BORN.

At three o'clock this morning, to Dr. and Mrs. G. E. Sanders, a son. Mother and child are doing nicely.

State Pair.

The state board of agriculture is making a great effort this year to make the state fair a representative agricultural and life stock show. The premium list is out and is being thoroughly distributed throughout the state, and personal efforts are being made to attract the attract the attention of farmers and stockoffered.

Several counties in the state are preparing a county exhibit for the fair, for they realize it will be a good opportunity to advertise their county in a most practical way. Each exhibit will be a lec- the New York Cash Store. ture room, and an object lesson for the home-seeker, where he can get information along intelligent lines, and will be worth many dollars in advertising the county's resources.

The live stock show will be without question the best ever held on the coast. Breeders all over the country are preparing to exhibit at the fair this year. There is an opportunity here in Oregon for the farmers who have been running in debt raising wheat to turn their attention to the profitable production of beef, mutton and pork, or engage in place as a leading paying industry in this state. There is a demand for the best specimens of all breeds, which will continue to grow for years to come, and there is nothing that will encourage this month with her parents at Hood industry so much as stock shows at state and county fairs.

Towne's Intentions.

Lincoln, Neb., July 23 .- A rain storm kept W. J. Bryan indoors today, but time did not hang heavily on his hands. He had a number of visitors, three of morning's boat for an outing in the political prominence—General James B. Weaver, of Iowa; Louis C. Ebrich, of Colorado Springs, Colo., and John E. Pitts, of Cincinnati. Mr. Pitts is of the national democratic campaign club, and he claims many accessions to the ranks of the organization. He told Mr. Bryan that the trust question was an important S. G. Dorris left on the noon train for one, and on this issue he would make great gains. He said the democratic traveling men proposed to establish Miss Hattie Gunn, a teacher in the headquarters in every city of importance

Mr. Ehrich, who is the Colorado member of the anti-imperialistic leauge, called to tell of the progress being made

General Weaver was on his way home from Idaho, where he had attended the fusion state conventions. He and Mr. Bryan were together some time.

A story circulated here today, though not credited to Mr. Bryan or his visitors, is to the effect that Charles A. Towns will remain on the ticket, as populist candidate for vice-President for the good his candidacy will do in the strongly populistic states of Kansas, Netraska and South Dakota. Mr. Towne's letter of acceptance or withdrawal will be held back, it is asserted, until the national committees of the democrats and populists have discussed the matter. A conference will be held in Chicago early in

Fighting Rob Evans' Opinion.

Sr. Louis, July 23.-Captain Robley D. Evans, United States navy (fighting Bob), who has been taking baths at Hot Springs, Ark., for two months, passed through this city this forenoon en route to Washington. While at Union station be talked freely about the Chinese situation, and among other

things said: "In my estimation, the great powers of the earth are facing the most critical situation that has arisen in modern history. To put it vigorously, they are eitting on powder barrels, and an ex-D. W. Mann came up yesterday on a plosion may come at any time. If it does it will annihilate present national boundaries and change the map of the world so that it will not be recognizable. I do not believe in the talk that China may become a world power of its own force. It stands in immediate danger of dismemberment, and the partition of the empire can only be prevented by the

United States. I approve of the policy

his little niece, Miss Littlefield, who has of the administration as now outlined. W. Warzweller and family arrived and see China divided up among the European governments without making a protest that will shake the world and R. H. Weber and Mrs. Blanche announce to all the earth that this nation must be supreme in the east, because it holds the Philippines."

Congress in Doubt.

Washington, July 23.-Chairman Babcock, of the republican congressional committee, after a somewhat extended tour of the East and Middle West, says that the situation, as far as the national Rex Ward went on this morning's boat ticket is concerned, is entirely satisfacto Stevenson on a ten days' fishing and tory, and that McKinley will poll at tory, and that McKinley will poll at least as large a vote as he had four years ago. He says the republicans seem to be equally contented with the democratic ticket and platform, which he considers the best that could have been named to strengthen the republican cause.

Mr. Babcock is more apprehensive three weeks with his family at Ocean about the congressional campaign, for the congressional campaign, for while the gold democrats will support the national republican ticket, many of them will desert the sound-money party on congressional issues, and for local offices. In order to retain control of the next House, he says, every republican should vote. While this is a discouragoutlook which the republicans must face, it is yet the fact, and the sooner they get to work the better. Attention is called to the fact that many states, such as New York and Pennsylvania, which will give their electoral vote to McKinley, have a large number of democratic representatives in congress, which, added to the Solid South, makes the prospect anything but bright for the republicans and proves that the carrying of the national campaign does not necessarily have been guests of the Umatilla House for a few days, left at noon today for men to the very liberal premiums mean success in the congressional fight."
