is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the California Fig Syrup Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the California Fig Syrup Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other pes ties. The high standing of the CALI-PORNIA F19 SYNUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company -

The fact of the Gunford being the only four-masted vessel due to arrive here at this time adds considerable color to the belief that she is the ill-fated vessel.

The Gunford left San Diego for Portland, January 4, with a half cargo of cement, consigned to Meyer, Wilson & Co., of this city, and who are also agents for the vessel. The cargo comes from Hamburg, haif of it having been discharged at San Diego.

The Gunford is of 2108 tons net registered tonnage, was built in Greenwich in 1892, and is owned by the Gunford Ship Company, Ld. Her dimensions are, 281 feet length, 42 feet beam, and 24 feet depth of hold.

He expects to make a tour of the wilderness. In fact you will find men here to whom, at their homes, you would hardly give a passing thought. Not that they are of any considerale consequence in this mix-up, but the general bustle they assume and the mysterious manner they surround themselves with has its impressive effect. Besides that they aid in putting a few dollars into circulation-no matter where they get it-and that is not an unmixed evil.

But so long as aspiring candidates for positions like the United States senate will persist in surrounding themselves with every small-fry politician, whose influence is the merest pretense, so long will these touts be in evidence. Olympia is full of them. Each of the several headquarters are surrounded. If one takes occasion to speak to Tom Hume, Wilson knows about it through his tonts in five minutes afterward. And

From present indications Ankeny or Wilson will be the next senator.
