Meekly The Dalles Whronicle.

VOL. VIII.

THE DALLES, WASCO COUNTY, OREGON, WEDNESDAY, SEPTEMBER 21, 1898.

NUMBER 48.

PROF. P. G. DAUT

Prof. P. G. Daut, the Optician of The Dalles, Oregon, a Doctor of Refraction,

We here show the portrait of Prof. P. G. Daut, who has been in The Dalles for the past nine months, and is recognized as an optician of high scientific attainments and skill, and enjoys, to an unusual degree, the confidence of his patrons. He has just completed an operating room, known as a "Dark Room," and is lighted with the new Ascetylene gas, which gives light at all times of the day, at once. The examination of the eye for errors of refraction and accommodation, and a thorough familiarity with the tests, such as the professor uses for the detection of anomalies of the ocular musclers, are the very best known. He has many testimonials in his possession of people be has fitted in different states, but they bring of not much interest to the home people, he furnishes a great many home testimonials, but for lack of space we print from some of the people you know.

neglect them; you can't afford it.

Eye Helps. Eye Hurters.

Spectacles are eye helps if right, eye hurters if wrong. Who is to know in time to let you stop the mistakes? Not the average optician is a spectacle seller. Nogl. for he is unable to distinguish between optical defects and diseases. Prof. Daut is the only graduate of disease of the eye. He gives you a thorough examina-tion free of charge, and advises the use of glasses only when needed. If you don't need them, he tells you so.

The Dalles, Or., July 22, '98. To whom it may concers: This is to certifyt hat the undersigned has purchased glasses of Prof. P.G. Dant, them before, and his glasses which I am the optician, which have given entire now wearing are giving me thorough I very cordially recom-

mend his work to the public. Very respectfullys Rev. W. V. Boltz. Rector of the Church of Christ.

The Dalles, Or., July 6, '98. The undersigned takes pleasure in saying that he, having been troubled with his eyes, called on the optician. G. Daut, in February last, and secured lenses which have proved to be very beneficial. Respectfully, L. Grey, Ev. Latheran Pastor.

"I Can't See"

As well as I could, is the complaint you hear, not only from older people but from the young as well. Age is no criterion for the wearing of glasses. Many are born with greater detects then come with age. Young people inherit and cultivate defects by strain or abuse. Young, old or middle-aged, if you are not getting the service from your eyes that you think you should, you ought certainly ascertain the nature of your

The Dalles, Or., June 9, '98. Prof. P. G. Daut,

Dear Sir: It affords me the greatest of pleasures to inform you that the glasses which you fitted to my eyes are giving perfect satisfaction. I have not known for several years the pleasure of being able to see objects distinctly until I began to use your lenses. Thanking you for your kindness, I remain

Respectfully yours, A. E. Negus.

The Dalles, Or., April 14, '98. I wish to add my testimony, and will cluded to call on Prof. Daut, the opti-ay to those concerned that my daughsay to those concerned that my daughter had been troubled with her eyes for if I followed his instructions he could be past few years, and had been fitted bring my eyes out all O. K. I finally by different so called doctors with bluetint glasses, her eyes getting constantly with his lenses, I am able to read my tint glasses, her eyes getting constantly worse until she was compelled to wear glass at all times. I finally called on Prof. P. G. Daut, the optician, and he fitted her, saying that she must only not say wear them half the time and while read-tician. wear them half the time and while read-ing or studying. His directions were eyes will do well to see him. followed, and now she only wears them a few hours each day and her eyes look natural. The vision is good again. The professor can handle a child better than any optician I have ever seen, and I can recommend him to any parent whose children's eyes are effected.

Respectfully, Mrs. Anna Nichols.

kour Mind's Eye

heartily recommend him to any one free. needing work in his line to be a careful and competent workmen. William Menefee,

Your Own Judgment.

If your horse needs a shoe-to a horseshoeing shop.

If you need a suit of clothes-

tailor or clothier.
If you need dental work—to a dentist. If you need medical attendance-to a

physician.

If you need your eyes attended to, go to an optician for lenses.

Don't go to a man who has read all that he knows out of a book. No man can learn by books alone; it takes practical experience, and Prof. P. G. Daut has had both. He guarantees satisfactory results in all cases.

The Dalles, Oregon, April 23, '98.

Dear Sir: For the past eight years my eyes have been failing me, especially left eye, having run a cornstalk in it

on Daut, the optician, for a remedy for a failure in my eyesight, caused from intense heat and bright light from the fire box of a locomotive. After having my eyes fitted with lenses, in less than one month I could notice a wonderful improvement. month I could notice a wonderful im-provement in my eyesight. M. M. Sayre.

Wrong About Your Eyes.

You have been wrong in thinking you ought to put off wearing glasses as long as possible. This very thing is responsible for so many eye troubles. All eyes be-gin to fail at forty years of age; some gin to fail at forty years of age; some more than others, and when complicated with incorrected defects, failure begins much sooner. A correction at the right time will save your eyes. Neglect is bound to injure them. Attend to them

The Dalles, Or., Aug. 26, '98. Prof. F. G, Daut:

Respectfully yours, Miss Nora Turner.

in very few cases as much, because my lenses are absolutely correct. I don't fit by guesswork. I have been properly taught, besides having had the detective glasses which I was wear-ing at the time. Mr. Daut fitted me with lenses which have given perfect

Looking Into the Future.

I venture to predict to a certainty that ome day you will have to wear glasses.

The eye is a window of your sook; don't try to make yourself don't abuse and strain it. Treat it as are when they are not. If you should and cave money and eyes for will be a day of judgment.

The Dalles, Or., May 16, '98. I have bought glasses for about ten years from different ones; but the lenses I had made by Prof. P. G. Daut, the optician, are without doubt the best I have eyer had. His glasses have improved my eyes wonderfully. I can recommend him as an honorable optician, and a man who deserves to be classed among the best refractionists and eye The need of having glasses that fit the eye like a coat fits the back; the specialists. With best wishes, I am Yours to serve. C. Berry.

The Dalles, Or., May 29, '98. The glasses which I had fitted to n eyes by Prof. P. G. Daut, the optician, are giving perfect satisfaction and I can recommend him to anyone needing anything in the optical line. August Buchler,

Prop. of Columbia Brewery. The Dalles, Or. Sept. 8, '98.

To whom it may concern:
This is to certify that Prof. Dant has

fitted my daughter with glasses, which been wearing for six months, and they give perfect satisfaction. She has been fitted before by some of the leading opticians but never could see as well as now with the glasses furnished by Prof. Daut. He has done other work in my family (fitted my wife and myself with glasses) which give the best of satsfaction, and I can heartily recommend him to any one wishing work in this line. In the case of my daughter, would say, that she was unable to recognize people across the Congregational church with any glasses she had previous to the ones furnished by Prof. Dant, but can C. B. Cushing.

HOW THE CHILD SUFFERS. Should Have a Thorough Examination

Speaking on the subject of children's eyes: A great many children are sent to school with eye defects which demand great expenditure of nervous forces in order for them to keep up with those

natural eyes.

The same children are often c'assed as idle or stupid, when in reality their mental condition may be just as keen as their classmates, the failure to keep pace being entirely due to defective vision. In some cases by virtue of great persistence, they succeed in keeping abreast of their more fortunate com-panions; but this task is accomplished at the expense of vital energies which often lays the foundation of future disease. It is not uncommon and cer-

that attend our public schools if the board of education would enact a regulation which would require a certifi from some competent doctor of refrac-tion, one who has graduated from some good optical college or school, who had

tion and might possibly defeat the very end it was intended to accomplish. A careful study of the subject of children's gladly furnish charts and instructions to find out the errors of each pupil's eyes, which might lead to the discovery why pupils have been kehind in their

HER LAST RESTING PLACE

Funeral of the Murdered Empress of Austria.

VIENNA, Sept. 17 .- Emperor Francis Joseph this morning received the special representatives of the foreign sovereigns. An hour later he received the visiting sovereigns, with the exception of the king of Saxony.

The emperor, Prince Hohenlohe, the German imperial chancellor, and Baron von Buelow, received Emperor William at the rallroad station. The emperors shook hands and kissed each other's cheeks three times. They then proceeded to the church where Emperor William, in behalf of himself and the empress of Germany, deposited on the casket containing the remains of the late empress a floral wreath which his majesty had brought from Germany. The emperor dined at the German embassy after the funeral, and started for

Berlin this evening. Great torches threw glaring flames over the royal chapel in which the remains of the late empress have lain in state since yesterday morning. The doors of the chapel were closed at noon, thus barring thousands of people who

were anxious to see the casket. At 4 o'clock tolling of bells announced tainly not improper to have the first teeth of children four of five years of age filled instead of extracted; while the eye, the most intellectual, the most appropriate and the west discontinuous and the west ents that the principal agent in requir- streets. A detachment of cavalry led ing an education is the eye. The child the procession. Then came carriages drawn by six horses, covered with funeral trappings, escorted by footmen. A train of servants followed, and then sighted or far sighted, whether it be came footguards and a squadron of horseguards, followed by a detachment of yeomen, gorgeously uniformed, preceding the funeral car. Following the car were several bodies of infantry and cav-

A large number of priests met the procession at Augustus church and proceeded with it to Capuchins. The clergy united in atoning prayers, which were also exquisitely chanted during the services by the court choir.

During the last prayer, the coffin was lifted from the catafalque and clergy bearing torches walked before it. Emperor Francis Joseph, attended by the highest officers of state bearing wands, the stone stariway to the vault.

ERUPTION OF VESUVIUS.

Increased Activity of the Volcano Frightens Neapolitans.
