, upon the Paris exposition, to an inquiry by the exposition authorities as to whether the Americans could furnish the electrical power to light the whole exposition and run all the machinery.
