AMERICAN DESTINY.

The Berlin papers see the destiny of the United States in clearer light than some Americans. "One good feature of the present foreign policy of the United States," says the Berlin Post, "cannot be 'lenied, namely: The marching forward, careless of what other powers say. The framers activity that those of other countries expansion is the effort to get com- new states. mand of the future commercial highways of the world." The Post ad mits that the later steps in this program have taken the world by surprise, and predicts that further surprises are in store.

Benjamin Kidd, the celebrated English economist, in an article in the December Atlantic, calls the attention of Europe to what struck him a people's faith. In traveling through United States, he found the question of annexation or control of the Philip- have been developed. pines under discussion everywhere. favored the annexation of the Philip pines the answer was, Because we and duty we must hold them. They in detail. They simply put the ques wion of their faith.

every grade of social life and in the expansion policy from 1783 down every phase of political excitement to the present has been of advantage and development. He warns England to the Atlantic states. Eastern men destiny of the nation is a most potent factor in the development of the when a people have decided in their own section. own minds that there is a great destiny before their country the nation itself will be propelled irresistibly along the line marked out. He found the western people not disposed to criticise, not inclined to split hairs or quibble, but ready on every occasion to put in words their faith in the greater future of their country.

President McKinley found this same strong faith, this same courage, this unwavering belief in a great destiny when he made his western tour. The Germans in Berlin, the Russians in St. Petersburg, the Englishmen in London, the Frenchmen in Paris, are discovering the same element of strength. It is not only that is going forward; it is the American people, resolute and progressive, believing in their destiny.

This is the result of an investigation in America by one of the most observant of English publicists and writers, and his observations are in accord with those of men who have had opportunity of meeting the people face to face. We are going forward to the control of the West Indies, to the control of the Philippines, to the control of the Pacific, to a wider sphere of action, because it is our destiny .- Inter-Ocean.

make a fight on the annexation clauses of the treaty of peace the friends of expansion must rally to the support of the treaty. A dozen or more United States senators are to be elected within the next two months. The successor to Turple in Indiana, to Allen in Nebraska, to Mitchell in Wisconsin, and the successors to Democrats in other states where senators are to be elected should be expansionists and protectionists. If this is to be the great question before the senate let the friends of expansion prepare to meet the issue squarely. Members of the several legislatures know how their the administration or the government constituents feel, and they should send to the United States senate no man not in accord with popular senti-

M'KINLEY'S FINANCIAL POLICY

Speculation has long been rife regarding the president's financial policy. The champions of the Mc-Cleary bill have argued that he would urge congress to pass it. Even after Comptroller Dawes'-report was published they clung to the hope that he would lend the prestige of his name to their scheme of currency reform, question has been ripening for many at present, being confined at home with but he has not done so. He has years and it is now ripe enough to asked congress definitely to make but command attention. one change in our monetary legislation, and it is a change that has noth-Senator Hale and other public ing whatever to do with bank bills. men of New England seem inclined His recommendation can be followed to force the fighting on the treaty of without any radical alteration in our peace with Spain. THE WATER QUESTION.

Why There Was Not Water, Water Everywhere This Morning.

Some of the residents on the hill this morning found themselves without water ritory west of the Mississippi, and tion in this respect in favor of the for domestic purposes, and the reports which began to fly around promiscuously as to the length of time which would lapse before it would again be turned on caused quite a sensation. The truth and some of them, like Senator Hale, compelling the note-holder to accept of the matter was that the workmen on are now violently opposed to further silver, and thus the country would the mains had been compelled to cut the pipe and put in a temporary gate just above Ninth street, which was the

Later in the morning it became necessary to close the main gate at the because they believed it never could guage, "when any of the United reservoir on account of difficulty with a gate on the alley between Fifth and Sixth streets, which leaked and prevented work on the pipes. It was intensely amusing to watch the proceedcivilization pushing westward. When set apart and only paid out in ex- ings for about an hour and a half over of this policy are displaying such the "desert" had been crossed and change for gold." It is not to be un- the city, as, armed with a kettle of boiling water, and with blood also boiling for fear of a plumber's bill, one after another started to thaw out the pipes at the same time ejaculating, "Didn't I tell you to let this water run? Now its frozen!" But in vain did the hot water fall on its back, for the streams had as little effect as water on a duck's back.

Inquiry has developed the fact that Those above Ninth will be supplied from the large reservoir by mains extending would be effectually removed, with. Seventh will get their supply from the

Arrangements have been so made that at no time will the city be without water, unless it might be for a very short time on account of some unforseen cause. The contractor is doing his best in the matter and we should not complain if we are inconvenienced slightly, when we remember that it is quavoidable and the great good that will come to the city by the renewed supply.

It was most interesting this morning to watch the work as it progressed on Union street, where here and there were seen fires built along the trenches in order to melt the lead so that the old pipes might be removed and the new ones put in, three of which it requires

The Grand Valley on the Colorado Midland Railway.

THE COMMERCIAL CLUB. Flourishing Condition of This Organization--What It Does For Us.

Nothing which has ever started in The

Dalles along social lines and tending to build up the city and its interests has so accomplished the end desired as the Commercial and Athletic Club. Three years ago we had no organization where might be discussed any measure relating to the welfare of our city or which could be called the headquarters for all such movements. Beside, there was not s rendezvous for our young men not a place where the hours could be whiled away latest magazines and the best of literature. Worse than this, when strangers for entertainment and where could be and then became aware of occu At that time it was decided to fill this

want by starting a club, and one hundred in \$10 each, the monthly dues being purpose for which It was organized, The Dalles Commercial and Athletic Club, and such it has proven. The upper floor of the old Grant building, on the corner of First and Washington street, was leased and fitted up very comfortably, which answered the purpose for a little over a year, when it was found was also added and the entire building transformed into club rooms, which not only equal any in the state, but surpass Letters received from Mrs. Smith most of them and are an ornament to French at Portland, announce that Dr. the city and the pride of every member. Now when visitors come to our city the and if any special entertainment is necessary the club furnishes it. Beside, what a fund of pleasure it furnishes for the residents of The Dalles, who spend so many hours within its walls.

> Last evening their annual meeting was held, and the reports for the past year were extremely encouraging. The secretary announced that whereas they were over three thousand dollars in debt at the beginning of the year, they were now owing but about \$500, and that in every respect the organization was in a very flattering condition.

Election of a board of directors proved that the former board had given entire satisfaction, and, although they protested claiming that others could much better fill their places, they were 1eelected as follows: G. C. Blakeley, H. will be received for any part or whole of M. Beall, W. L. Bradshaw, W. H. Wil- this property by the undersigned on Dec. son, E. C. Pease, R. B. Sinnott and J. F. 1, 1898, the property to be removed Hampshire. Three of these, W. H. from the grounds by January 1, 1899. Wilson, E. C. Pease and R. B. Sinnott Right reserved to refuse any or all bids. have acted as members of the board since the club was organized. The board has the power to appoint their own officers, who will be announced

Taken all in all, every citizen whether a member or not, is proud of our club.

A Cure for Love.

handed us for publication, by a young monia. This same treatment will-cure number have they fought the hery man who has so successfully tried the a lame back in a few hours. Sold by

"Take 12 ounces dislike, 1 pound of resolution, 2 grains of common sense, 2 time and three quarts of the cooling sugar of forgetfulness, skim it with the spoon of melancholy, put it in the bottom of your heart, cork it with the cork of clear conscience and let it remain and you will quickly find ease and be restored to your senses again.

These things can be had of the draggist, at the house of understanding, next door to reason, on Prudence street, in the village of Contentment. Take when spell comes on." We would add. shake well before taking.

It might be a deed of charity to refer the above to the Walla Walla couple to whom the following article, taken from the Statesman, has reference:

A few nights ago a well known hotel proprietor being on the parlor floor of his hotel noticed a strong smell of esin games or be spent in perusing the caping gas. After a short search he traced the escaping gas to the parlor. The parlor was dark and the fumes of gas were almost suffocating. He raised visited us we had no place to take them a window, turned off the escaping gas, met the leading citizens and a few hours in the room. Going to the sofa he be spent in civing them an idea of the and the rest of Europe that this belief of the American people in the
leaders in extending American inleaders in extending American inle the neck to the open window and soon revived. The hotel man warned them never again to take such a big dose of have at length found their way to a crop is 1000 carloads, estimated as worth charter members were secured, who put love at one time or it would surely, on in \$10 each, the monthly dues being couple when they went into the room placed at \$1.50. The name signified the blew out the gas with the result as the second dose, have worse effects. above stated.

Two Pointed Questions Answered.

What is the use of making a better article than your competitor if you can not get a better price for it?

Ans .- As there is no difference in the wholly inadequate and the lower floor price the public will buy only the better, so that while our profits may be smaller on a single scale they will be much greater in the aggregate.

How can you get the public to know your make is the best?

If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable, and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy. For sale by Blakeley & Houghton.

For Sale.
