That Honey is again reappointed means that an end to the Hermann case one way or the other must come after many years of outrageous injustice.

A Portland woman sues her husband for divorce, \$50 alimony and two dogs. What she wants with the \$50 is a speculation unless it is to get meat for the dogs.

Appropriations on the National Treasury for \$4,624,000 were made for the current year to properly administer the lands in the forest reserves, most of which are in the Pacific States. So long as the East helps to pay this little levy it is up to the West to accept it.

An auto, a road house near Portland, three fools, a few schooners of joy water, the start for home, a mad whirl, and then the ditch. But though this drunken party ran down a farmer and his wife, they fortunately escaped serious injury. A jail sentence of about 29 years for such joy riders would be right.

Portland detectives are charged with affording protection to a band of crooks. Harry Lane, its former mayor, believed this to be the case and fired several of them. Now Municipal Judge Bennett will give the facts to the grand jury. It is likely some of the rascals will get their dues now that the judge is getting after them.

The periodical investigation into the affairs of the sugar trust is on at Washington, but although the combine has extracted untold millions from the public in way of prices and other schemes, the fact remains, in the face of all this official pow-wow, that the consumer still pays the high tariff for the cane or beet product.

Secretary Nagel, of the Department of Commerce and Labor, has ordered the release of L. Guterres de Lara, arrested at Los Angeles for incendiary speeches at that place just before President Taft arrived there. De Lara's only offense was being a socialist considerably too outspoken at the time everybody was afraid of harm coming to the President.

Portland is aroused over the statement of Municipal Judge Bennett that certain police and detectives are in league with criminals. Men who spend a lifetime, as many officials in the larger cities do, fattening at the public crib, get so they have neither conscience or manhood. No depth is too low for them so long as the deal brings money. Of all criminals such men are the worst and vilest, and even the devil hates them. Machine politics creates and maintains such conditions.

The prompt measures taken by the Portland authorities yesterday to drive the bunco men and detective pets out of the city, has caused the rascals to scatter everywhere, some of them, it is said having come this way. It would be well for Roseburg officials to keep an eye open for these fellows, and lug them upon their first appearance. They have only left Portland until the present trouble blows over, and will hold up in cities like this until it is safe for them to go back there.

A druggist of Victoria, B. C., by the name of Edward Allen, while hunting, had both eyes shot out and the bride of his nose torn out while sitting in an open space, by two men who ran away when he cried for help. There he remained until he was found by others. It appears that the authorities should be looking for somebody who wanted the druggist murdered. Had his shooting been an accident certainly those who did the shooting would not have left the wounded man to suffer like a dog.

Advertising space in The Evening News is practically at a premium right now, as patrons of the paper have been most liberal in their demands for representation in those columns. There is a reason—It pays. The Evening News endeavors to please its patrons by supplying Roseburg and Douglas county with an unapproachable news and telegraphic service, and, judging by commendatory letters and words from its hosts of friends and supporters, we know our efforts are not without results.

Nothing has been heard from the newspapers of Jackson county concerning the State of Shiklyon since the Yreka newspapers have endorsed the proposition and advocated enough territory be taken from California to give Yreka the capital of the proposed new State. Why this abatement in the state making business? It is because second sober thought makes the Shiklyon appear like a chain of McKinley mountains, or does some other section besides Yreka want the new capital in case a new state is formed?

There is no other printing plant in this section of the state where work is executed in such a modern way as at The News office. Thousands of pleased customers will attest to this fact. When an order is placed at this office it is not rushed through in a haphazard way, and "passed" out to a customer as "finished" work. Very much to the contrary. Every piece of printing that leaves The News office has the earmarks of men who know their business and has won for the paper the proud distinction of being the only first-class printing establishment in this part of the state.

IN MEMORIAM.

Died at his home on the Umpqua in Hill Settlement, November 12, 1909, Abisha B. Durnam. Deceased was born at Minneapolis, Minn., on March 18, 1860, and was married to Miss Margaret Monar in North Dakota in 1881. To this union was born three sons and three daughters, five of whom are living. The family came to Oregon and located on a homestead on the river about three months ago. Mr. Durnam came from Seattle three weeks ago, where he had been in quest of health. He joined his family on the homestead in hopes our invigorating climate would restore him to health, but it was too late.

By occupation Mr. Durnam was a

painter, and the malady causing his death was lead poisoning, aggravated by complication of other disease. Through some unfortunate circumstance in early life deceased became prejudiced against church organizations, but he believed in God as the Creator, and Jesus Christ as the Redeemer of man, and while he was a kind and loving husband and father, and an upright and honorable man. The sorrowing family have the sympathy of the entire neighborhood.

Watch us for another great sale of couches, in order that those who came too late for the last sale might avail themselves of deep cut in the prices. Rice & Rice.

ROSEBURG WINS

Cottage Grove Boys Outwitted in Every Instance.

The Nesmith county basketball team, comprised of Cottage Grove boys, met a miserable defeat at the hands of the local high school aggregation at Sykes' rink in this city last evening. At the conclusion of the game the score stood 31 to 6 in favor of the locals. Not at any time during the entire exhibition did the visitors show themselves equal to the occasion, in fact, they fell easy prey at the hands of the Roseburg bunch. The game was unusually clean and was witnessed by a large and enthusiastic crowd.

Following was the line-up of the team:
Cottage Grove.—Lewis, F.; Beals, F.; Allison, G.; Knox, G.; Hastings, C.; Mathews, Sub.
Roseburg High School.—Blakely, F.; Eddy, F.; Buchanan, C.; Tipton, G.; Street, G.

LARGEST APPLE YET.

It is Said to be the Largest in the World.

SPOKANE, Wash., Nov. 16.—A Spokane "beauty apple" displayed at the National Apple Show by F. L. Post & Sons, of Chelan, Wash., is credited with being the largest apple in the world. It measures 17 1/2 inches in circumference and weighs over 41 ounces. A Wolf River apple from Sharon, Wash., is 18 1/2 inches in circumference but weighs only 37 ounces. It is expected that the Post's specimen will be reproduced in a metal apple of its exact shape and size.

British Columbia visitors at the apple show will send a box of the choicest fruit to King Edward.

BOOTLEGGERS FINED
