It has been the experience of every teacher wto is employed in the country schools that their predecessors are negligent in the matter of leaving records. A "new teacher" has been compelled to enter the school oom on the first day of the term v thout the slightest information regarding the classes, the work they have covered, the proficiency of the pupils or the studies they should next pursue. The new register is designed to remedy this defect in the pub lie school system.

Aside from the facts regarding attendance, deportment, etc., shown by the old form of school registers, the new record book contains blank spaces for a list of classes, the names of pupils in each class, the text-books used, the page at which the pupils began and ended, the page at which they should begin in the new term, and special information regarding individual pupils. A full programme of the branches taught, with the hour at which each class recites, and the number of minutes given to each recitation, is also to be given. The register contains detachable blanks, which must be filled with copies of the programme, and filed Could not express the rapture of Annie with the county superintendent. The E. Glass and His Political Sheep.

[From the Oregonian.]

A Klamath county lawyer who has been watching the local political situation pretty closely was asked vesterday. what he thought Graham Glass would say to Senator Simon when the latter returned from Washington and asked how a 5000 majority had been converted into a 1000 minority.

"I don't know," said the lawyer, 'but I have an idea it will be something like the answer of the Klamath sheepherder. Never heard of that? Well, this herder was engaged by a rancher to herd a band of sheep, and he went out on the range. In about a month he came came back and asked his employer if there was any more work for him to do.

" 'Work !' exclaimed the rancher. 'Of course there's work. Didn't I hire you to herd my sheep?'

" 'Well,' said the herder, 'if you want me to do that you will have to get some more sheep, for them I had is all gone." "
