of a foreigner as to how many states there are in the union, the Salt Lake Tribune says: "Forty five states and minister to Peru. some territories; they fill all the space between the two great oceans, coast men have taken and are taking and at one bogie call last summer in in our diplomatic and consular every one, soldiers fel! into line; the service in the Orient accounts largely all speak one language, all sing the trade with the Asiatic countries. same song; all turn for inspiration to the same flag; and though each is a separate wave, when blended they make but one ocean, and when in full roar the shores of the nation are shaken, for in majesty, in latent power, in unapproachable splendor, there is no counterpart for them in all the records of the nations that have existed, since nations were first organized on earth."

Dr. O'Neil, of Philadelphia, it is thought, has made a great discovery in a cure for that dreaded and prevalent disease, consumption. Consumption, as is shown by statistics, destroys 102,000 American lives annually. The disease kills about seven times as many people every year as yellow fever ever swept out of existence in any year. Dr. O'Neil, at the Franklin Institute in Philadelphia, is showing to the medical world that a process of light, electricfty and ozone, applied directly and powerfully to the patient, destroys the germs of the disease and repairs the waste in life. In other words, there is produced artificially and in intenser forms precisely those conditions that in nature have been found remedial-those that are sought by the afflicted in mountain resort and sanitariums in all lands. The results of the experiments at the Franklin Institute seem clearly to justify the hope at least that science is presently to be armed anew against the most deadly and awful of all diseases.

A YEAR OF GREAT EVENTS.

Within the twelve month period which is now closing the United States has filled a large place in the politics of the world. It was just a year ago within a few days (April 19) that congress adopted the reso lutions directing the president to use the naval and military forces of the United States to drive the Span-lards out of Cuba if Spain should refuse to withdraw voluntarily from that island. Two days later, or a that island. Two days later, or a year from today, the war officially began. No one in the United States or anywhere else supposed at that time that the setual fighting, which lasted only 113 days, would end so quickly. No one, of course, doubted that the United States would be the victor ultimately, but everybody, on this side of the Atlantic as well as on the other, believed that the struggle would last longer than that. Although the country was sunprepared for war, its long period of peace having banished the ides that that condition would ever be interrupted for us again, it displayed an energy, a versatility and a strength which were a surprise to the world. These aroused a respect for the country among the great nations of the world which has been shown constantly since then in the consideration which is given to the opinions and wishes of the United States.

In two particulars the effect of the Spanish war constitutes a great epoch in the life of this country. It has removed forever a source of irritation which has embarrassed the The appointment of ex-Governor country at frequent intervals ever

EXPANSION.

Met a feller t'other mornin'—
Most amusin' sort o' cuss;
Hed a cur'us style about him—
Cert't'y could'nt well be wuss.
I says: "Where you hall f'm pardner?"
An' he smiles in knowin' way,
An' repties in forren lingo:
"Porto Rico, U. S. A."

Seen a feller down on Broadway,
With a shockin' head o' hair.
An' a lot o' tropic garments
An' a most outlandish air.
"Whur's he from?" a feller shouted.
But before we'd time to say,
This yere heathen turned an' answered:
"Honolulu, U. S. A."

Met a feller yere on Olive,

Seen a feller at the Southern,
With a heavy iron box;
Had a top coat lined with bearskin.
Wore a dozen pair o' socks.
Sized him up to be a miner.
Judgin' by his awk'ard way;
Seen him write in big cha-rac-ters;
"Circle City, U. S. A.

Seen a saddle-colored heathen,
Wearin' earings in his nose;
Linen caffs around his ankles;
Most indecent lack of clothes.
"Where'd this heathen guy spring frum?"
I inquired in lofty way;
An' he had the nerve to answer:
"Frum Manila, U. S. A.

"Gee!" I says, "I never heard of These yere cannybuis before!" Air these heathens to be voters? Will ye stan' fur any more? Next you know, you ask a feller Where he's frum, and he will say, With a lordly kind o' flourish; "All Creation, U. S. A."

While we don't make much pretension
In our quiet sort o' way,
Still we like that last short sentence—
Fits us to a t.y-tay.
So we keep a spreadin' outward—
Say "expandin," if we may—
Till some day you'll see our Planos
In "All Creation, U. S. A."

One of our expanders, Mr. E. Jacob-

sen, will "do the act" in The Dalles all with these gods of liberty, as they next week. We hope every householder will assist in the performance, as we are most extravagent promises, when he offers you the finest pisnos in "All Creation, U. S. A., or any other seaport.

Aermotor Windmills.

We have lately taken the agency for the Aermoter Windmill, and carry a stock on hand.

We also carry a complete stock stock of Deep and Shallow Well Pumps, as well as Pitcher Spout and Spray Pumps. See us before buying elsewhere.

The Aermotor Mill is considered the best ma-chine on the market. Call and see it.

HE DEMMING

Anti Freezing Windmill Force Pumps.

This pump has been perfected to meet the requirements of the principal Windmill manufacturers in the United States, for a better Windmill Force Pump, with a three way valve, than had heretofore been produced. It has become the leading Anti three way valve, than had beretofore been produced. It has become the leading Anti Freezing three way pump, and is accepted by Windmill manufacturers and dealers generally, as the best three way Windmill Force Pump on the market. The Union Elbow Coupling for connecting to the underground discharge pipe is of Brass and can be turned to suit the direction of the pipe. The air chamber pipe is two inches in diameter, which insures ease of operation and a steady flow of water. The Hose Coupling on the spout also adds to the convenience of this pump.

THE BOYS TO RETURN.

So Says the Latest Report-Oregon's Fourth of July Celebrations.

A dispatch published in another column to the effect that the soldier boys will return home in June or July, will gladden the hearts of thousands of Oregon people, who, with the assurance that their duty has been well done, now are anxious for their return. Portland is already planning a Fourth of July parade, which would cause enthusiasm that would know no bounds, and fairly cause the snow-capped peaks of Oregon to bellow forth a welcome such as our brave boys justly deserve. What a parade that would be. But would not each city and village who contributed these heroes come in for their share, and demand that their liberty car be filled might well be termed?

When the return of the volunteers was prepared to fill to the letter even his first talked of, the government announced that the various regiments lilacs, snowballs, dutsias, wiegelas, would be brought home in the same order in which they went out. This would make the Second Oregon and the First California the first to come. Thirty jums and fuschias are now ready for days is required to make the passage garden planting at from 5 cents to 50 from Manila to San Francisco. If the cents. Pholox spirea, hardy heliotrope It makes no difference how bad the first transport sails May 5th, therefore, and garden primrose at 10 cents per wound if you use DeWitt's Witch Hazel it should arrive early in June. That at plant. Pansies and daisies at 25 cents Salve; it will quickly heal and leave no least part of the Second Oregon will be per dozen at Mrs. A. C. Stubling's. on this vessel there is no cause to doubt.

The boys will probably be in Portland by June 15th.

Their Return.

Their seems to be a diversity of opinion concerning the idea of demanding that the volunteers be returned home. Governor Geer says:

"I can't see that the state bas any right to ask the president to send the volunteers home. They enlisted in the service of the government, and if there ever was a time when they have been needed it is now. It seems to me that good home and that his people will it is a piece of impertinence to ask probably send money for him to return. that they be returned. I feel confident The poor fellow may thank his lucky that the president will order them home

"Few, if any, of the volunteers from Oregon are asking to come home. In fact, I am constantly in receipt of applications for promotion, and some who have been discharged and returned home have asked to be returned since the war began."

The steamer Spokane has been placed in service on the Snake river between Sparta and Lewiston with double daily service and will be operated as a through mail, express and passenger steamer, making round trips daily except Saturday. Leave Riparia at 2:30 a. m. arriving at Lewiston at 12 o'clock noon. Leave Lewiston at 2:30 p. m. arriving at Riparia at 7 o'clock p. m. The steamer Lewiston will take the place of the Spokane on the same schedule Satordays and at other times will be operated on a wild schedule, taking care of all local work. The object of this new schedule is to place the Wisten and Buffalo Hump countries more in touch with points on the O. R. & N.
