

**ELKTON NEWS.**

E. Gruble of the Elkton hotel has returned home from Portland.

Quite a number of turkeys were prepared for shipment last week.

The Chinese from the Gardner cannery were here the first of the week enroute north.

Geo. Butler of Gray's Harbor has gone to Long Prairie to spend the holidays with relatives.

Mr. and Mrs. T. N. Grubbe who have been at Portland and other points for the last month, are expected home this week.

Mrs. H. H. Wittler, mother of Mrs. M. D. Thompson, has been quiet out of health for some time.

Christmas weather seems about to be with us. The thermometer went down to 30 above a few nights ago, and frost was almost like a light fall of snow. We note these things because it is not a common occurrence in this mild climate.

Butter and eggs are a very scarce commodity at present, much to the regret of the housewives who have in mind a big dinner soon.

Miss Jane Butler has been visiting in this vicinity for several days.

**THE HEALING STRENGTH OF MINERAL WATERS**

**In Cases of Dyspepsia, Rheumatism, Gout and Nervous Breakdown, Is Marvelous**

Upon recent investigation by eminent physicians, chemists and scientists it has been demonstrated that natural, earth flowing mineral waters are the most beneficial means for the cure of organic maladies.

Paso Robles Hot Springs are at this time the point of interest to most investigators, as recent occurrences have attracted the attention of the thinking world to these springs.

One of their chief points of interest to medical men is said to be that which proves that a pre-eminent action rests in the waters which flow from the earth at Paso Robles, California.

Paso Robles Hot Springs are making cures daily of rheumatism, gout, stomach trouble, neurotic diseases, kidney trouble, and general breakdown, which proves almost beyond question to medical men that there is some quality in these waters superior to any in this country and probably in the world.

It is also claimed for Paso Robles that the air conditions are perfect. It lies in a small valley protected by mountain ranges; is 720 feet above sea level and is not assailed by too much sea moisture or an abnormal temperature from the hot land winds.

This air condition is thought by some to have almost as much to do with its cures as the waters themselves.

The town like all health resorts, is filled with boarding houses of all kinds, so that every purse will be pleased. There are hotels for the rich, where any luxury may be had. Private baths for exclusive patrons who wish to be to themselves.

These springs have been known for centuries, for they were used by the Indian to cure his sick and later the Franciscan fathers performed wonderful cures here, but it is only

recently that the really marvelous powers of these waters were made known to the world at large.

Nearly every form of organic trouble is treated at these hot springs for the authorities welcome all except those who have tuberculosis or unclean diseases. For the man who suffers from overeating or from alcoholic excesses there is nothing in the world to equal a week spent at Paso Robles. It straightens him out with a rapidity that is wonderful, and the best recommendation is that they do away with the nerve-craving for stimulants because of their peculiar soothing effects upon the nervous system.

Truly speaking the study of Paso Robles Hot Springs is one which is giving the medical fraternity abroad and at home much interest, and is probably directing more attention to California than any other of her natural gifts to man.

A small book, neatly illustrated, has been recently published by the management telling the story of the Hot Springs in a most interesting manner and giving complete information. Send for it, either to Wm. McMurray, General Passenger Agent of the O. R. & N., Portland, Oregon, or Dr. F. W. Sawyer, manager, Paso Robles, California. tf.
