He Tried a Sample Bottle

Nearly every day people come into drug stores and ask the Druggists to recommend some medicine for their trouble. Very often they refuse to do so, because, as a rule, they do not believe it proper to advise anyone to take a patent medicine of which they do not know the ingredients. It is the physician's business to prescribe. Some make an exception, however, when they see a patient who is suffering from a cough, cold or throat and lung trouble. "I always recommend Acker's English Remedy, because I know just what it will do. It has cured every case where I have seen it tried. It is the best expectorant and tonic I ever handled in my 14 years' experience. I will give just one instance of a gentleman who had been troubled for years with a nasty, hacking cough. I advised Acker's English Remedy. He tried a sample bottle, and was cured before he had taken half of it, at no cost whatever. This is an exceptional case, however, as it usually takes two or three bottles." (Signed) A. D. Coon, Bellefontaine, Ohio. Sold at 25c, 50c, and \$1 a bottle, throughout the United States and Canada; and in England, at 1s, 2s, 3s, 4s, 6d. If you are not satisfied after buying, return the bottle to your druggist, and get your money back. We authorize the above guarantee. W. H. HOOKER & CO., Proprietors, New York. FOR SALE BY Blakeley & Houghton.

came up from Portland last night and left this morning for Goldendale. Miss Lizette Farmer, of the Times-Mountaineer force, left yesterday for Portland, and will visit in Seattle before returning. Dr. and Mrs. J. Littlefield came up from Portland and will remain until Monday with the doctor's daughter, Mrs. W. L. Bradshaw. Mrs. Bessie McNamara arrived in the city Wednesday from her home in California, and will spend some time with her mother, Mrs. P. Cram. There was a race between the Inland Flyer and the ocean steamer Columbia up the Willamette yesterday afternoon. The race began at the mouth of the Willamette river and resulted in a victory for the little river boat, which literally ran around the big steamer during the contest. The Inland Flyer is now making fast time between The Dalles and this city and her time is nearly as good as that of the Fleetwood, that little streak of chained lightning which used to ply on these waters, but is now on the Sound. The Flyer leaves The Dalles at 8 a. m., and arrives here at 3:25 p. m., making 12 landings and going through the Cascade locks beside. She sometimes gets through the locks in 16 minutes. Very good service is now being given on this route. Tourists can leave Portland in the morning and after seeing all the grand scenery of the Columbia, can arrive at The Dalles in time to connect with the Spokane train, which leaves this city at 2:10 p. m.—Telegram. All Hallowe'en at Enderbury. A Hallowe'en and box social was given by the school at Enderbury on the evening of the 31st for the purpose of raising funds for establishing a school library. Many games were played, after which luncheon was served. The evening was thoroughly enjoyed by old and young. The patrons were very liberal, paying a fair average price for the boxes, some of which were unique and quite pretty. \$18.35 was netted. The establishing of libraries in our public schools is a move in the right direction, and Miss Mabel Riddell, the teacher, is to be highly commended upon the zeal displayed in this work, and upon the delightful evening.

An Important Difference. To make it apparent to thousands, who think themselves ill, that they are not afflicted with any disease, but that the system simply needs cleansing, is to bring comfort home to their hearts, as a restorative condition is easily cured by using Syrup of Figs. Manufactured by the California Fig Syrup Co. only, and sold by all druggists. Place of Meeting Changed. Owing to the evil effects to the wool industry of the state that might occur from holding a forestry meeting in The Dalles at this time, when there is such an anti-sheep agitation, the Wasco County Forest Protective Association will not meet in The Dalles on Saturday, Nov. 4, but will hold a semi-annual meeting at Wamie, on Friday, Nov. 3d, 2 p. m., when all the business of the association will be disposed of. All interested in the aims and objects of the association are invited to attend. S. D. DRIVER, President. M. J. ANDERSON, Secretary. On the 10th of December, 1897, Rev. S. A. Donahoe, pastor M. E. Church, South, Pt. Pleasant, W. Va., contracted a severe cold which was attended from the beginning by violent coughing. He says: "After resorting to a number of so-called 'specifics,' usually kept in the

WILL JOIN THE BOERS

British Forces at Kimberly Are Surrounded by an Army of 60,000.

SATISFIED THEY CAN HOLD OUT

But General White Is Still Holding His Position—Boers Have Sent 850 Prisoners to Pretoria as a Result of Monday's Battle.

Hotkrows, Cape Colony, Nov. 1.—Magistrate Harnsworth has arrived from Klipdam and reports there are 6000 Boers around Kimberly and all roads are strictly patrolled. He says he passed close enough to Kimberly to see searchlights, and was informed the defenders of Kimberly were satisfied they could hold out, but were wearied with inactivity and hoped a relieving force would arrive soon. Stories of Boer victories have spread rapidly along the western border and Magistrate Harnsworth estimates over half the Dutch residents of Bechnanaland and Griqualand will join the Boers after the declaration of annexation.

LONDON, Nov. 2.—The war office this afternoon posted the following dispatch: "LADYSMITH, Nov. 2.—Lieutenant Edgerton, H. M. S. Powerful, was dangerously wounded this morning by a shell, in the left knee and right foot. His life is not in danger at present." It was inferred from this dispatch that the artillery duel between the Boers and British continues, as Edgerton was a gunnery lieutenant with the big naval guns.

LONDON, Nov. 2.—The war office officially declares it has no information of any further engagement at Ladysmith or of a British victory, as reported in New York. The war office received a telegram, dispatched from Ladysmith at 9:25 a. m. to-day, saying General White was well and holding his position. A special dispatch from Ladysmith says twenty British dead and 100 wounded have been counted on the scene of Monday's disaster, while 850 prisoners were sent to Pretoria. Another list of casualties at Dundee was issued by the war office today. It gives eighty-two noncommissioned officers and men of the Dublin fusiliers missing, indicating that the Boers captured as many fusiliers as they did Hussars.

On Western Border. CAPE TOWN, Nov. 2.—It is asserted 5000 Boers have collected at the Bethulie bridge, under Field Cornet Dutt; the Orange river is in full flood, and fording is reported to be impossible.

Boers in Zululand. PIETERMARITZBURG, Natal, Nov. 2.—It is reported the Boers are occupying parts of Zululand, and they have taken Pomeroy, fifty miles from Greytown.

Important Railway Bridge. LONDON, Nov. 2.—The brevity of news from Ladysmith since Tuesday night has not relieved the anxiety prevailing regarding the position of the British army in Ladysmith. The war office has no information of General Buller's having left Cape Town.

Colenso, in the rear of White's force, is believed to be well defended by a composite naval and military corps, and it is understood two naval 12-pounders mounted near the bridge over Tugela, one of the most vulnerable points along the railroad from Ladysmith to Pietermaritzburg, ought to be able to defend it and prevent its destruction. If the Boers succeed in destroying this bridge, it would mean interruption of railroad communication with Ladysmith for an indefinite period. While the Boer attempts in this direction are not confirmed, it is claimed they may be expected momentarily, and the reported steady shelling of Ladysmith, it is added, points to the intentions of the Boer commanders to keep White occupied, while their strategy is carried out.

THE LITTLE FILIPINOS

Peculiarities of the People Under Aguinaldo.

Odd Experiences of Uncle Sam's Soldiers with the Willy Natives of Luzon—Their Style of Fighting.

This little black man who is causing us the same kind of trouble that the boy experiences with a hornet's nest cannot be understood in a day. When captured he acts as if his lot had fallen among old friends. He grins and points beyond our skirmishers, seeming to think that the aspect of his fleeing countrymen is a huge joke. The next minute, but give him the chance, he is likely to send a bullet into an American's back. For such an offense Maj. Gen. Anderson once had a Filipino strung up to a tree on the spot, this being the only American military execution thus far recorded in the Philippines.

A giant private of the Montanas chose a different method. When he was fired on at a distance of about ten yards and missed, he caught his enemy, took his gun away from him and then laid him across his knees. After he had vigorously applied a piece of bamboo he seized the enemy by the seat of the trousers and threw him toward the rear.

"There!" he said. "Don't you let me catch you playing with firearms again." The little black man's confidence in the European rifle has waned. In the beginning he thought that he had only to discharge his mauler at a white man and the white man was dead. This led to the firing from the houses and the reckless chances which the Filipinos took at first when their losses were so great. Now they apparently are "good" after they are captured, and they do not fire from houses. Most of whatever they have learned from the Spaniards. They are as facile in imitation as the Chinese. Their buglers now do our calls as well as their own. By watching us they found out that they have been firing too high, and now they are trying to fire low. They succeeded until the volleys from our skirmish line begin to pour in. Then they wringe too much in their trenches to aim on a level. Their trenches (of the Spanish type) are built under cover, at strategic points, which admit of easy defense and retreat, with the smallest possible exposure, once the Americans advance. On a wall above the line of one insurgent trench were 16 abraures by bullets in a space two feet by one.

Such music as was played there is disconcerting. The little black man will not remain to hear it after our men are within 200 yards. At running he is easily the American's superior. His bare feet never get sore. He has no clothing to impede his progress except cotton shirt and trousers. He knows the bypaths and the fords of the streams. But he feels that it is very unfair of us to make him retreat. We are not practicing warfare as he understands it at all. What is the use of rifles that will shoot 2,500 yards if you are going to try to catch the enemy with your hands? Aguinaldo's officers are highly incensed about our artillery, it is said. If they have no guns we ought to use none, and if they have three or four or five, we ought to use only three or four or five, as the case may be. What has happened, however, was to have been expected after we refused to fire back and forth between trenches in the moonlight, which is the only kind and generous method of making war in the tropics.

In the march to Malolos our men marched and fought all day under the beating sun, slept on the ground, swam rivers and did everything which it was supposed by the natives that white men could not do. They thought that we would not attempt to drive them out of more than one of the intrenchments at a time, and then rest at least a week after each effort. A prisoner explained his feelings by saying: "T-h-r-r-r-t!" and making a rapid movement with his hands.—Frederick Palmer, in Collier's Weekly. Shooting Clay Pigs Through Iron. The tallow candle which is shot through a door must hide its head before a seven and a half ounce plug of clay which has been so fired as to perforate an iron plate an inch thick. The velocity of the clay plug was tremendous. It has been estimated that the speed necessary must be over 1,500 feet a second. Experiments of this kind were conducted by Capt. Cooper Key, of the British army, at the Royal Arsenal. A special gun was employed and pressed cylinders of raw dry clay three inches long and two inches in diameter were used. Eventually one of these plugs went through a cast-iron plate one inch thick from a distance of not more than 25 feet.—N. Y. World.

Double Train (Service to San Francisco). On October 15th the Southern Pacific Co. will inaugurate a "Daylight Express," leaving Portland at 5:30 a. m., and reaching San Francisco at 7:45 next evening—only one night out. Both standard Pullman and tourist sleepers will be attached. This new train is in addition to the present 7 p. m. Shasta Overland, and will give many passengers the desired opportunity to see en route the Great Willamette, Umpqua and Sacramento Valleys without loss of time, and still arrive in Oakland and San Francisco at a reasonable hour. Chester H. Brown, Kalamazoo, Mich., says: "Kodol Dyspepsia Cure cured me of a severe case of indigestion; can strongly recommend it to all dyspeptics."
