NO. 46

MUST CONTINUE TO FIGHT

Americans Must Fight for Every Foot of Ground They Hold.

ARE CONSTANTLY RECEIVING ARMS

They Are Coming from Japan and Australia, and Cartridges Bear Trade Mark of United States Firm.

CHICAGO, Aug. 4.—The Tribune's special correspondence from Manila under date of June 26, says: "The next campaign can hardly begin sooner than November, although the country may dry up enough towards the middle of October to permit the American troops to take the field then. The American army during the rainy season can hardly be expected to do anything more than hold what it has gained and prepare for the next campaign. The ground to defend is not very great."

On the south of Manila we have Imus, about fifteen miles away, where the Fourth and Fourteenth infantry, with several guns from the Sixth artillery, are stationed. This territory was gained only within the last two weeks by the hard fighting at Paranaque, at which even the rattle of the rifles can be heard in Manila.

Northward the farthest point in the control of our soldiers in San Fernando, forty-one miles from Manila, on the railroad. The railroad is 149 miles in length in all, but the insurgents control all the track between San Fernando and Dagupan, the northern terminal of the road. The Americans hold Canadaba, east of San Fernando ten miles. They hold all the towns along the railroad, of course, to San Fernando and Baliuag, seven miles east of Pulilan.

Reports continually come from Baliuag that the town is entirely surrounded by the enemy and is about to be carried by assault. But Colonel Page and the Third infantry have so far driven the rebels back with disastrous loss every time they have assaulted the town, and he declares he can hold it for an indefinite time, although his position there is by no means an easy one. Supplies and mail can only be carried over to Baliuag from the railroad under an escort of not less than 150 men, who are invariably attacked somewhere along the road, both going and coming.

Heavy shipments of arms are said to be constantly arriving from Japan and Australia and, it is said, even from our own country. Cartridges picked up in the insurgent trenches bear the trade mark of a big manufacturing firm in the United States. The insurgents have three factories where they manufacture cartridges and other munitions of war. If they were kept on the run they would have no time to equip themselves that they could return after defeat, better able to fight than they were before.

They are learning things every encounter with the Americans. The papers in Manila have continually referred to the fact that the rebels were prone to shoot too high, and they seemed finally to have learned the lesson and now they are getting their shots well down and showing a great improvement in marksmanship.

THE CHAPLAIN IS OVERCOME

Reports of Intense Heat Come From Many Eastern Cities—Oregon Is All Right.

OMAHA, Aug. 3.—This is the third in a series of very hot days in Nebraska. The maximum temperature at Omaha was 90 on Tuesday, 93 yesterday, and 92 today. High winds make the conditions very uncomfortable. In the south part of the state, even higher temperature is reported. At Syracuse, the thermometer recorded a maximum of 102 in the shade today, with only a little less than the two preceding days. Wynore reports 107 in the shade for today. Along the line of the Burlington, temperatures have ranged from 90 to 100.

The corn crop is now in a critical condition, and some damage is likely to result if the extreme heat continues.

Copious rains are reported in the northern half of the state, with temperatures much lower than further south.

Chaplain Milburn Overcome.
LINCOLN, Aug. 3.—Dr. W. H. Milburn, the blind chaplain of the United States senate, was prostrated by sunstroke and fell unconscious this afternoon, while delivering a lecture at the Nebraska Epworth assembly, at Lincoln Park. He was brought to the city and revived under the care of a physician. Tonight he is much improved, and doctors look for an almost complete recovery in time.

SPRINGFIELD, Ill., Aug. 3.—Today was the hottest day of the year, the government thermometer registering a maximum of 97 degrees, while the thermometers on the street registered $\frac{1}{2}$ higher in the shade.

ST. LOUIS, Aug. 3.—According to the weather bureau, St. Louis was the hottest city in the United States today. The maximum temperature was reached at 4 o'clock this afternoon, when the thermometer at the weather bureau office, on top of the custom-house, registered 99 degrees. At the same time, several thermometers in the street showed the mercury at 105.

KANSAS CITY, Aug. 3.—The government observatory in Kansas City registered 96 for two hours this afternoon. Webb City, Mo., reports 106, and Joplin, 101.

CINCINNATI, Aug. 3.—The weather bureau reports a temperature of 99 $\frac{1}{2}$ deg. here this afternoon, the highest for twelve years. Seven persons were prostrated by heat.

DES MOINES, Ia., Aug. 3.—Today was the hottest of the year, the official temperature being 92 degrees. Iowa points report as high as 100 degrees.

PEORIA, Ill., Aug. 3.—This was the hottest day of the year. The official thermometer marked 98 degrees at 2 o'clock.

ARE PACKING THEIR TRUNKS

Oregon Boys Will Return in Their Khaki Uniforms.

SAN FRANCISCO, Aug. 5.—The Oregon volunteers will wear their khaki suits back home. Everything else in their tents is being packed in trunks and boxes preparatory to their homeward journey, which begins next Tuesday. The time between now and then will drag, for the warriors are growing impatient with tame camp routine. The government will pay for transferring their baggage from the Presidio to the train. A special guard will look out for the mascots—almost as numerous as the men of the regiments, to wit: One Filipino, one billy goat, six monkeys, "Bummer," the dog; a Spaniard and a parrot. The hospital corps, eighteen in number, learned today that they may yet secure their discharges next Tuesday in time to leave with the regiment.

SAN FRANCISCO, Aug. 5.—It was officially announced today that the work of mustering out the Oregon volunteers will be begun next Monday at the Presidio. On Monday morning every man in the regiment will receive his back pay, and, in addition, two extra months' salary and transportation money from this city to Oregon.

STRIKE ON THE NEW YORK SUN

Reported That Union Men Were to Be Superseded.

NEW YORK, Aug. 5.—Representatives of Typographical Union No. 6 waited upon Assistant Business Manager Paddock, of the New York Sun, tonight to ask him if he would abide by the rules and regulations of the typographical union as at present in vogue. This action was the result, it was said at the headquarters of the typographical union, of rumors which reached the members Friday that Charles W. Edwards, who is said to be in charge of the mechanical arrangements of the Sun office, was about to replace the union compositors and stereotypers with non-union men. About the time that this conference was going on 135 compositors, 8 boys and 10 stereotypers stopped work, but remained about the premises. They were orderly

and made no demonstration. Notwithstanding this, the police were notified and a number of policemen were sent to guard the Sun office.

President Farrell, of the committee, was the spokesman. Mr. Paddock, it is said, declined to commit himself in any manner. He said he had no power to act, and that it would be necessary for the men to see some one higher in authority. This, the men said, they could not do tonight, and accordingly left the building. At the headquarters of union No. 6 it was said a force of non-union men was on its way here from Philadelphia in a boat, and that the men would probably arrive here Sunday morning. All information concerning the matter was refused at the editorial rooms and business office of the Sun tonight.

Yellow Jack is Downed.
WASHINGTON, Aug. 4.—The Marine hospital received word today that several hundred tents and a quantity of cots have been turned over to the Hampton Home from Fort Monroe to allow the camping out of 1500 of the inmates on the home grounds while the barracks are being disinfected. There were no reports of new cases. This is taken to indicate that the epidemic is at a standstill.

Thought They Were Spies.
NEW YORK, Aug. 4.—Burt H. Collins and Harold Havens, students of Leland Stanford university, arrived here today from Brazil. They went to Brazil to study geological formations near Pernambuco, but the authorities thought they were spies seeking information concerning Brazilian fortifications. The students, however, were not prevented from returning to the United States.

Going to Camas Prairie.
LEWISTON, Aug. 3.—The special train of President Mellen, of the Northern Pacific, arrived here this morning, and attached to the train was the private car of President Mohler, of the O. R. & N. Presidents Mellen and Mohler did not come to the city, however, but left the train at Spaulding, taking private conveyances for an inspection of the Camas Prairie country. They are expected here tomorrow evening.

Has Resigned.
MYRTLE POINT, Or., Aug.—Mrs. Dr. Hermann, the aged mother of Commissioner Hermann, of the general land office, at Washington, who lives near Myrtle Point, is eagerly expecting a visit from her two sons, Binger and Manuel, who are expected to arrive soon. The latter has been chief of the mailing division in the pension bureau for six years, but has resigned, and will now take charge of the large stock farm on the Coquille.

Vice-President at Plattsburg.
PLATTSBURG, N. Y., Aug. 5.—Vice-President Hobart and family arrived here today on a special. The party was met at the station by President McKinley. Hobart is still suffering from a severe attack of grip. Postmaster-General Smith and Mrs. Smith leave here today for Philadelphia.

Boy Drowned Near Junction City.
JUNCTION CITY, Aug. 3.—Vernon Uttinger, aged thirteen, son of Thomas Uttinger, was drowned in the Willamette river today, a mile and a quarter east of Junction City. He was swimming with a crowd of small boys. The body was recovered by H. C. Mahon and Mr. Gouid.

Robbery Was a Fake.
TACOMA, Aug. 3.—Anna Steiger, a 16-year-old girl, who claimed to have been bound and gagged while her home was robbed of \$60 by two masked men a few days ago, has been arrested. She confessed that she stole the money and concocted the story.

Will Prospect in the Cascades.
JUNCTION CITY, Aug. 3.—L. Lawrence, a miner at Denver, Colo., late of Cripple Creek, and B. Parker started for the Bozema mines today. They will prospect north over the Cascades and to Baker City. They have good prospects in view.

Volunteer Reception.
The Volunteers will arrive at Portland on Thursday, the 10th inst. and will remain in Portland Thursday and Friday, returning to The Dalles via Steamer Regulator. Excursion rates will be as follows:
Dalles to Portland and return—Aug. 3, Dalles City leaves The Dalles at 1 p. m. Rate \$1.50.
Dalles to Portland and return—Aug. 10, Regulator leaves The Dalles at 8 a. m. Rate \$1.50.
Dalles to Cascades and return—Aug. 12, Dalles City leaves The Dalles at 8 a. m. Rate \$1.00.
Tickets limited to Saturday, Aug. 12. Regulator leaves at 9 a. m. on Aug. 9th.
W. C. ALLAWAY, Gen. Agt.

THEY WILL ORGANIZE CLOSER

Philippines Are to Be Divided Into Departments.

LAWTON TO HAVE HEAVIEST WORK

Otis to Be Relieved of Much War Duty, and to Act Rather as a Military Governor.

NEW YORK, Aug. 5.—A special to the Herald from Washington says: It is understood that the plan of operations for the fall campaign in the Philippines contemplates a division of the islands into several military departments, and General Lawton will have command of the department in which the cavalry troops will operate. It is probable that General Wheeler will be given command of a brigade of cavalry in General Lawton's department.

The boundary line of Lawton's department will embrace the territory in which there will probably be the heaviest fighting, so that Lawton will be in direct charge of the most important forces in the field, and in this way General Otis, while not being officially accredited, will be relieved of much of the responsibility in connection with the conduct of the war and will be left free to perform the duties of military governor.

Secretary Root's short experience in the war department has already convinced him that the views of the military commanders subordinate to General Otis, who favor a larger military force than recommended by that officer, are worthy of serious consideration. There are reasons to believe he will recommend that the force be further augmented.

Otis Asks For Guns.

WASHINGTON, Aug. 5.—General Otis has asked for a number of Sims-Dudley guns, Gatlings and Hotchkiss 12-pounders for use in the Philippines. All are rapid-firing guns, and are especially adapted for the warfare that must be prosecuted there.

ANTI-DREYFUSITES NOT NUMEROUS

Authorities Are Becoming Anxious About Their Ability to Maintain Order Through the Trial.

RENNES, France, Aug. 5.—Rennes has awakened from its normal condition of sleepiness, and, with the arrival of hundreds of journalists from all parts of the world and witnesses and other factors in the Dreyfus drama, the town is assuming an animated appearance. The terraces in front of the cafes are full of people warmly discussing the coming trial, which will open on Monday morning at 6:30 or 7 o'clock.

General Mercier, who was minister for war when Dreyfus was condemned, arrived from Paris this afternoon. The leading event of the day here was the arrival of the hero of the Dreyfus affair, Lieutenant-Colonel George Picquart. As Colonel Picquart entered the carriage waiting for him, some spectators shouted: "Vive Picquart" and "Vive Dreyfus." These shouts elicited counter cries of "A bas Picquart" and "A mort, a l'eau" from the few anti-Dreyfusites present. But the bark of the latter was worse than their bite, for not the slightest attempt was made to carry out the threats, which Colonel Picquart utterly ignored.

The authorities are apparently becoming anxious regarding the maintenance of tranquility in Rennes during the trial, owing to the invasion of the town by a crowd of anti-Dreyfus agitators, and heroic police measures were taken this evening to insure peace during two opposition meetings.

Cards of admission to the trial were issued this afternoon to the representatives of the press. Every two foreign correspondents, without exception, received one card between them, which means that the leading papers of the outside of France will be able to be represented only every other day.

ROYAL BAKING POWDER CO., NEW YORK.

TWO ACCIDENTS IN THE EAST

Had Over a Score of Victims Each and Many Were Injured.

GANGPLANK COLLAPSED IN MAINE

One Hundred Thrown in the Water—Trolley Car in Connecticut Jumped Off the Trestle Into Millpond.

BAR HARBOR, Me., Aug. 6.—A score of persons were killed today by the collapse of the gangplank of the Mount Desert ferry. Seventeen were drowned and three died from the terrible experience of immersion in the water and injuries while struggling for life.

The Maine Central railroad today ran excursions to Bar Harbor from all sections of its line in Maine, the attraction being the warships which were expected today. All the morning long trains packed with excursionists were rushing to Bar Harbor. The train which left Bangor at 8:25 consisted of twelve cars, jammed with people. At Mount Desert ferry, the terminus of the line, the train is left for the boat, for an 18-mile ride to Bar Harbor. From the wharf a slip or gangplank, 40 feet long and 10 feet wide ran out to the boat. The slip was hinged at the inner end and was raised or lowered to suit the tide. The wharf extends on both sides, flush with the end of the wooden gangplank. Five timbers, 4x12 inches, set vertically, ran the length of the plank, and these were crossed by 2-inch planks. It is said that there was no support for the plank between the hinges at the outer end.

When the excursion train from Bangor arrived at the ferry there was a rush for the Steamer Sappho. The first few passengers had crossed the gangplank safely, and it is estimated that 200 people were massed on the plank. Suddenly they felt the plank give way. The long timber supporting the plank broke in the middle. The hinges held up one end and the chain the other, while the broken ends of the plank dropped, and a struggling, screaming mass of humanity was plunged into the water, fifteen feet below the wharf. A few clung to the inclined sides of the plank, but at least 150 were struggling in the water. The piling of the wharf partially penned them on three sides, and the boat lying at the wharf closed the outer end of the opening.

After the first moment of stupefaction the work of rescue began. Ropes and life preservers were thrown to the crowd, but in the panic the people in the water clutched one another and many sank in groups in a death grip. Many were taken from the water unconscious and were revived with difficulty. Doctors were summoned from all directions, but it was half an hour before the first arrived. The freight-house at the ferry was turned into a morgue, the bodies being taken there for identification as fast as recovered.

Another Fearful Accident

BRIDGEPORT, Conn., Aug. 7.—An open trolley car of the Shelton Extension Company, twisted, bent and smashed almost into kindling wood lying in the middle of Peck's mill pond at Oronoque, about six miles north of here, this morning, is the only visible indication of the frightful accident of yesterday, when 21 lives were lost and about a dozen people seriously injured by the car tumbling off the trestle which crosses the pond at this point.

Coroner Dolen is making arrangements to conduct an immediate investigation into the cause of the disaster. The patients at the hospital, twelve in number, were all reported in a favorable condition today and no more fatalities are apprehended.

New York Sun is Badly Tied Up.

NEW YORK, Aug. 7.—A new phase was interjected in the controversy between

the printers and managers of the Sun by the arrival here of the steamer Endeavor from Philadelphia with 105 non-union men in charge of Charles William Edwards, the Sun's superintendent of printing. Only nine of this number after arrival here went to work, and after working for less than a half hour, five of these joined the ranks of the strikers. According to the strikers' figures, there are twenty compositors at work in the Sun's office this morning.

It is said the actual number on a strike in the composing rooms of the morning and evening edition of the Sun is sixty-eight night compositors, thirty-one day compositors, six "subs," thirty stereotypers and six pressmen. Men engaged in the press, mail and delivery-rooms have, it is said, no organization.

A WOMAN THE CAUSE

Of the Uprising of the Yaqui Indians—Caused Trouble Before.

ST. LOUIS, Aug. 7.—A special to the Republic from El Paso, Tex., says: Santa Teresa, a Mexican woman, who has long been revered as a saint by the natives of Chihuahua and Sonora, and who was believed to possess the power of healing the sick by the laying on of the hands, is believed to be more or less responsible for the present outbreak among the Yaqui Indians. After the Palomas raid a few days ago the Mexican government made an effort to apprehend her as she was looked upon as a dangerous character. She escaped to El Paso. About a year ago the woman disappeared from this locality and it afterwards turned out she had gone to Sonora and taken up her abode in the edge of the Yaqui villages, where she was safe from molestation by the Mexican government.

McKinley Cottage Sold.

CANTON, O., Aug. 6.—President McKinley has purchased the famous "McKinley cottage" at the corner of North Market street and Louis avenue. The deal was closed Saturday. The consideration was \$14,500. The papers have passed. The president will secure possession of the contract and deed October next. The property was not on the market. It was endeared to President and Mrs. McKinley as their first home, where they began housekeeping, and by tender memories of sorrows there. The lot is 100 feet front on Market street by 244 on Louis avenue. The front veranda shows the most wear from the historic campaign of 1896, when the noted home was the political Mecca for nearly a million people.

IS IT RIGHT

For an Editor to Recommend Patent Medicines?

From Sylvan Valley News, Brevard, N. C.

It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhoea Remedy. We have known and used this medicine in our family for twenty years and have always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is awaited. We do not believe in depending implicitly on any medicine for a cure, but we do believe that if a bottle of Chamberlain's Diarrhoea Remedy was kept on hand and administered at the inception of an attack, much suffering might be avoided and in very many cases the presence of a physician would not be required. At least this has been our experience during the past twenty years. For sale by Blakeley & Houghton, Druggists.

That Throbbing Headache

Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure blood and strong nerves and build up your health. Easy to take. Try them. Only 25 cents. Money back if not cured. Sold by Blakeley & Houghton, druggists. 1
