Telephone No. 1.

### LOCAL BREVITIES.

Wednesday's Daily.

Today the Oregon Telephone Company let the contract for delivering the poles for their line from The Dalles to Tygh Valley, to Peter Godfrey.

You need make no arrangements to procure turkeys and chickens for Thanksgiving dinner, as the ladies of the Catholic church will have them on sale at their bazaar.

Uncle Sam today adopted a son in the person of Ludwig Maier, a German by birth. Those German boys always make good citizens, and Uncle Sam has an eye to business when he adopts them.

Albert J. Frye, engineer for the Pacific Bridge Co., is up from Portland arranging to have work begun immediately laying the new water mains in the city. The foreman will arrive this evening and tomorrow the job will be begun according to the contract let. It will require a month or six weeks in which to complete the work.

The Dalles has a new male quartet, which was organized last Saturday evening at Prof. Lundell's studio, and is composed of the following members; M. V. Phelps, first tenor; J. S. Landers, second tenor; Rev. D. V. Polling, first bass; Prof. A. W. Lundell, second base. It will be known as the Columbia Quartet of The Dalles. Prof. A. W. Lundell is director and J. S. Landers manager. These gentlemen are each known to be good musicians, with fine voices, and the Dalles is fortunate in having such an organization in her midst.

Even the Mormons know a good thing when they see it, and have therefore purchased a half section of sugar beet land near La Grande; also 500 acres near the Pierce tract, and other realty, making a total of \$40,000 worth. They have platted the land, surveyed a street through the center of the entire tract, and divided the land into 40-acre lots. A Mormon family will be placed on each 40-acre tract. Next spring they will put in a large department store and settle a colony of Latter-Day Saints there. Presumably a goodly number of polygamists will be among them, which will be encouraging to many lone women who are now resorting to newspaper advertising to secure some one to support.

Thursday's Daily.

This morning about 11:30, three special cars, occupied by officials of the O. R. & N., O. S. L. and U. P., passed through the city east-bound.

At Tuesday's election in Multnomah county Dr. S. E. Joseph, Republican candidate for state senator, was elected to succeed Hon. Joseph Simon in the state senate. Although the vote was light, being less than half of what it

was at the general election in June, the result shows that the Republicans of Multnomah county are still very much alive. Out of a total of 7733 votes cast, Dr. Joseph obtained 4646, a majority of 1559 over all of his competitors.

The boys are busily engaged in practicing their turn for the Catholic bazaar. Four will take part in the turn, which is to be extra good. This will assure the ladies a crowded house, not mentioning other excellent features of the program.

What is commonly known as the Palouse section of Washington, claims to be the banner wheat raising country of the world. Within a radius of six miles a crop to the amount of 2,000,000 bushels was raised, and harvested this year. The record is a good one and hard to beat.

The "Pulse of New York" Company, which was billed to appear in the Vogt on the 21st of this month, has changed its date until the 5th of December. We had hoped to have the Bittner company with us soon, but Manager Kinerly has had no word from them recently and they are now playing in the Kootenai country.

Today has been one of those days that "must be dark and dreary." It rained and the wind was never weary. But we have no complaint to make unless it is that it didn't rain enough. Yesterday the fall was .10 of an inch; today it has been much less. However, it is to be hoped that it has been more plentiful in the country surrounding us.

The will of Hampton Kelly, who died on Juniper Flat, October 16th, was filed for probate in the county clerk's office yesterday in Portland. He bequeaths all of his personal property and real estate to his wife and children, with the exception of \$400 to Helen O. Manly, a span of horses to Delward Lloyd Truman, and the use of certain property to the Methodist Episcopal church.

A number of changes are being made in the agents of the O. R. & N. company at different stations along the line. J. A. Walden, who has acted as night operator here during the absence of I. H. Keffer, has been appointed agent at Tekoa to relieve J. E. Crane, who goes to Arlington, F. C. Hindle, who has been agent at the latter place having been appointed to fill a vacant place at Dayton, Wash.

This morning twenty-one members of Wasco tribe, I. O. R. M., left by boat to attend the funeral of James Roberts, which occurred at Hood River this afternoon. He was a member of the order in California and was also a Past Sachem. At such a time the brotherhood of the various orders is shown to be genuine, for whether it be a personal friend or one who is only known as a fellow brother, the same respect is shown and the same offices performed.

Incorporation papers of the Columbia & Klickitat Railway Company have been filed in the secretary of state's office. The capital is \$300,000, and the incorporators are E. E. Lytle, D. C. O'Reilly and A. E. Hammond. The office will be located at Wasco, Sherman county. The purpose of the corporation is to construct and equip a railway and telegraph line from a point on the Columbia river at or near Lyle, Klickitat county, Washington, to Goldendale in the same county; to consolidate with, lease or operate any road or roads in Oregon or Washington; to facilitate the construction and equipment of any railroad or steamship line in either state, and to do a general railroad business.

Friday's Daily.

John Brogan of Antelope, was made a citizen of the United States this morning.

Nineteen of Oregon's volunteers have now died at Manila; the last one being Chas. N. Harn, whose home was near Eugene.

Mr. Brooks informs us that up till noon today we have had .65 of an inch rainfall, and from reports it is general throughout the country.

The Dalles is to have entertainments galore in the near future. Mr. Kinerly informs us that "Hi Henry's Great Minstrels" will be here some time during the first week of next month.

The Elks have secured the famous orator, D. Solis Cohen, to deliver the eulogy at their memorial exercises on the first Sunday of next month. Certainly the hall will not contain the audience on this occasion, for beside hearing Mr. Cohen the services are beautiful and impressive.

W. A. Shinglerland butchered three hogs last week that weighed 980 pounds. There is nothing remarkable in that statement, but the hogs were grown and fattened on prunes. Three weeks before killing they were fed on shorts. The time has come when Hood River can fatten pork without relying on high-priced feed from a distance.—Glacier.

Del Norte, the famous guideless pacer, with a record of 2:04½, is in this city, where he will probably be kept during the winter. Barrows Bros., the owners, have about decided to remain with him at the capital city until the coming spring. He is quartered at White & Wait's stable in the rear of the old post-office block, on Ferry street.—Salem Statesman.

For weeks, yea months, we have had occasion to mention the "hull" of the Regulator, and it now becomes our duty to add the stereotyped expression "as we go to press," for at that time the Reg. was putting on her hull new riggin'. She looks more natural than she ever has as she stands on her stilts getting ready before "she starts, she stirs, she moves." Tomorrow will see her togged in her new suit of clothes.

Last night Mr. J. T. Peters' horse, which was kept in his stable at the East End, broke down the door and running into a projecting timber injured himself so badly that he died this morning. The horse was a valuable one, and one which his owner regrets parting with. James Blakeney also had the misfortune to lose one of his horses last night. The animal had been sick for a week past and last night went to horse's heaven.

Last night just after the boat arrived there was an "Angel hovering round," and when some men were about to move a wagon onto the dock, he was requested to fly away. Being somewhat rattled he forgot his wings and stepping aside fell into the river. The water was but a few feet deep, and by clinging to one of the piles he kept his feet until he could receive assistance. Mr. Angel got pretty well ducked, and to prevent further baptisms the gates on the sides of the plank have been nailed on.

Father Dilman, who has been in this city during the past week visiting old friends and scenes, returned to Astoria today. He was formerly well known and beloved in The Dalles, having had charge of the Catholic church in this city in '63 and '64. For two years he was stationed at Canyon City, afterward going to Astoria, where he has since

remained. The few days spent here have been very pleasant ones both for the Father and his old friends, who were pleased to meet him again.

It Raineth and All Are Happy.

So welcome was the shower this morning that not a single individual was heard to remark "Rain, rain go away," for Johnnie is perfectly willing to postpone his play indefinitely for the sake of listening to the pattering of the rain upon the roof; but more particularly on the parched earth. Even the workmen, who have been endeavoring to get the work on the new buildings in such a shape that the coming showers would not affect them, would not deign to raise their voices in complaint; nor have we yet heard a murmur from a young lady in reference to new hats or bangs.

All are content, and especially the farmer, for from reports the shower has extended into the country, where it is sadly needed. The petition that goes up now is that it may rain supreme and continue to do so until its effects are felt far and near. A bill has also been introduced praying that the weather remain warm and that frost be prohibited so that the most good may come from the shower.

Court Notes.

Circuit court has not been very lively today, as the attorneys seemed slow in preparing their cases, causing the judge to remind them that he was there for business.

David Patterson, Jr., who was charged with burglary, has entered a plea of not guilty, and W. H. Wilson was appointed to defend him.

This morning Thomas Riley, charged with larceny of steel traps from Mays & Crowe, plead guilty. His case was before the court this afternoon and will go to the jury this evening. J. F. Moore represented the defendant.

The grand jury returned a true bill against N. B. Myers, charged with larceny, and R. B. Sinnott was appointed by the court to appear in his defense.

The case of the State vs. William Daly, charged with burglary committed on June 29th, when Chrisman's slaughter house was broken into and several sheep pelts were stolen, was before the court this morning. N. Gates appeared for the defendant. No decision has as yet been reached.

The attention of the court was occupied almost the entire day in the hearing of the case of John Dee, vs. W. D. Jones. At the time of going to press the case was submitted to the jury.

The grand jury today brought in two indictments. One against David Patterson, Jr., for burglary. The other against Thomas Riley for larceny in a store.

What They Are Doing in Court.

The grand jury brought in a true bill against Wm. Rolfe, charged with assault and a dangerous weapon. Rolfe took a shot at C. B. Reese at Antelope last spring.

In the case of Jas. Stegman, charged with maliciously killing a horse, the grand jury returned not a true bill.

The jury in the case of the State vs. Thos. Riley, brought in a verdict of guilty as charged.

Edward Keith, indicted for larceny, plead guilty and was sentenced to one year in the penitentiary.

In the case of N. B. Myers, charged with larceny in a dwelling, is occupying the attention of the court this afternoon. Prosecuting Attorney Jayns appeared for the state and Sinnott & Sinnott for the defendant.

When you ask for De Witt's Witch Hazel Salve don't accept a counterfeit or imitation. There are more cases of piles being cured by this than all others combined.

A word said to be of Persian origin. It was in former times the most venerated of those magical formulas that were constructed out of the alphabet. Sereus Samonides gives the following directions for its use: Write the letters of the word so as to form a triangle (as above) capable of being read in many ways, on a square piece of paper. Fold the paper in such a way as to conceal the writing, and stitch into the form of a cross with white thread. This amulet wear in the bosom, suspended by a linen ribbon; for nine days; then go in dead silence, before sunrise, to the banks of a stream that flows eastward, take the amulet from off the neck and fling it backwards into the water. If you open or read it the charm is destroyed. All who conscientiously do this may be sure of getting the following low prices on shoes at Pease & Mays: Men's calf lace, broad toe, for \$1.50; Ladies' hand-turn, square toe, button, for \$2.00; Ladies' glove grain, button, for 75c; Misses' patent leather, kid tops, for \$1; Child's calf, heel shoes, lace, for 50c.

### OUR BOYS MUST STAY.

No Immediate Prospects of Their Return From Manila.

It was hoped that some arrangements would be made whereby Oregon's soldier boys might soon return home. However, neither those who have enlisted nor their friends would ask for their recall if their services are yet needed, for did they not enlist with the understanding that they belonged to their country to be used for the maintenance of its principles and to uphold its honor?

The following dispatch puts a quietus on any hopes which might have been entertained as to their speedy return to home and friends:

Washington, Nov 14.—Adjutant-Gen. Corbin said today, when asked if there was any prospect of the early return of the Oregon volunteers, that there is not at present; and that there are no regiments now available to take their place. There has of late been a strong demand to have the volunteers at Manila brought back to this country, but all such requests had to be refused, pending the peace negotiations. If it is determined in the end to maintain a garrison at Manila, congress will have to provide regular troops to replace the volunteers, all of whom are anxious to return to their country.

While relatives and friends of those who are to be held at Manila do not ask for their return unless their stay there is deemed unnecessary, yet they do ask, and it should be demanded by our governor, that they be treated as human beings. While reports are conflicting concerning their treatment, enough has been written to assure us that the government or its officers are remiss in duty; and to such a degree that their slackness becomes criminal. The very fact that the men have been denied that which rightly belonged to them, or required to purchase what had already been given them, is proof sufficient; but such extracts as the following, taken from letters written by men whose statements we cannot deny, make even those who have no loved ones who are compelled to stand such treatment, fairly wild, or almost determined to snatch them as brands from the burning. One letter says:

"Of the quarters provided us, you cannot depict the horrors of our present ones. We are quartered in an old Spanish building, the closet of which is in the same room. The sewerage is defective, and the stench which arises from this cesspool of disease, is beyond description. There is no smell in America equal to it. To reach the closet proper, we have to wade through human offal, thus laying the foundation for the fevers which are prevalent, and generally ending in death. We are forced to sleep in this loathsome atmosphere, and if we were not the strong, healthy men that we are, could not stand it. As it is, we arise in the morning with headaches and sick stomachs. No wonder our hospitals are full. Could this be remedied? Of course it could; but the officers only laugh and do nothing."

How much can be gleaned by reading between the few lines of the following: "Please excuse this scratching, as five months in the army does not improve a man's handwriting, especially when he is eating government grub. It is near supper-time now, and the chef is announcing the ten-course bill of fare."

If they must remain, can we not demand that they must have proper treatment.

REMOVE THE OBSTRUCTIONS.

Astoria Is Awake to the Interest of Our State and Demands an Open River.

At a meeting of the Astoria Chamber of Commerce Monday evening, the following resolutions were adopted, which are of great interest to the people of Eastern Oregon:

"The joint committee of the Astoria Progressive Commercial Association and the Astoria Chamber of Commerce report the following resolutions for adoption by their respective bodies:

"Resolved: That the phenomenal development of the Columbia river valley within the states of Oregon, Washington and Idaho, and the rapid growth of the coast and ocean commerce of the Pacific states, require the removal of all obstructions to free and easy navigation of said river from its head of navigation to the sea.

"Resolved, That the government of United States should take prompt ac-

tion to secure the early removal of said obstructions to free and easy navigation.

Resolved, That the government of the United States should make adequate appropriations, in accordance with the report of its engineers, for the early completion of the ship railway, to be built within the state of Oregon from Celilo to The Dalles, for which \$250,000 have been appropriated, as this single improvement when finished, will permit continuous navigation of the Columbia and Snake rivers from Priest rapids and Lawlston to the sea.

"Resolved, That the government of the United States should afford the commerce of said river temporary and immediate relief, in accordance with the recommendations of its engineers, by constructing a portage railway between Celilo and The Dalles; and, if practicable, so locate and build the said portage railway that it may be operated during the construction of the said ship railway and finally adopted as a part thereof.

"Resolved, That the efforts of the United States government in promoting the commerce of the Columbia river should be continually directed and applied in the construction of the aforesaid portage railway and ship railway until the same are completed.

"Resolved, That a copy of these resolutions be sent to the Oregon congressional delegation, urging them to take all proper steps to secure the early completion of the improvements that are referred to in these resolutions."

It was also recommended that an open river convention of the citizens of Oregon and Washington, to be held in some convenient city in Eastern Oregon, early in December of this year; and further suggested that the secretary be instructed to correspond with commercial bodies tributary to the Columbia river to the end that unanimity of action be secured.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c. 6-10.

The Fairview school district, No. 25, will give an entertainment at the school house, Thanksgiving eve, Nov. 23. After the literary exercises, the ladies of the district will serve refreshments. The object in giving this entertainment is to raise funds for a school library and an admission fee of twenty-five cents will be charged, small children free. All are cordially invited to attend.

An Important Difference.

To make it apparent to thousands, who think themselves ill, that they are not afflicted with any disease, but that the system simply needs cleansing, is to bring comfort home to their hearts, as a costive condition is easily cured by using Syrup of Figs. Manufactured by the California Fig Syrup Co. only and, sold by all druggists.

For the best results use the Vibe Camera. For sale by the Postoffice Pharmacy.

**\$1000 REWARD ! !**

For the arrest, dead or alive, of Frank Forester, who killed Phil Brogan at Antelope, Or., Saturday evening, Nov. 5. \$400 of this reward is offered by the county court of Wasco county, \$100 by the sheriff of Wasco county and \$500 by the citizens of Antelope. Forester is 35 or 40 years of age, about 6 feet 2 inches high, slightly stooped, walks with a swinging gait; blue eyes, dark hair and heavy sandy mustache.

A. M. KELSEY,  
County Clerk.

**Clearance Sale of Bicycles.**
