THE WORLD'S

Has Presented a General Yone of Dullness During the Week.

ENGLAND'S CROP IS ALL RIGHT

That of Other Countries Will Reach the Average-Russia's Hard to Compute.

NEW YORK, Aug. 21 .- A dispatch to the Herald from London says: The wheat market throughout the last week has presented a general tone of dullness. The attendande of buyers has been limited and the demand has been without revival. Operators in the face of favorable crop reports are restricting requirements as much as possible. From

The following foreign reports are given in the Mark Lane Express: France-The Echo Agricole states that several estimates of the crop has already been given, varying from 110,000,000 to 130,-000,000 hectols-38,000,000 to 44,700,000 quarters-but does not believe any accurate computation can as yet be arrived at, as the farmers themselves are often uncertain of the yield of the crop before threshing. In any event the crop, although not so large as last year's will nevertheless exceed the average.

Germany-Under more settled weather harvest work has made very considerable progress and the crop is satisfactory on the whole.

Russell Harrison III.

SANTIAGO DE CUBA, Aug. 20 .- Major Russell Harrison, inspector-general, is critically ill with yellow fever. The disease has progressed for three days, although not pronounced yellow fever until this afternoon. The case is the first to occur at Cristo, where the headquarters was removed last month to escape infection. Of late the quarantine rules have been relaxed, owing to the fact that there have been no cases in the city and the officers from headquarters have been in the habit of coming to Santiago daily, returning to headquarters at night. Major Harrison has been isolated but not brought to the fever hospital.

They were paid off on the 15th, and proceeded to samble and drink heavily. A gambler named C. H. Landredth after a quarrel with some of them assaulted one, shooting and stabbing him
