## FRENCH JUDGE TAKES A HALT

(Special to The Evening News)  
PARIS, Nov. 10.—"I am becoming angry. Don't exasperate me longer. I have been defending myself cautiously because unfortunately obliged to; but if you drive me to it I will cease to be discreet," exclaimed Madame Steinheil this morning in court. Justice De Valles evidently understood what the woman meant, for he immediately changed his line of questioning.  
It is believed there are grave possibilities of scandals breaking out at the trial which would disgrace French officials if Madame Steinheil reveals the history of her attempt to rule France through her lover.

### SUTHERLIN NEWS.

Bunch of Newsy Items From The News' Correspondent.

The petition to divide School district No. 39 into two parts came before the School Boundary Board at their meeting in Roseburg on Friday the 5th and was set aside. The object was to put the town of Sutherland in a district by itself.

A school election was held Saturday the 6th, and the voters carried a motion to move the present site to a point just west of the depot building at Sutherland. This will end the days of the old Fair Grove School, a landmark for the past forty years. A new and modern school building will be created immediately upon the new site and Sutherland will have a school building in keeping with the rapid development of its community. One whose architectural attractiveness will exemplify the good taste of its citizens.

The Shiria Lumber Company started its new saw mill on Monday. The plant is located at the mouth of Cooper Canal, a mile east of Sutherland and adjacent to the heavy timber. The plant is working six men at the present but intends to put on an additional force as soon as all machinery is installed.

F. B. Waite, I. L. Hatfield and E. C. Sabin spent Friday in Roseburg.

Mr. Lloyd Smith has moved into his new residence, which he has just completed. Mr. Smith intends building three more houses on his adjoining lots for renting.

Mr. Frank Gillette, the contractor, has his new cottage nearly completed and intends moving into it by the end of the week.

Mr. and Mrs. F. W. Franz and daughter Jean, left today for Eugene to visit their daughter Gladys who is attending the University of Oregon. E. C.

## ARE NOW DOWN OVER 600 FEET

Ross Goodman took a flying trip to Looking Glass yesterday, and visited the scene of operations for an oil well that is being bored for on the farm of James T. Goodman. He was present when the borings were cleaned out of the bore for the first time, and for the first time looked upon seepage oil from a well in Douglas county.  
Work is again resumed, and the well is down now over 600 feet. The drill is reaching a harder strata of rock and that is considered a most favorable sign, as no flow oil in any quantity could be expected until the shale encountered was passed. They are on at or near sea level.

### ORE TESTER HERE.

Arrived Here Last Evening and Will at Once be Taken to Mine.

The copper ore testing machine ordered from San Francisco several weeks ago by Morris and Bradley, owners of the large mines of copper in course of development near this city, arrived in this city yesterday afternoon, and will be taken out to the mines today.

There has been over a thousand tons of copper ore taken out of these mines, and the machine will be used to develop the value of the ore before it is yarded up preparatory to future shipment.

While much of the ore will be laid to one side for the time being, that which comes up to the standard set by the owners of the mines will be held until a certain number of tons are accumulated and shipped by railroad to a smelter.

A Cleveland dyspeptic, who has fasted fifty days, says he has not been bothered with indigestion during that period—and believes he has effected a cure.

Someone has truthfully said that nothing but a mint can make money without advertising. It might be added that the mint couldn't do it if it didn't put its competitors in jail.

# Rice & Rice, The House Furnishers

There's Nothing to Compare with a Little Home all Your Own. Wouldn't you like to make such happiness as this your happiness? Why don't you?

You've got the girl! Of course you have—what young man with thought of a little home all his own has not?  
You're anxious, so is she—what girl isn't for a little home all her own?

What's the trouble then—is it simply a question of not having the necessary cash to pay for all the things this little home will need? If that is the trouble don't let it stand in your way another minute—we'll fix up your little house just as you want it—just as cozily and comfortably as you and we together can plan it. You can furnish it complete, parlor to kitchen, with every needed thing—we've got every thing here that you can possibly need—in the latest, approved styles—and you can pay us a small sum at time of purchase—the balance in little weekly or monthly sums.

We will gladly arrange these payments in amounts to suit your needs. Won't you come in and let us plan this little home happiness for you?
