LOCAL BREVITIES.

Saturday's Daily.
A locomotive on the Sumpster Valley railroad jumped the track near Baker City, Tuesday. No one was hurt and but little damage was done to the locomotive.

At La Grande there is a demand for laborers which it seems impossible to supply, owing to the fact that the average "laborer" does not take kindly to the care of sugar beets.

If southern Gilliam county should produce as good a crop this year as last, and the indications all point to a better one, the demand for transportation will be so strong that the Columbia Southern railroad will no doubt take heed and tap the great wheat belt farther on into the interior.

The Fourth of July committees are doing everything in their power to make the celebration a success and it certainly will be such. The business men of The Dalles have been very liberal in donating money towards the celebration, and there is nothing lacking at present to assure its success in every regard.

Warm weather continues over the Snake river country, while comparatively cool weather prevails over the upper Columbia. The upper rivers have commenced to fall. It appears that the main body of snow has now been melted and all danger of higher water has passed. It cannot be stated with absolute accuracy that no further rise will occur, but such a conclusion is reasonable.

The catch of fish fell off a little Thursday night, but the quality is exceptionally fine, says the Astoria Budget. The steelheads are finer than they have been in years. One was delivered at Treco's weighing 18 pounds. The so-called branded fish are delivered to the different canneries nearly every day. Sometimes they resemble letters, and again quaint figures. They are scars from seal or sea lion bites.

A large number of college students from this city and vicinity, who have been away attending school during the year, returned on the Regulator last evening. They were Misses Anna Thompson, Lottie Roberts, Ella Anderson, Jennie McCallum and Messrs. J. M. Parry from the state normal at Monmouth; Mrs. Maude Simmons and her brothers, Messrs. Howard and Perry Gaunt, and Robert Belcher from Vashon college; also Everett Logan from Eugene.

A number of our property-owners have been enterprising enough to build new sidewalks this summer, and their actions in this regard are certainly commendable. There are others, however, who should follow their good example in this direction and put in new walks. Some of our sidewalks are in such a condition that it is almost dangerous to walk over them, and they should be rebuilt by all means.

A remarkably large number of Indians are in the city at present. This is owing to the fact that many are returning from the berry patches at Hood River, while others are here to spend the fishing season. Those who have been picking berries have money and are awaiting every opportunity to secure intoxicants at any price, so that the authorities are busy keeping a watch on them to prevent any depredations being committed.

Yesterday Mrs. L. Spivey, wife of R. A. Spivey, died at her residence, in the Bettington block, in this city, of consumption. Although still in her prime, being but 23 years old, Mrs. Spivey has been ailing for a considerable time. Finally her malady turned into consumption, and she sank rapidly until the end came. She leaves a husband and one child, about 4 year old. The funeral will take place from the Calvary Baptist church Sunday at 11 o'clock.

The twenty-sixth annual reunion of the Oregon pioneers was one of the most pleasant and successful that has ever taken place under the auspices of the Oregon Pioneers Association. The records of these annual meetings will furnish much valuable data to the future historian of the state; while the meetings themselves are a source of genuine enjoyment to a not inconsiderable number of our people who find their greatest pleasure in living over events of the past. Serving thus a two-fold object, those under whose auspices these meetings are held and by whom these records are kept, perform valuable service to the community, both present and prospective.

W. W. Rice, of Susanville arrived in Long Creek Monday bringing the news of a narrow escape from drowning of Robert Hamilton's two children in Sloan & Haskell's mining flume. The

little girl, 3 years old, while playing near the edge of the flume was seen by her eldest brother to fall in. Without a moment's hesitation he went to the rescue of his sister. Though there was a full head of water running in the flume with such velocity as to carry large boulders out of the mine, he succeeded in holding his sister above water until help arrived and the two were rescued. It is a miracle that both were not drowned, as Mr. Rice says a grown person would have great difficulty in saving himself in the flume.

Yesterday Roe Grimes shipped a carload of fine beef cattle to the Union meat company at Troutdale.

Yesterday some of the large trees in front of Samuel Brooks' residence were cut down on account of the injury they do the lawn.

The office of the Wasco Warehouse Company is being moved into the new building and when finished it will be equal in every way to any in the state.

Yesterday Tom Burges and son and others, of the upper country, disposed of about 1000 head of cattle to a party in Salt Lake. Twenty-eight carloads were shipped yesterday morning.

Professor Ryan has offered to the young lady selling the greatest number of tickets for the excursion a handsome folio of guitar music. This is quite an inducement to the young ladies, and all are working hard for the coveted reward.

Yesterday word was received in the city that William Dunn, a well-known railroad conductor of the O. R. & N., was very sick and that hopes of his recovery were not entertained. We understand that he is suffering from an attack of typhoid pneumonia.

Last evening a party of young folks consisting of Misses Allie Rowland, Josie Jenkins, Dora Neilsen, and Grace and Edna Glenn, returned from a two weeks outing at "Maidens Rest," Hood River. They report having had a delightful time; but are, nevertheless, glad to get back to The Dalles once more.

Antelope will celebrate July 4th in a most patriotic manner. A free basket dinner will be served to all guests and a flag raising and patriotic exercises will be held. Horse races, bicycle and foot races, as well as a baseball game between the Antelope and Sherman county teams will take place. There will also be a grand ball in the evening.

A great deal of Indian wool has already been disposed of at this place, says the Heppner Times, bringing from 10 to 10 1/2 cents per pound. None of this wool is shipped East, but is sold to the mills at Oregon City and other Pacific coast establishments. This class of wool generally carries with it an odor that would put a glue factory to shame.

News was brought to the city yesterday of the death of Marguerite, the little daughter of Mr. and Mrs. M. M. Glary, of Dufur. She was their only child and an exceptionally bright little girl for one of only two years. Her death is a sad blow to her bereaved parents and they have the sympathy of the entire community in which they live. The funeral will take place from the home of the parents, on Tygh Ridge, today.

Captain J. H. Dukes, of Hood River, lately received from his old home in Illinois, the sword which he carried through the civil war. It was stolen from him some eighteen years ago, and since the present war begun and he expects to command a company if more troops are called for, he caused the lost sword to be advertised. A few days ago it came to him by express. It has engraved on the scabbard his name and the battles he passed through, and of course he values it very highly.

A new mining district is being developed at the head of Pierson creek, 25 miles south of Pendleton. It has been known for several years that gold ledges existed in that section of the country and a little mining has been done, but nothing very rich has ever been discovered. Wednesday nine locations were recorded at the county recorder's office, of claims newly found. The main ledge is thought to be discovered, and the prospects are encouraging. Several assays are reported to be from \$30 to \$40 a ton.

Last evening Nightwatchman Wiley was kept busy with a number of Indians who had secured liquor from some source. Two arrests were made of Indians who were intoxicated and boisterous and all that prevented others from going to the skookum house was that they betook themselves to their camps near the river and behaved like gentlemen. A Klickitat Indian and his better half drove down Second street at a rapid rate and were pursued by the nightwatchman. In spite of the fleetness of the Indian's horses he was overtaken at Nolan's corner and an explanation demanded. He stated he was not drunk but feeling good and was allowed to proceed on his way after being admonished not to make so much noise in the future. Mr. Wiley at present holds an enviable record as a sprinter.

Yesterday a flag staff was put in place on the new school building. It seems that Mr. S. B. Adams, who has taken an unusual amount of interest in the building, had promised the contractors a box of cigars provided the staff was in place by a certain date. Yesterday the workmen were smoking the best of cigars when our reporter visited them. It has been arranged that a feature of our Fourth of July celebration will be the raising of the flag over the structure. The parade will halt in front of the school, and after addresses and music, amid the enthusiasm usual on such occasions, "Old Glory" will be raised.

We are sorry to learn of the illness of Freas Sanders, who has been confined to his room for the past three days.

And still the clerk is kept busy issuing marriage licenses. Yesterday one

was granted to Alex. Stewart and Rachel Rowland.

Friends of Conductor Wm. Dunn report that his condition was much improved yesterday, and it is hoped he will speedily recover.

Yesterday the river stood at 36.7, having fallen slightly. However, the Snake is rising. From reports it is judged the Columbia will remain stationary for a few days.

At the Umatilla alleys last week H. Maetz carried away the honors every day but one. The scores were as follows: Monday, 65; Tuesday, 71; Wednesday, 64; Thursday, 59; Friday, 72; Saturday, 68; Sunday, Harry Esping, 77.

Mrs. A. C. Stubling & Son will soon begin on the erection of a new hot house especially for the culture of carnations and violets. The increasing trade makes this necessary and Mrs. Stubling feels that her efforts will be appreciated by her patrons.

The high scores at the club alleys for the past week were: Monday, Houghton, 55; Tuesday, Mrs. Fish, 50, Vic. Schmidt, 51; Wednesday, Bradshaw, 70; Thursday, Wm. Ketchum, 48; Friday, C. Ballard, 45; Saturday, Vic. Schmidt, 56; Sunday, John Bonn, 45.

Sunday morning, Glen, the 2-year-old son of Mr. and Mrs. Guy Price, who have recently come to our city, and reside on the hill opposite the home of N. Simonson, died from the effects of measles. The funeral took place from the Christian church yesterday afternoon.

Word received by Dr. Rinehart as to the condition of Mr. Geo. P. Morgan is not encouraging, no improvement having been made. As he requires her whole attention, Mrs. Morgan has been compelled to give up the school, which she has been teaching since removing to the Locks.

Invitations have been received by friends in this city to attend the marriage of Rev. Earl Wilbur, pastor of the Unitarian church in Portland, and Miss Dorothea Dix Eliot, which occurs in Portland on the 30th of this month. During Miss Eliot's visits to our city as a teacher in vocal culture she won the friendship of all, and their best wishes will follow her in her new relation in life.

Sunday evening the Episcopal church was crowded to its fullest capacity, the occasion being the visit of Bishop Morris to our city and the confirmation of ten persons. This parish is in a very flourishing condition at present under the pastorate of Rev. Joseph De Forest. Recently the building has been enlarged and a new chancel placed therein, which adds greatly to its appearance. The decorations Sunday were very dainty and artistic, while the singing was unusually good.

Sunday morning when Judge Blakeley went down into the basement of his residence to attend to the wants of his big dog, Guy, who had been sick for several days, he found him stretched out dead. Guy, who was a St. Bernard, was what might be termed "the biggest dog in the piddle," not in size alone, but popularity, for everyone knew him. Mr. and Mrs. Blakeley will miss the big pet greatly, for he seemed almost human, and they have had him for the past nine years. Guy has had his "day," and is now buried near the cemetery across Mill creek.

The quiet of Sunday was disturbed by three fights, showing that The Dalles is not entirely rid of several characters who have long been an annoyance to all law-abiding citizens. The only arrest made was that of Frank Heater. In a dispute between Heater and a man by the name of Murray, the latter was pretty badly done up, receiving a bad gash over the right eye, beside other injuries, which were immediately attended to by a physician. Heater being arrested, was placed under \$500 bonds, remaining in jail for lack of funds. He is to have a preliminary examination before Justice Filloon this morning at 9 o'clock.

Sunday evening at 10 o'clock, at the residence of the bride's parents on Court street, Miss Minnie Julian and Mr. Herman Johnson were united in marriage. Rev. Wilburn, of the Calvary Baptist church, performed the ceremony in the presence of relatives and a few friends. Mr. Johnson, who is known to be a very industrious, honest young man, is employed as a fireman by the O. R. & N. Co. The bride has lived in The Dalles but a few years. However, in that space of time she has won many friends, whose best wishes are extended to her. Mr. and Mrs. Johnson left on the boat yesterday morning for an extended trip to the Sound and California cities.

Yesterday a flag staff was put in place on the new school building. It seems that Mr. S. B. Adams, who has taken an unusual amount of interest in the building, had promised the contractors a box of cigars provided the staff was in place by a certain date. Yesterday the workmen were smoking the best of cigars when our reporter visited them. It has been arranged that a feature of our Fourth of July celebration will be the raising of the flag over the structure. The parade will halt in front of the school, and after addresses and music, amid the enthusiasm usual on such occasions, "Old Glory" will be raised.

UNKNOWN MAN KILLED

REMAINS FOUND ALONGSIDE THE O. R. & N. TRACK.

Cut to Pieces by a Train Near Troutdale Station.

The mangled remains of an unknown man, supposed to be a tramp, were found Thursday morning at 4:30 a quarter of a mile west of the station at Troutdale, alongside the O. R. & N. track. The night watchman at the station was notified, and he had the body conveyed to the station-house. Justice S. Bullock, acting coroner, received word of the death and went to Troutdale yesterday afternoon, and held an inquest over the remains, but failed to establish the identity of the man.

At the inquest nothing was found on his person to indicate his name. He had in his possession a number of election cards and also some cards with pencil scribbles on them, all of which left no doubt that he had been in Portland recently and was making his way eastward when killed.

One arm was tattooed with the figures of an anchor, a rope and woman, indicating that he was a sailor. On one of the cards found in his possession the name of Andrew Zingell was indistinctly penciled, but whether that was his name there was no way of telling. He had brown hair and a light moustache, and was dressed in a pair of blue overalls and gray shirt with green facing. He was about 38 years old.

The body was horribly mangled. The head lay toward the east. The left leg was across the track, and severed close to the trunk of the body. A fearful gash was cut in the forehead. The left arm was nearly severed above the wrist, and had dropped just alongside the track.

Justice Bullock expressed the opinion that he had either fallen from the brake-beam of the freight train that passed at about midnight or had been killed in the attempt to board the train as it was passing. The testimony of residents was that the place where the remains were found is where tramps have made a practice of getting on trains.

One singular thing was that the man who informed the night watchman of the finding of the body disappeared, and with several others who were near, could not be found when the inquest was held.

The inquest developed very little about the man, and the verdict was that he had come to his death by being run over by a train. The cards and other articles which might in the future lead to establishing his identity were preserved, and the remains were buried at the Troutdale cemetery.--Oregonian.

MATRIMONIAL.

T. M. Colver and Miss Carrie E. Moore United in Marriage.

Last Wednesday the marriage of Mr. T. M. Colver, of Marshfield, Coos county, and Miss Carrie E. Moore, of Dufur, was solemnized at the residence of the bride's parents, Mr. and Mrs. W. H. Moore, the Rev. W. C. Smith officiating.

The ceremony took place at 11 o'clock a. m., in the presence of a goodly number of relatives and friends. After the solemn words were spoken which made the happy couple one, they were heartily congratulated by those present, after which all repaired to the dining room where they partook of a most sumptuous repast prepared for the occasion.

The bride and groom were the recipients of many beautiful and useful presents.

Shortly after dinner Mr. and Mrs. Colver went to The Dalles for a short stay, after which they will visit friends relatives at Haystack, near Prineville, from which place they will proceed to their future home at Marshfield, Coos county.

The bride is well-known here as one of our most highly respected young ladies, and the best wishes of the entire community will follow herself and husband to their future home.--Dufur Dispatch.

MARRIED.

Henry F. Zeigler and Augusta Meins Joined in Wedlock.

The home of Mr. and Mrs. J. C. Meins, on Tenth street, was the scene of a very pretty wedding Monday evening, when at 9 o'clock their only daughter, Augusta, was given in marriage to Mr. Henry F. Zeigler, Rev. DeForest, of St. Paul's Episcopal church, officiating.

About twenty immediate friends of the family were present to witness the ceremony. The bride, who was attired in white organdy over blue silk, looked very sweet as they stood under an arch of flags, from which was suspended a white floral horsehoe. Beside the bride stood little Maud Golden as ring-bearer.

At the close of the ceremony congratulations were showered upon the young couple, and later the party sat down to a supper, which was replete in every detail.

Mr. Zeigler has been a citizen of The Dalles for the past year, and at present is night cashier at the Clarendon restaurant. None but the kindest words can be said in regard to him, as he is known

SYRUP OF FIGS

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company--

CALIFORNIA FIG SYRUP CO.
SAN FRANCISCO, CAL.
LOUISVILLE, KY. NEW YORK, N. Y.

to be an upright, steady young man.

The bride has lived in The Dalles from her infancy, and is a young lady whom any man might well be proud of winning, being possessed of a sweet disposition and winning, womanly ways.

Mr. and Mrs. Zeigler left on the early morning train for Seattle, where they will visit the parents of the groom, making a trip to Victoria before returning home.

THE CHRONICLE joins their many friends in wishing them well.

Nansene School Report.

The following is a report of the Nansene school, for the third month, commencing May 9th and ending June 9, 1898: Number of pupils enrolled, boys 5, girls 13, total 18. Those who have missed no days are, Hattie Adams, Ruby Moore, Belle Adams, Everett Wilson, Rhoda Adams, Dora Moore, Minnie Wilson, Clara Moore, Darwin Adams and Pearl Wilson. Those whose department has reached 100 are, Nancy Neely, Pearl Wilson, Hattie Adams, Daisy Butler, Dora Moore, Belle Adams, Rhoda Adams, Clara Moore, Darwin Adams, Everett Wilson, Minnie Wilson and Barbara Neely. Visitors during month were James Moore, Wm. Adams, Dave Wilson, Polk Butler, Mr. Selleck, Nathan Myers, Burnie and Roy Selleck, Eben and Ralph Butler, Elmer Wilson, Howard and James Selleck, Meedames Wm. Adams, James Moore, Dave Wilson, Mary Butler, Ada Moore, Misses Hattie and Nellie Wilson.

C. R. DEEMS, Teacher.

An Enjoyable Evening.

The Dewey social, given by Cedar Circle in Fraternity hall Friday evening, was certainly one of the most enjoyable events of the season. The program was arranged in a manner that made it pleasing to all present, and the dancing afterward was equally enjoyable.

Georgia Sampson presided at the piano, and, in company with Professor Ryan, as mandolin player, furnished splendid music for the occasion.

The program consisted of music by the mandolin and guitar club; recitation by Hazel Waud; instrumental solo, Mrs. Collins; recitation, Mrs. Hunsaker; auction; selections by the Hayseed band; recitation, Nova Dawson; guitar solo, Mr. Ryan; recitation, Hazel Waud; guessing contest of old sayings; piano solo, Mrs. Collins; vocal solo, Mrs. Stephens.

A Pleasant Party.

A very pleasant surprise party was given Friday evening to Miss Alvina Horn by the confirmation class of the Zion Evangelical Lutheran church, and the evening was spent in a very pleasant manner, each one feeling at home. After three hours of pleasure, refreshments were served. The crowd then dispersed, wishing to spend many more happy evenings together. Those present were: Messrs. Frei and George Weigle, George Sorenson, Pete and Theodore Nickelsen, Tony Paulsen, Alfred Prutz, Oscar Beck, Hubert Liest, and Misses Christine Nickelsen, Margaret Schroeder, Camilla Sorenson, Bertha Wyss, Alvina Horn, Annie Stubling, Annie Golbeson, Hanna Schawbe, Nellie Davenport and Mrs. Peterson.

To Cure a Cold in One Day.

Now is the time to spray with Paris Green. Clarke & Falk have the strongest you can get.

DeWitt's Witch Hazel Salve Cures Piles, Scalds, Burns.

OUR NEW SCHOOL BUILDING.

A Structure to Be Proud of--Something Concerning the Plan--Will Soon Be Completed.

While there are many things which The Dalles has occasion to feel proud of, and justly to, her greatest pride should be in the excellency of her schools, for a city which has such fine schools certainly recommends itself to any who may be in search of homes where their families may have the benefit of a good education.

A reporter in going over the new building now being erected on the corner of Tenth and Union streets, was particularly pleased with every part of the building. Situated on a high level, from every window the grandest of views may be obtained, and each room has an abundance of windows, so that the light is perfect.

It is of brick and its dimensions are 60x93 feet. The entrance to the building will be by concrete stairs, twenty-three feet long, which lead into a large hall 24x60 feet. This hall is one of the most attractive features of the structure, affording ample room for drills, etc.

On the lower floor are four rooms 32x29 feet, and supplied with good-sized dressing rooms. The stairs leading to the upper floor are platform stairs ten feet long, half way up being a landing 8x24 feet. Up stairs is a hallway 20x24 feet, and directly in front is an immense room 31x63 feet, from which open two large recitation rooms, one 19x31 and the other 31x33 feet; also two circular-shaped cloak rooms. On either side of the large windows facing the city are book cases, or reference libraries, between which is a comfortable seat. This will be the main room of the high school. Indeed this entire floor will be used by that portion of the school, while the lower floor will be occupied by the sixth, seventh and eighth grades.

In the southwest corner is situated the library and the principal's office combined, and a hall connects this with a laboratory and apparatus room 18x32 feet.

The workmen are now employed in placing a concrete floor in the basement, which is to be divided by a partition and used as recreation rooms for the pupils in stormy weather.

Two large Morgan heaters will furnish hot air for the heating of the rooms, and this is considered at present the best method of heating now in use. Every precaution has been taken to make the ventilation faultless, which is quite necessary in school rooms. The entire building will be well lit by electric lights, twelve being placed in the high school room alone.

The building will be completed some time between the fifteenth of August and the first of September, so that it will be ready for occupancy when the fall term of school begins, which will be on the first Monday in September.

The appointment of teachers has not been completed as yet, but will be published later.

Mr. C. J. Crandall, as architect, and Messrs. Sylvester and French, as contractors, certainly deserve much praise for the manner in which their work has been done, while the people of The Dalles are to be congratulated upon this substantial and worthy addition to our already flourishing city.

CITY ELECTION.

Little Interest Displayed--Result in the Different Wards.

Monday's city election was an extremely quiet one, and one could scarcely have told from the appearance on the streets that anything unusual was going on. Less than one-third of the vote that should have been cast was polled, 250 being the total number. In the second ward the interest was somewhat more noticeable where A. S. MacAllister and M. Randall were running for water commissioners. The result of the election was as follows:

First Ward--Mayor, M. T. Nolan, 34; treasurer, C. J. Crandall, 37; councilman, Andrew Keller, 36; water commissioner, T. J. Senfret, 36. Scattering votes--For mayor, Tom Grayley, 1; Gus Ballard, 1; W. A. Johnson, 1. For water commissioner, E. B. Dufur, 1; J. B. Crossen, 1. Total votes cast in the ward, 37.

Second ward--Mayor, M. T. Nolan, 134; treasurer, C. J. Crandall, 139; councilman, J. E. Barnett, 141; water commissioner, M. Randall, 85, A. S. MacAllister, 57. Scattering--treasurer, J. F. Hampshire, 1.

Third ward--Mayor, M. T. Nolan, 70; treasurer, C. J. Crandall, 71; councilmen, long term, F. Gunning, 69; unexpired term, W. H. Butts, 68; water commissioner, J. S. Fish, 68. Scattering--For mayor, A. R. Thompson, 1.

The Modern Beauty

Thrives on good food and sunshine, with plenty of exercise in the open air. Her form glows with health and her face blooms with its beauty. If her system needs the cleansing action of a laxative remedy, she uses the gentle and pleasant Syrup of Figs, made by the California Fig Syrup Co., only.

Thousands of sufferers from grippe have been restored to health by One Minute Cough Cure. It quickly cures coughs, colds, bronchitis, pneumonia, grippe, asthma, and all throat and lung diseases. Snipes-Kinzerly Drug Co.
