There is often a foul taste in the mouth coated tongue and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure of this common and obstinate trouble is found in a treatment which causes the food to be readily thoroughly digested before it can to ferment and irritate the delicate mucus surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do, and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harlanson the safest and best treatment is to use after each meal a tablet, composed of Diatase, Aseptic Pepsin, a little Nux, Golden Seal and truit scids. These tablets can now be found at all drugstores under the name of Stuart's Dyspepsia Tablets, and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will certainly follow their regular use after meals.

Mr. N. J. Boober, of 2710 Dearborn street, Chicago, Ill., writes: "Catarrh is a local condition resulting rom a neglected cold in the head, whereby the lining membranes of the nose become inflamed and the poisonous discharge therefrom passing backward into the throat reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years for catarrh of the stomach without cure, but today I am the happiest of men after using only one box of Stnart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling. I have found flesh, appetite and sound rest from their use."

Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indigestion, catarrh of the stomach, billiousness, sour stomach, heartburn and bloating after meals.
