The doctors are wholly unable to get rid of this vile poison, and only attempt to heal up the outward appearance of the disease—the sores and eruptions. This they do by driving the poison into the system, and endeavor to keep it shut in with their constant doses of potash and mercury. The mouth and throat and other delicate parts then break out into sores, and the fight is continued indefinitely, the drugs doing the system more damage than the disease itself. Mr. H. L. Myers, 100 Mulberry St., Newark, N. J., says: "I had spent a hundred dellars with the doctors, when I realized that they could do me no good. I had large spots all over my body, and these soon broke out into running sores, and I endured all the suffering which this vile disease produces. I decided to try S. S.
