# DEATH OF OHIO'S AGED STATESMAN

Ex-Secretary of State John Sherman Passed Away Today-Brain Exhaustion Was the Cause of His Death, Which Occurred at 6:45 This Unconsciousness.

Sherman, who for a period of forty years, city in which proper punishment for occupied a prominent place in the legislative and administrative branches of public affairs in the United States, died here at 6:45 o'clock this morning of exhaustion.

Death came to the aged sufferer peacefully, after almost thirty-six hours of nearly complete unconsciousness. During the last fifteen hours of his life he was all the time unconscious and passed away while in this condition. A number of relatives and friends who had assembled in Washington in response to summons were at the bedside when the end came. The most devoted of them was Mrs. McCallum, the adopted daughter of the secretary, and Mrs. Sherman, who remained constantly at the bedside during the last hours.

Funeral services over the remains will be held in this city and Mansfield, the Ohio home where the Secretary and Mrs. Sherman spent so many of their summers. Interment will be in the family lot at that place and will occur in all probability on Thursday, the remains lying in state in the Episcopal church at Mansfield for about a day preceding the funeral services.

Brief services also will be held Tuesday and the body taken to Mansfield on a train leaving this city that night. The details are necessarily incomplete, but are of the general nature of those stated.

John Sherman was born in Lancaster, Ohio, on May 10, 1823. His father died when the boy was 6 years old, leaving him on the charity of relatives. At 12 he went to school at Lancaster, where he secured his school education. He studied law with his brother, C. T. Sherman at Mansfield, practicing there ten years and there marrying a daughter of James Stewart in 1848. In 1855 he was elected to the 34th congress, as a Free-Soiler, and was re-elected to the 35th and 36th. At that time be became a leader, taking rank as the foremost man on finance in the house.

In 1860 he was again elected to congress, and the following year, 1861, to the senate, where he stood as a leader ever afterwards during his service.

Senator Sherman was appointed by President Hayes in 1877 as secretary of the treasury. In 188! he re-entered the senate and was re-elected in 1887 and 1893. It was under his policy that specie payments were resumed in 1897, a move which is universally remarked by economists as important in the country's Distory.

President Mitchell is coming to Pottsville tomorrow, when there will be a monster demonstration of miners from all over Schuylkili county. On this occasion a speech is expected from him explaining his position on the powder question, which now stands in the way of a settlement of the strike.

Among some of the miners, the opinion is expressed that they should be allowed to go to work, now that the Reading company has granted them the 10 per cent increase asked for by the in town!" Scranton convention, and they are getting powder for \$1.50 a keg, but their leaders will listen to nothing of the kind, because they intend keeping the Schuylkill men out until the operators of the upper belt submit.

It is learned that even should the strike be settled this week and all the collieries resume, there will not be much reduction in the price of coal for the present, so that the public will have to largely bear the cost of the strike.

#### Twas a Hard Blow.

ASTORIA, Oct. 22,-The storm which lately swept over the coast was one of the most severe which has raged for years. The force of the gale was not felt in Asteria, but the storm hit the edge of the coast. At Seaside the wind blew a hurricane, and the ocean was lashed into fury, the waves going high upon the beach. The water, it is reported from Seaside, washed over Tillamook Rock lighthouse.

The pilot schooner Joseph Pulitzer experionced the full force of the blow, and is now in port for repairs as a consequence. The gale carried away her bulwarks, and during the storm her rudder worked loose. For a time it was feared the steering gear would be rendered useless, but the pilots managed to run into
