WEARY OF BRYANISM.

Judge U. B. Nicholson of Council Grove, Kan., is one of the ablest and best known lawyers in Kansas.

"I never voted the Republican ticket, but I will support President McKinley this fall. Old issues have been relegated to the rear, and new duties and higher responsibilities are upon us.

"I have grown weary of the course that is being pursued by the opponents of McKinley, in fact I have been getting more and more weary ever since the Spanish-American war broke out.

One Colorado republican club has grown since 1896 from a membership of twenty to 2000. Colorado is expected to return to the party of progress this year.

The country was perfectly satisfied with the result of the election of 1896, and thousands of those who did not vote for McKinley expressed themselves as pleased with the result of the election.

It is becoming evident that Mr. Bryan does not want much said about free silver before the election.

According to Senator Tillman, stuffing ballot boxes and shooting negroes in South Carolina is all right.

All voters who desire to exchange the industrial and financial conditions of 1900 for those which obtained in 1892 should have the courage of their convictions and vote for William Jennings Bryan.

Hon. Arthur Sewall, of Maine, who will possibly be remembered by some of our readers as having run for vice-president on the ticket with Mr. Bryan four years ago, is out for McKinley.

Mr. Bryan says the republican party puts the dollar before the man. So it does, and it is much better than placing an empty dinner pail before him.

Bryan will yet range himself in line with the national aspirations for expansion. The time has come, as it comes at intervals to every vigorous nation—as it has come to ours on several former occasions—when the old boundaries are too contracted for the pulsing life within them.

"Out at Abilene Saturday," says the Ottawa, Kansas, Herald, "the republicans held a county convention. The chairman who presided over the convention was a Bryan man in 1896, every delegate from one township, that of Detroit, in the eastern part of the county, voted for Bryan in 1896.

The democratic apology for free silver is that it is way down toward the tail of the platform as though that were evidence that they did not mean it.

There never was a man in this country who received such a deluge of foul democratic abuse as Abraham Lincoln. From the moment he became a figure in national politics until he was struck down by the bullet of a democratic assassin he heard from the democratic party only the language of hatred, contempt and derision.

"Bryan's course leads to altruism," says a Bryanite admirer in the Spokesman-Review. That's it exactly. And Altruism is the political synonym of socialism, and socialism is the next door to anarchism, and anarchism is the next door to perdition.

The country was perfectly satisfied with the result of the election of 1896, and thousands of those who did not vote for McKinley expressed themselves as pleased with the result of the election.

It is becoming evident that Mr. Bryan does not want much said about free silver before the election.

According to Senator Tillman, stuffing ballot boxes and shooting negroes in South Carolina is all right.

All voters who desire to exchange the industrial and financial conditions of 1900 for those which obtained in 1892 should have the courage of their convictions and vote for William Jennings Bryan.

Hon. Arthur Sewall, of Maine, who will possibly be remembered by some of our readers as having run for vice-president on the ticket with Mr. Bryan four years ago, is out for McKinley.

Mr. Bryan says the republican party puts the dollar before the man. So it does, and it is much better than placing an empty dinner pail before him.

The sugar trust made the Wilson-Gorman tariff bill and Mr. Bryan voted for it. Was that not "placing the money before the man?"

A BRYANITE FABRICATION.

A few days since the editor of this paper overheard a Hanaized striker undertaking to convince a wheat raiser that it was necessary for him to vote for McKinley in order to keep the country from going to the devil and himself from going to ruin.

Our contemporary's zeal for Bryanism has led him into what a less friendly critic than THE CHRONICLE would call a fabrication. His "tale of woe" is unquestionably founded on an incident of Dalles business life which he has accommodated to the exigencies of the pending campaign.

There never was a man in this country who received such a deluge of foul democratic abuse as Abraham Lincoln.

August the 17th, instant, the two younger children of George Bunn, of this city, developed diphtheria. The nature of the malady, however, was not suspected until the 20th, when Dr. Geisendorfer was called and promptly pronounced it diphtheria.

It takes unbounded impudence for a democrat to attempt to play the monitor with republicans in regard to Lincoln. The democratic leaders and press never discovered an atom of anything good in Lincoln while he was alive, and their gabble now about his views and policies, every one of which they opposed and showered with abuse, often expressed with filthy license, excites only a sense of disgust.

Senator Stewart's return to the republican party makes it certain that Nevada's electoral vote is lost to Bryan. The republicans lacked only a few votes of carrying the state in 1898.

DALLES DIPHTHERIC CASES.

The Antitoxine Treatment Has Proved Successful Both as a Remedy and a Preventive.

For many years diphtheria has been regarded as one of the most fatal of all diseases. It is epidemic in large cities, where hundreds of children die annually from it.

The supreme effort of the physicians has been to rescue humanity from this fatal malady. By the untiring efforts of such scientific investigators as Koch and Loeffler anti-diphtheric serum, or as it is called, anti-toxine, was discovered.

August the 17th, instant, the two younger children of George Bunn, of this city, developed diphtheria. The nature of the malady, however, was not suspected until the 20th, when Dr. Geisendorfer was called and promptly pronounced it diphtheria.

A rigid quarantine is the only reminder of the fear all people have of this disease and of the possible fate from which they have escaped. A thirty-days quarantine and a thorough disinfection of the premises will render the Dalles safe from any spread of the disease, nor should people have the fear of diphtheria now since antitoxine is employed to control it.

Bryan knows that there is one man at least who is pretty well known to the American people who will grieve sincerely when the news of democratic defeat is flashed all over the world on the night of November 6th.

Senator Stewart's return to the republican party makes it certain that Nevada's electoral vote is lost to Bryan.

WILL PROTECT GERMANS. BURLIN, Aug. 30.—In response to an appeal from the Germans in Hankow Emperor William wired the German consul there as follows: "Tell the German trading community, in answer to their telegram, that protection for the Yangtze valley will be provided on the arrival of nine warships now on the way to China."

Items From the Hood River Glacier.

Friends of Captain H. C. Coe will be pleased to learn that he has been notified by the examining board, who inquired into the charges that he was in any way responsible for the wrecking of the Billings, that he has been entirely exonerated from all charges of carelessness in the matter.

S. J. LaFrance and family left yesterday for Portland, where they have taken up their residence at 607, Sixth street. Mr. LaFrance goes to Portland to secure a position. It was twenty-five years ago when Mr. LaFrance came to Hood River, and at that time there were hardly more than twelve families in the valley.

A blight has damaged the tomato crop at Hood River this summer, and this favorite fruit is a scarce article. The fruit canneries consequently are unable to fill orders for this product. The White Salmon crop is affected in the same manner, but A. R. Byrket's ranch escaped the blight and his crop this year is a big one.

The construction gang of the O. R. & N. at work straightening the railroad between Hood River and Mosier, has established a camp among the cotton woods at the boat landing. The workmen came with the contractor from Minnesota and are here with their families, and have work which will keep them here for two years.

Bert Rand, accompanied by M. L. and R. J. Kinney, of Wamic, made the ascent of Mt. Hood last week from the Barlow road, on the south side. They made the ascent without a guide. Yucum, the guide from Government camp, preceded them with a party of four from Portland. In coming down the mountain the guide wanted Bert and his companions to use his rope, saying he would charge them only \$1.25 apiece. But the boys refused his assistance and didn't pay a cent.

A Plea for the Game Laws.

In our last issue, says the Scientific American, we mentioned the convention which was recently signed in London for the preservation of wild animals, birds and fish in Africa. It is gratifying to note that America has not been backward in the movement, which may be called international, to protect animals of certain species from wanton destruction.

A rigid quarantine is the only reminder of the fear all people have of this disease and of the possible fate from which they have escaped. A thirty-days quarantine and a thorough disinfection of the premises will render the Dalles safe from any spread of the disease, nor should people have the fear of diphtheria now since antitoxine is employed to control it.

Bryan knows that there is one man at least who is pretty well known to the American people who will grieve sincerely when the news of democratic defeat is flashed all over the world on the night of November 6th.
