WE SAVE YOU MONEY.

If We Saw You Losing Your Pocket-book

We would not apologize for yelling at you. There is a chance for your saving money-money that you are not saving now-and we point it out to you. What is the difference? When you don't save the money you could save, you lose money, do you not?

We honestly believe you can save money BY TRADING WITH US-and do not apologize for yelling the fact.

Last night Horseshoe bridge, located about twenty miles west of Huntington, was totally destroyed by fire. The bridge is 200 feet long, and it will require two or three days to rebuild the same. In the meantime passengers will be transferred across the stream and traffic will not be suspended. It has been hardly three years since a bridge over the same stream was burned. The cause of the conflagration is unknown. A large bridge gang has gone up to repair the damage.

The managers of the D. P. & A. N. Co., have decided to leave the Regulator where it is at present located until the water goes down when it will be launched. It is not expected that the damage to the boat will be great, however the loss of the craft at this time of the year will be considerable. Great sachem, John Michell, of The Dalles; great senior, J. H. Howard, of keeper of wampum, J. H. Griebel, of Portland.

John Michell was also elected great representative to the great council of the United States, which meets in Indianapolis in September. There are now two great representatives, Fred H. Saylor, who was elected at the last great conncil, being the other.

Pendleton will probably be chosen as the place of holding the next great council.

The speeches of the great chiefs were read and referred to the proper committees.

The reports of the great chief of records and the great keeper of wampum show the Oregon reservation to be in a very prosperous condition. There are now 15 tribes in the state, an increase of six over last year. In membership the increase is about 500. The receipts Colonel Robert W. September 22d to October 22d of this year will be a month marked by great results for the producers of the Northwest, for during those days the product of their "labor will be gathered together and attractively displayed at the Oregon Industrial Exposition.

P. A. Bounds, of North Yakima, was thrown a few days ago from a wild cayuse which he was riding. As he fell, a rope attached to the saddle wound round his arm, and the cayose running away. Bounds was dragged several hundred vards and badly bruised.

P. J. McGrail, of Nansene, was in the city yesterday. He informs us that the farmers in his neighborhood are beginning to harvest their crops and states that the assertion that this year's crop will be fully as large if not larger than any in the history of the state is no exaggeration.

An error was made in yesterday's issue concerning the death of Minnie Rondeau. Her age was given as seven years when it should have been fourteen. This was no fault of the paper, however, of fiber. as it was almost impossible to get any information whatever concerning the subject.

Monday night Deputy United States Marshal Roberts arrived in the city from the Warm Springs with an Indian who is accused of having attempted to rob the United States mail between Wapinitia and the agency. The Indian was taken to Portland where he will have his hearing. There seems to be a clear case against him and he will prob-

ably go over the road. Yesterday evening that well known character "U. F." Sam arrived from his valley trip and drew a large crowd on the corner of Second and Court streets. The present war furnishes him an abundance of material to sing about and be furnished his audience with a continual round of amusement. Sam is getting old but his age does not seem to

effect his ability to make shymes.

Some idea of the vast importance of the wool industry in Yakima county may be had when it is remembered that there is now stored in the warehouse of Wiston & Bagger, at Prosser, over half a million pounds of wool from last year's clip, and all grown and sheared in that portion of the county. As a wool growing district, Yakima is far in the lead of any portion of the state, either for

Dr. Dobbs is a graduate of the Detroit Medical College, and comes highly recommended. Dr. Detrich intends returning in the fall and continuing his practice at Dufur.

> > We note that Portland is advertising California melons for the last week. This is nothing worthy of mention, since the people of The Dalles have had an abundance of watermelons during the last week which were raised not in California, but right here in Waeco county.
