### PASTOR FORSAKES HIS FAMILY. Loves a Pretty Girl More Than Wife and Children.

Sacramento, Cal., Dec. 29.—Minister of the gospel, embezzler and deserter of his wife and children for a girl 20 years old, Rev. Edward O. Tibburn, said to be under arrest at Los Angeles, is wanted at Linton, Ind., to be tried on an indictment charging the embezzlement of \$2000 of church funds. A requisition arrived at Governor Gillett's office this morning. Tibburn was said to have actively

engaged in the raising of funds for a new church home for the Church of Christ of Linton and to have secured \$1000. In the alleged indictment he is accused of retaining \$200. Afterward Tibburn is said to have abandoned his family and to have been seen with Mary Smith at Bloomington, Ill., subsequently in Chicago and again in Portland, Oregon. Recognized by a man named Hull at Pasadena, his arrest followed when Hull communicated with the church trustees. The girl was said to have been with him at Pasadena. Officers to take Tibburn back to Indiana are looked for within a few days.

### THE POULTRY YARD.

Gather the eggs several times a day. Clean out the nest boxes and burn the old straw. Start right by getting better hens; and right by keeping them better. A good grain mixture for winter evening feeding is two-fourths whole corn, one fourth wheat and one-fourth oats. Increase the supply of corn in the evening feeding as the weather grows colder. Corn is an excellent heating food. Ventilation that comes in everywhere through the cracks is not ventilation at all; it is cold shivers up and down the back and lots of discomfort. Don't let it be that way in your houses. I never crowd too many into one house; six square feet of floor space for each bird is about right. I have found double-board floors, up off the ground, the best. I keep plenty of straw on the floors and throw the straw in this so they must work to find it. Changeable weather this month is apt to develop colds. Keep a close watch on the stock, and at once remove an ailing bird from the flock. A warm, dry coop or cage and a one-grain quinine pill each night for three nights in succession, will soon bring the bird back to good health. I kept close watch of my flock, and the hens that began to lay first after molting I put into separate pens. From these pens I gathered my eggs for hatching, and by so doing I have wonderfully improved the laying qualities of my flock. This mating has also been the means of raising birds with stronger constitutions—more hardy and vigorous. In cold weather I feed oats and bran mixed with milk or warm water. I allow the mixture to stand overnight and feed in the morning. In the afternoon I feed corn. I keep ground bone in a box where the fowls can have free access to it. Occasionally I also supply oyster shell. The shell is taken off the drinking water. The floor of the coop is bedded with straw or other litter. I have pullets that were hatched in July that began laying in January. One pullet in particular began December 20th, and is still laying. Before scalding the chicken cut off the soft, downy feathers about the tail. Separate all feathers in picking and allow them to dry. Make the amount of lime water required to immerse the feathers by decanting the mixture from a pound of quick lime to a gallon of water. Stir the feathers well in this for two or three days. Then skim and lift them out upon a sieve for draining. Rinse in hot water, and allow to dry. Spread on the floor in a warm room with mosquito netting covering. Once a day tap the cover with a stick so the air is changed. The dried ones will fluff, and can be collected after a few days.—From the January Farm Journal.

### NO FUND FOR BURBANK.

Carnegie's Trustees Are Said to Have Withdrawn Aid.

San Francisco, Dec. 30.—Commercialism, alleged to have been displayed by Luther Burbank in his experiments, was given to lay as the reason for the reported withdrawal of the Carnegie Institute's financial support of the plant wizard. Word was received here yesterday that the trustees of the institute, who recently met in New York, had decided to cut Burbank off from its benefactions, charging that his creations were being exploited for commercial purposes.

It was announced recently that Verbert Law and his brother, Harry and Lew, had formed a corporation to handle Burbank's products, and it was reported that this was the argument used against the continuance of the \$10,000 annuity which the institute had awarded Burbank.

At his Santa Rosa ranch Burbank declared he had heard nothing whatever of the matter, and added that he had been informed that Carnegie's support would be continued.

### THE HEALING STRENGTH OF MINERAL WATERS

In Cases of Dyspepsia, Rheumatism, Gout and Nervous Breakdown, Is Marvelous

Upon recent investigation by eminent physicians, chemists and scientists it has been demonstrated that natural, earth-brought mineral waters are the most beneficial means for the cure of organic maladies.

Paso Robles Hot Springs are at this time the point of interest to most investigators, as recent occurrences have attracted the attention of the thinking world to these springs.

One of their chief points of interest to medical men is said to be that which proves that a pre-emptive action rests in the waters which flow from the earth at Paso Robles, California.

Paso Robles Hot Springs are making cures daily of rheumatism, gout, stomach trouble, neurotic diseases, kidney trouble, and general breakdown, which proves almost beyond question to medical men that there is some quality in these waters superior to any in this country and probably in the world.

It is also claimed for Paso Robles that the air conditions are perfect. It lies in a small valley protected by mountain ranges; is 720 feet above sea level and is not assailed by too much sea moisture or an abnormal temperature from the hot land winds.

This air condition is thought by some to have almost as much to do with its cures as the waters themselves.

The town like all health resorts, is filled with boarding houses of all kinds, so that every purse will be pleased. There are hotels for the rich, where any luxury may be had. Private baths for exclusive patrons who wish to be to themselves.

These springs have been known for centuries, for they were used by the Indian to cure his sick and later the Franciscan fathers performed wonderful cures here, but it is only recently that the really marvelous powers of these waters were made known to the world at large.

Nearly every form of organic trouble is treated at these hot springs.

for the authorities welcome all except those who have tuberculosis or unclean diseases. For the man who suffers from overeating or from alcoholic excesses there is nothing in the world to equal a week spent at Paso Robles. It straightens him out with a rapidity that is wonderful, and the best recommendation is that they do away with the nerve-craving for stimulants because of their peculiar soothing effects upon the nervous system.

Truly speaking the study of Paso Robles Hot Springs is one which is giving the medical fraternity abroad and at home much interest, and is probably directing more attention to California than any other of her natural gifts to man.

A small book, neatly illustrated, has been recently published by the management telling the story of the Hot Springs in a most interesting manner and giving complete information. Send for it, either to Wm. McMurray, General Passenger Agent of the O. R. & N., Portland, Oregon, or Dr. F. W. Sawyer, manager, Paso Robles, California.

Have you discovered whether the pole has really been found or not?

### CLASSIFIED ADVERTISEMENTS

TO RENT—Two housekeeping rooms. Inquire at 603 Mill street. tf.

FOR RENT—Store room on Jackson street. Inquire Mrs. H. Easton. tf.

FOR SALE—Three choice lots on North Jackson street, set to fruit. Inquire at this office. d-swtf.

TO RENT—A very desirable seven room house. Inquire at No. 345 Pine street.

LOST—A fountain pen was lost today, Monday, December 20, on Sheridan street. Finder will please leave at The News office. d-tf.

FOR SALE—10 acres fine land, 1/2 mile from town; 2 acres orchard; all under cultivation; small house; barn 20x20; poultry, team and a wagon included. Only \$2500. Address N., this office. d31-sw-d

### PROFESSIONAL CARDS.
