

THE END OF TAMMANY

Control of Spoils Passes Into Hands of Fusionists

MURPHY LOST CONTROL

Cohalen Lost Because He Built on Gaynor's Popularity—The Mayor or Only Successful Tammanyite.

(Special to The Evening News)
NEW YORK, Nov. 3.—The domination of Tammany Hall by Charles Murphy and Daniel Cohalen is believed to be at an end, for Tammany has virtually lost the election with the exception of Mayor Gaynor. Personally Murphy detested Cohalen; but Cohalen forced his own nomination. He believed Gaynor's personal popularity would elect the whole ticket. Charles H. Whitman, fusionist, is elected his successor. Jerome is elected over George Gordon after a hot battle.

The full extent of the defeat suffered by Tammany is shown in the fact that the Board of Estimates, which controls an expenditure of a billion of dollars every year will stand; fusion 13 votes and Tammany only three.

HENEY BADLY BEATEN

His Supporters say "No Flowers at Funeral"—Gaynor is Elected Mayor in New York; McCarthy Mayor of S. F.

(Special to The Evening News)
NEW YORK, Nov. 3.—William J. Gaynor was elected Mayor of Greater New York in the election held in this city yesterday, over Bannard, the Republican-fusion candidate, and W. R. Hearst, independent and heading the fusion ticket.

Contrary to public opinion as expressed by the talkers who thought they were alone on the inside, at no time in the day did Hearst have a show in the election, and the returns show that he ran a very bad third in the race. Not only did Gaynor show him under by an immense majority, but Bannard, his Republican opponent, served him likewise.

Hearst's defeat will always be regarded as a record breaker, it was so complete.

William A. Pendergast and John Purvey Mitchell were elected Comptroller and President of the Board of Aldermen respectively, by the combined fusion forces.

Complete returns from New York election on Mayor show Gaynor received 250,678 votes, Bannard 177,662 and Hearst 153,842. Gaynor's plurality 73,916.

SPECIAL SESSION HELD

City Council Liquidates the Claim of F. C. Frear

HARTONG TO PAY CITY

Street Sprinkler Purchased Through Beale & Company of Portland—Streets to be Swept Tonight.

Pursuant to a call of the Mayor the city council convened in special session last evening, disposing of numerous matters important to the councilmen as well as the citizens at large. Unlike the meeting held on the previous evening, however, spicy discussions were in order, and in several instances the Mayor was compelled to sound his gavel in restoring order. In brief the session proved true to vaudeville, the visitors being entertained from the very minute the meeting was called to order until final adjournment.

Purchase a Sprinkler.

The committee consisting of Councilmen Strong, McCall and Josephson, appointed at Monday's session of the council for the purpose of investigating the purchase of a street sprinkler and ratan brush submitted a written report. In substance the report simply informed the members of the legislative body that they had made an investigation as instructed and had purchased an Austin sprinkler from F. S. Patterson, a representative of Beale & Co., of Portland. The implement is considered one of the most modern on the market and was purchased for the sum of \$322.50. The tank has a capacity of 500 gallons and is equipped with a vertical spray.

To Clean Streets.

The members of the street cleaning department submitted a verbal report last evening in which they presented several recommendations as follows:

That the paved streets be cleaned more frequently in the future than in the past.

That the business men and others be compelled to move all unnecessary obstructions from the streets without delay.

That permits to use the streets be refused all contractors who persist in blocking the gutters in the paved district.

That all persons be notified to care for their refuse and not allow it to accumulate about their premises as has been customary in the past.

In regard to cleaning the streets Councilman McClallen said that he had received an offer from a responsible citizen who was willing to contract for the sprinkling, cleaning, and hauling away of the refuse for the sum of \$120 per month. As to the investigation relative to housing the street cleaning implements, McClallen said that such a report would be forthcoming at the next regular meeting of the council.

Councilman McCall expressed himself as opposed to paying \$120 per month for cleaning the streets without first experimenting. "We have never employed a man in this work," said Mr. McCall, "and therefore none of us know just how much time it will consume. I believe that we should get busy, employ a man and determine more intelligently what the task is worth. For all I know it may take four hours or twenty hours."

After a prolonged discussion it was decided to employ a man and team temporarily. The streets will probably be cleaned for the first time in several weeks tonight.

Frear is Paid.

The committee to whom the matter of investigating the Frear-Hartong controversy was referred at Monday evening's session of the council submitted a written report last night's meeting. In brief, they recommended that the city pay one half the claim of \$25.50, and that former City Engineer Hartong be compelled to square the balance. This report did not sound good to McClallen who declared that Hartong was either right or wrong, and therefore should be forced to make good the entire \$25.50 or nothing at all. McCall coincided with McClallen stating that he was of the opinion that Hartong was personally responsible for the error and should be compelled to make good. Upon being placed to a vote the report of the committee was rejected and Hartong held responsible for the entire claim of \$25.50.

A bill received from Hartong was then taken up for consideration. Among the itemized items were 3 day's labor amounting to \$15 and an additional sum of \$5, alleged to be due for tools lost by the city employees while working under the supervision of the engineering department.

After a prolonged discussion the bill of \$15 was allowed. Councilman McClallen resisting the lone dissenting vote. McClallen claimed that Hartong was employed by the city for the sum of \$150 per month and that therefore was not entitled to extra compensation for Sunday work. The bill for lost tools was rejected by an unanimous vote of the council, and the recorder was instructed to no-

SUBSTANTIAL INCREASE

Valuations Show Marked Increase For Coming Year

CORRECTED SUMMARY

Is Sent to the Secretary of State Last Evening—Levy May be Lower For 1910 Than at Present.

The Board of Equalization has completed the task of compiling the corrected summary of the tax roll for the year 1910. The total taxable property for the coming year approximates \$27,275,740.00 as against \$23,309,401.00 for the year 1909, or an increase of \$3,966,339.00.

The increase is the result of higher valuations placed on all property throughout the county in accordance with the state law which provides that all taxable property shall be assessed at its cash value.

The state and county levy for the year 1909 was 10 mills, but with the valuations showing such a marked increase for the year 1910 it may be possible that the levy will be decreased accordingly. The levy will be fixed during the meeting of the county court in January.

Following is the corrected summary which was sent to the Secretary of State last evening, as provided by law:

93,340 acres of tillable land, value, \$30,319.40; 18,688.55 acres of non-tillable land, \$136,566.80; implements on deeded or patented land, \$7,680.15; Town and city lots, \$11,620.75; Implements on town and city lots, \$11,861.75; Implements on lands not deeded or patented, \$1,382.80; 157 9-16 mile out railroad bed, \$40,822.60; 413 1/2 miles of telegraph and telephone lines, \$1,439.10; no miles of street railway bed; 384 9-10 miles railroad rolling stock, \$4,094.35; Steamboats engines and manufacturing machinery, \$3,335.00; Merchandise and stock in trade, \$5,734.10; farm implements, carriages, etc., \$1,461.80; Money, \$3,965.55; Notes and accounts, none; 294 shares of stock, \$1,614.10; Household furniture, watches, jewelry, etc., \$3,007.35; 5,678 Horses and mules, \$3,396.10; 18,425 Cattle, \$2,604.10; 66,429 Sheep and goats, \$1,679.90; 3,454 Swine, \$14,540.00; 237 Dogs, \$3,530.00; Total, \$272,757.40.

This statement angered McCall who replied that he would make the \$10 good to the city, regardless of whether Hartong paid or not.
