UNION MEN ARE SULLEN

Irritated for Being Shut Out of the Coeur d'Alenes.

PERMITS MUST BE HAD THURSDAY

New York Federated Labor Association Denounce General Merriam's Order.

WARDNER, Idaho, May 14.—The crisis in the labor troubles here will begin on Thursday of this week. Should the period pass over quietly, no more outbreaks of lawlessness need be looked for during the continuance of martial law. On the other hand, should there be any clash this week between the soldiers and the lawless element in the union, it is impossible to tell how much bloodshed there may be.

Thursday is the last day allowed under the recent proclamation for working miners to apply for permits to remain in underground employment. On that day the inspection of the mines all over the Coeur d'Alenes will begin. It will be a rigid examination, and it will be conducted both by the military and the civil authorities. Every mine which on that day is employing men without permits will be summarily closed, its pumps drawn and a guard placed over it.

Up Canyon creek, where none but union miners are employed, they sullenly refuse to make application for the cards. In order to secure a permit, the miners must renounce membership in the society "which has fostered or encouraged" the recent lawlessness in the district. The union is not named outright in the printed forms to which the applicant must subscribe. Only about a dozen from all the Canyon creek district have secured the cards. Of these who remain, many are determined to stick doggedly to the union to the last. Others are afraid to take out cards until the end of the week.
