#### PHOENIX'S SUMMER BEDROOM.

#### An Arisona Contrivance to Increase the Possibility of Getting a Little Sleep.

The cottonwoods have shed their enterpillars; there has been a thunderstorm; mesquite wood has fallen in price: Indians are selling bows and arrows; the rose and the oleander have long been out; oranges are in bloom; the umbrella tree is putting out its leaves; last summer's suit has been cleaned and pressed; the small boy has gone swimming in the canal; the wise man stays up nights and steals irrigation water from his neighbors; alfalfa is most ready to cut; strawberries have been shipped; mulberries are nearly ripe; summer will soon be here, and the Phoenix summer bedroom will soon be a necessity, says the Arizona

Phoenix sleeps out of doors in the summer, and the bedroom is born of that necessity. It is on stilts, is built of wire screen of fine mesh, for the Phoenix mosquito is microscopic in size. It is furnished, according to the taste of the occupant, with Interior curtains, to keep out the morning sun. the gaze of the curious and the sand

The bed is a cot of canvas or woven wire, covered perhaps with a sheet, but even a sheet feels like a feather bed on a Phoenix summer night. The bed covering is the roof of the bedroom and careless folks who consult their comfort only don't wear night

Phoenix is proud of its climate during eight months of the year, but it doesn't talk much in public about its midsummer. It is a right warm day when the government weather bureau doesn't know what the sun temperature is, and is unable to determine it. and that is how hot it gets in Phoenix. called on Observer Burns one day last July and asked him what the "official" temperature was in the sun He said he did not know, and that the government couldn't afford to experiment to that end. He said he had attempted to catch the sun temperature during the summer of 1898, and had broken a three-dollar thermometer in the attempt. To please my curiosity he hung a thermometer in the sun, watched it until it registered 136 degrees, and then took it in, fearing it would break.

The dryness of the atmosphere relieves this great heat of any ter rors to all living things except womer and cats. There is a saying in Phoenix that in summer women and cats are nervously prostrated, while men and dogs thrive and grow fat. There is a luxury in quenching one's thirst during the summer heat that is possible nowhere this side of the hereafter, and nothing will quench it so well as olls water. The average mortal can drink a gallon of water per day during the heated time, and apparently every drop of it comes out through the pores of the

### PEOPLE EAT TOO MUCH.

#### Starvation Is Successfully Used as Cure for Many Diseases by a Philadelphia Physician.

A Philadelphia physician of note, Dr. Edward H. Dewey, claims to cure all ask 'em." sorts of diseases by starving his patients. The brain, says this practitioner, never loses weight in either sickness or starvation. Usually the mind remains clear when the body has wasted away. The head is the powerhouse of the body. The stomach is run by brain power. When the stomuch does too much work it makes too great a demand upon the brain.

"For more than 20 years," writes this doctor, "I have permitted my sick to do without food so long as there was no desire for it. Not a mouthful was enforced in any case, not one mouthful denied on the first hint of "In this I have had all the medical

textbooks and the entire medical profeesion as authority unquestioned against me. That food is needed to sustain the strength of the sick has never been a matter of question with the medical profession.

"Many of my sick have gone for more than a month without food. One very sick, in bed for more than a month with acute rheumatism, was able to walk about the room on the forty-sixth day before the first food was taken. Another patient, a woman of 57, went until the forty-third day before she broke her fast, and without any omission of her ordinary duties. A dis-cased stomach was cured as the result and now, after five years, there has been no return of the trouble."

Physicians are pretty generally agreed that Americans eat too much—especially too much meat. The nobreakfast habit may not be so very silly after all.

### With Malicious Intent.

Mrs. Gibb-I have just been reading an item to the effect that a member of the German parliament once talked 42 hours without stopping. Do you believe that to be true?

Mr. Gibb-To be sure I do.

"Then it must be the longest continnous performance of that kind on record isn't it?"

"Possibly the longest on record, but there have been private performances that throw that completely in the shade. Why, I know a woman who has talked-let me see, dear. How long have we been married?"-Richmond Dispatch.

Why pay \$1.75 per gallon for inferior paints when you can buy James E. Patton's sun proof paints for \$1.50 per gallon, guaranteed for 5 years. Clark & ml

#### CIGAR STUBS OF CRIMINALS.

They Have a Generic Similarity of Value as Clews to the Detective.

According to Prof. Hans Gross, Berlin, valuable clews toward the d tection of criminals may be obtain through an examination of eigar tip Of course, this applies to those v smoke cigars the tips of which the carelessly throw away in the street elsewhere, says the London News.

"If you pick up any tip," he say "and examine it closely the chances at that you will be able to learn som thing as to the personality and soci position of the man who threw it awa in the case of criminals the first poli to be considered is the manner in which it was cut off from the cigar. If knife or any other Instrument w used for this purpose, then this instr ment will doubtless be found on the criminal. If, on the other hand, it was bit off with the teeth, a thorough e amination of the tip will show who kind of teeth were used for this pu

"A man with a row of even teeth wi bite off the end of his cigar square and evenly, whereas one with jagge uneven teeth will bite it unevenly and such a manner as to leave clearly vis ble the marks of his incisors. By con paring the marks on cigar tips with th teeth of suspected criminals prosecu ing officers and detectives will be ab to-obtain much information which the could not possibly obtain any other

#### GIRLS NEVER PAY BETS.

#### Expect the Men to Settle, But Are Oblivious of Their Own Obligations.

The man who makes a bet with a girl must expect to lose, whichever way things go. At the Washington park race course, says the Chicago Chronicle, thousands of pairs of gloves have been wagered this season, but the dealers have not profited except when the men have been the losers. One who has had a good deal of experience in betting with the fair sex said the other day: "I'd as soon expect diamonds to grow on trees as I would to have a girl pay a bet. They have queer notions about its being made in fun, and not counting, and all that. There's the bet I made with Lucy Jockman the time the house party was going down to Jackson park. She said she'd see the lake first, I said she wouldn't, and it was gloves to gloves, for we both needed them. Well. she was easy. All I had to do was to keep her talking about the time I knew the blue water line ought to heave think I got the glores? Well, I didn't. Didn't expect to when I made the bet.

"But if the shoe had been on the other foot, mind you-if I'd been the -I'd have had to pay up, of course. If I didn't, Lucy would have called me down roundly and I'd never have heard

the last of it."
"No, sir," her brother soliloquized.
"A man who makes a bet with a girl is sure to be swindled. He goes into it with his eyes open, of course, but he's swindled just the same. Never saw a fellow who didn't think the same way.

#### SUMMONS.

In the Circuit Court of the State of Oregon for Waseo County. The Oregon Railroad & Navigation Co., Philatiff,

John H. Koberg and Emma Koberg, his wife; Charles H. Graham; John Doe and Richard Ree, whose names are unknown, Defendants.

Rec, whose names are unknown.

To John H. Keberg, Emms Koberg, his wife; Charles H. Graham; John Doe and Richard Roe, whose names are unknown, Defendants: In the name of the State of Oregon:
You, and each of you, are hereby notified that the Oregon Railroad & Navigation Company has filed a complaint against you in the circuit court of the State of Oregon for the County of Wasco, and you are hereby required to appear and answer said complaint on or before the last day of the time prescribed by the order of publication, that is to say on or before Saturday, the 10th day of November, 1900. You are further notified that if you fail to appear and answer the complaint, or plead thereto, at said time, the plaintiff will cause your default to be entered and will apply to the court for the relief prayed for in the complaint: that is to say that an assessment of the damages which will result from the appropriation by the plaintiff of the ight too borrow earth, stone, grayed and other material from the five tracts of land here inafter described he had, and that on payment of the damages so assessed into the hands of the cierg of this court by the plaintiff, jadgment be given appropriating—aid property, and all of it, to the plaintiff.

The six tracts of land which are sought to be reconstituted herein and which are above re-

The six tracts of land which are sought to be appropriated herein and which are above re-ferred to, are particularly bounded and de-scribed as follows, to-wit:

ferred to, are particularly bounded and described as follows, to will:

Tract One—Beginning at a point in the easter-ty original right of way line of the relitosal, which point is 1618 feet north and 250 feet east from the quarter corner between socious thirty one (3) and thirty-two (3), township three (3) north, range cleven (11) east Williamete Meridian, and (6) feet distant from and measured at right angles to the revised center line; thence south-easterly on a curve to the left, having a radius of 2242 feet a distance of 327 feet to a point which is (6) feet distant from and measured at right angles to the revised center line, thence parallel with said revised center line and 50 feet distant northerly therefrom and on a course bearing south (6) degrees 51 minutes cast a distance of 285 feet to a point which is 50 feet distant from and measured at right angles to the revised center line; thence north (6) degrees 51 minutes west a distance of 00 feet to a point; thence on a curve to the right, having a radius of 2625 feet a distance of 96 feet to a point; thence on a curve to the right, having a radius of 2625 feet a distance of 96 feet to a point it the original right of way line of the relificad, which point is 50 feet distant from and measured at right angles to the revised center line; thence northwesterly along said original right of way line, a distance of 266 feet to the place of beginning, containing. Si zeres.

Tract two—Beginning at a point 1329 feet cast and 870 feet to my feet to revised center corner be

ning, containing 85 acres.

Tract two—Beginning at a point 1329 feet east and 870 fect north from the quarter cornor between said sections thirty-one (31) and thirty-two (32), township three (3) north, range cleven (11) east Willamett Meridian, which point is 50 feet distant from and messured at right angles to the revised center line of the railroan; thance or a course bearing south 60 degress 51 minutes east, parallel with and 50 feet distant southerly from said revised center line a distance of 380 feet to a point; thence on a curve to the right having a radius of 1323 feet a distance of 380 feet to a point on the southerly original right of way line of the railroad; thence northwesterly along said original right of way line of the railroad; thence northwesterly along said original right of way line a distance of 1003 feet to a point on the west line of lot three [3], section thirty-two [32]; thence south 10 feet to the place of beginning containing 1.3 acres

Tract three—Beginning at a point on the orig

the place of beginning, containing 1.2 acres

Truct three—Beginning at a point on the original right of way line of the railroad, which point is 2562 feet cast from the quarter of rier between sections thirty-one and thirty-two [32], township three [3] north, range cleven [11] cast Williametre Meridian, thence cast along the south tine of lot three [3], section thirty-two [32] a distance of '35 feet to a point which is 50 feet distant from and measured a tright angles to the revised center line; the ce on a course bearing north 41 degrees 40 minutes west a distance of 220 feet to a point in the original right of way line of the railroad; thence southensterly along said original right of way line a distance of 195 feet to the place of biginning, containing .05 acres.

Sale of Real Property.

Motice is hereby given that under and by virtue of an order dult made and entered in the place of b ginning, containing .05 acrees.

Tract four-Beginning at a point on the original right of way line of the arilroad, which is 05 feet west and 1945 feet north from the County Court of Wasso County, Oregon, on the 29th day of August, 1903, the undersigned, and indistrator with the will annexed, of the estate of Jonathan Jackson, deceased, will, from a content of the manner provided by law for the sale in the manner provided by law for the sale of real property by executors and administrator, of real property being in Wasso County, Oregon, to the vicin.

The NW15 of the SE4 of section fifteen (15), the E52 of the SW2 of section fifteen (15), the E53 of the SE4 of

feet to the place of beginning, containing 1.0s acres.

Tract five—Beginning at a point on the original right of way line of the railroad, which point is 218 feet west and 160s feet north from the southesst corner of said section thirty two (22), township three (3) north, range eleven (11) east Williamette Meridian, and 50 feet distant from and measured at right angles to the revised center line: thence on a curve to the left having a radius of 1328 feet parallel with and 50 feet distant from said revised center line a distance of 778 feet to a point on the original southerly right of way line of the railroad; thence casterly and southeasterly along said original right of way line a distance of 820 feet to the place of beginning, containing 88 acres.

Tract six—Beginning at a point on the east line of said section thirty-two (23), which point is 1428 feet north from the southeast corner of said section thirty-two, (32), township three (3) morth, range eleven (11) east Willamette Meridian, and 50 feet distant from and measured at right angles to the revised center line: thence on a course bearing north 57 degrees 35 minutes west a distance of 62 feet to a point in the original right of way line of the railroad; thence northwesterly along said original right of way line of the railroad; thence northwesterly along said original right of way line a distance of 192 feet to a point which is 50 feet distant from and measured at right and so feet distant from said revised center line: thence on a course bearing south 57 degrees 35 minutes cast parallel with and 30 feet distant from said revised center line a distance of 167 feet to the east line of said dot one (1); thence south 126 feet to the place - beginning, containing 23 acres.

The five tracts of land which are above reterred to and the right to occavate and borrow

The five trants of land which are above re-terred to and the right to excavate and horrow-earth, stone and gravel and other material from which is sought to be apprepriated herein are particularly described as follows, to-wit:

Tract I—From that tract lying southerly from tract number one above mentioned and between the right of way therein described and the original right of way line of the railroad and between Station 125 plus So of the revised center line of the railroad, and the south line of said lot four (4), containing .08 acres. Trast two—Also from that trast 25 feet in width lying southerly from tract number two and contiguous to the right of way therein described and between Station 1354-09 and Station 1359-00 of the revised center line of the railroad.

Tract three—Also from that tract lying in lots two (2) and three (3) contignous to and north-castery from the right of way described in tracts numbered three and four and between stations 1364 and 1370 of the revised center the of the raliroad, being a triangular piece 225 feet in width at said station 1370 and converging to a possist at the intersection of the original right of way line at Station 1364, containing 1.58 acres.

Tract four-Also from that tract 50 feet in width lying southerly from tract number five and contiguous to the right of way therein described and hetween stations 1386 and 1391 plus 52 of the revised center line of the railroad, containing .95 acres.

Tract five—Also from that tract lying between the right of way described in tract number six and the original right of way line of the railroad and between Station 13% of the revised contertine of the railroad and the east line of said section thirty-two (2.), containing 05 acres.

All of said premises are situated in lots 1, 2, 3 and 4, section 2, Loyenship 3 north, range 11 cast Willamette Meridian. 20aplmo-dw

The date of the first publication of this summons is Saturday, the 29th day of September, 1900, and of the last publication Saturday, the 19th day of November, 1900, and said summons shall be published on Saturday of each week for said period.

This summons is published by order of the Hon. W. L. Bradahaw, judge of the Seventh Tel. 328

Judicial District of Oregon, made at the H. F. CONNOR. W. H. WILSON.
